Note

This and other government publications may be purchased from local authorized agents and other community bookstores or by mail order.

Mail orders should be sent to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7, or to Publishing Centre, Supply and Services Canada, Ottawa, K1A 0S9.

Inquiries about this publication should be addressed to:

Employment and Payrolls Section,
Labour Division,

Statistics Canada, Ottawa, K1A 0T6 (telephone: 992-5613) or to a local Advisory Services office:

St. John's (Nfld.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick, and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1(112)800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Ventes et services de publications, Statistique Canada, Ottawa, K1A 0V7, ou à Imprimerie et édition, Approvisionnement et Services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Section des statistiques de l'emploi et de la rémunération,
Division du travail,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 992-5613) ou à un bureau local des Services consultatifs situé aux endroits suivants:

St. John's (T.-N.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de la Nouvelle-Écosse, du Nouveau-Brunswick et de l'Île-du-Prince-Édouard en composant 1-800-565-7192. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1(112)800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

Symbols

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
 - nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- † revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

NOTE

1. In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.
2. As a result of updating our seasonal adjustment program, new seasonal factors have been derived for 1981 which may result in changes to the previously published seasonally adjusted series. January to date data have been revised and are available from Mr. R. Ouellette (613) 992-5613.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
 - néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- † nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

NOTES

1. On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.
2. Du à une modification de notre programme de désaisonnalisation, des nouveaux facteurs de désaisonnalisation furent calculés pour 1981 et de ce fait des changements peuvent résulter dans les séries désaisonnalisées déjà publiées. Les données pour janvier à date ont été ajustées et sont disponibles en contactant M.R. Ouellette (613) 992-5613.

COMMENTARY

First Estimates(1) — July 1981 (Seasonally Adjusted)

The first estimate of the Canada industrial composite(2) index of employment (1961 = 100) for July 1981 showed a 0.6% decrease from June. All industry divisions decreased except construction, trade and finance, insurance and real estate which increased and service which remained unchanged. All regions contributed to the decrease except Ontario which registered gains.

Average weekly earnings, at the national industrial level, advanced by 0.3%. Gains were registered in all industry divisions except construction and transportation, communication and other utilities which decreased. All regions contributed to the increase except the Prairie region and British Columbia which registered losses.

Preliminary Data — June 1981

Employment

Seasonally adjusted, preliminary data for June 1981 increased by 0.3% at the national industrial composite index of employment. Gains were registered in all industry divisions except forestry and finance, insurance and real estate which decreased and transportation, communication and other utilities which remained unchanged. All regions contributed to the increase except the Atlantic and Prairie regions which registered losses.

Earnings and Hours

Seasonally adjusted, average weekly earnings increased by 0.3% at the national industrial level. Gains were registered in all industry divisions except mining (including milling) and transportation, communication and other utilities which decreased. With the exception of the Atlantic region, all regions contributed to the increase.

Unadjusted, average weekly earnings increased by 0.9% to \$355.86 at the Canada industrial composite level. Average hourly earnings increased by 5 cents in manufacturing to \$9.14 and by 1 cent in construction to \$13.63 but decreased by 7 cents in mining (including milling) to \$11.92. Average weekly hours increased in construction but decreased in mining (including milling) and remained unchanged in manufacturing.

(1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.

(2) Industrial Composite is the sum for all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence.

OBSERVATIONS

Premières estimations(1) — juillet 1981 (chiffres désaisonnalisés)

Les premières estimations de l'indice de l'emploi pour l'ensemble des industries(2) révèlent une baisse de 0.6% de juin à juillet 1981. Toutes les divisions de l'activité économique ont diminué à l'exception de la construction, du commerce et des finances, assurances et immeuble qui ont augmenté et des services qui sont demeurés inchangés. Toutes les régions ont régressé à l'exception de l'Ontario qui a progressé.

Les gains hebdomadaires moyens au niveau de l'ensemble des industries du Canada révèle une hausse de 0.3%. On a observé des gains dans toutes les divisions de l'activité économique à l'exception de la construction et des transports, communications et autres services publics qui ont diminué. Toutes les régions ont participé à cette hausse à l'exception de la région des Prairies et de la Colombie-Britannique qui ont régressé.

Données provisoires — juin 1981

Emploi

Après désaisonnalisation, les données pour juin 1981 ont augmenté de 0.3% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont augmenté à l'exception du forestage et des finances, assurances et immeuble qui ont diminué et des transports, communications et autres services publics qui n'ont pas varié. Toutes les régions ont progressé à l'exception des régions de l'Atlantique et des Prairies qui ont régressé.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont accrus de 0.3% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont progressé à l'exception des mines (y compris le broyage) et des transports, communications et autres services publics qui ont diminué. Exception faite de la région de l'Atlantique, toutes les régions ont participé à cette hausse.

Les gains hebdomadaires moyens, non désaisonnalisés, ont affiché une augmentation de 0.9% pour atteindre \$355.86 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens ont augmenté de 5 cents dans les manufactures (\$9.14) et de 1 cent dans la construction (\$13.63) mais ont diminué de 7 cents dans les mines (y compris le broyage) (\$11.92). Le nombre d'heures hebdomadaires a augmenté dans la construction mais a diminué dans les mines (y compris le broyage) et est demeuré inchangé dans les manufactures.

(1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.

(2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

TABLEAU 9. Indices désaisonnalisés et non désaisonnalisés de l'emploi, certaines séries, Canada - fin

Year - Année	J	F	M	A	M	J	J	A	S	O	N	D	Average - Moyenne
1961=100													
Construction:													
adjusted - désaisonnalisé													
1978	104.1	102.2	102.1	102.1	101.2	101.4	99.0	97.1	98.0	97.4	96.0	96.0	96.0
1979	95.9	95.4	95.9	95.6	96.7	98.1	97.6	97.2	96.7	96.1	94.2	95.0	95.0
1980	95.2	95.6	94.2	92.5	92.4	89.8	93.0	93.4	93.9	93.9	94.1	94.1	94.1
1981	97.4	99.2	97.8	99.4	98.6								
unadjusted - non désaisonnalisé													
1978	89.3	87.0	89.2	94.2	103.5	108.8	108.2	108.2	109.8	108.0	100.2	88.5	99.6
1979	82.2	81.1	83.7	87.8	98.7	105.3	107.0	108.4	108.5	106.7	98.2	87.6	96.3
1980	81.6	81.3	82.2	84.6	94.1	96.3	102.2	104.4	105.6	104.5	98.0	86.7	93.4
1981	83.5	84.4	85.3	90.7	100.4								
Transportation, communication and other utilities - Transports, communication et autres services publics:													
adjusted - désaisonnalisé													
1978	129.7	131.1	130.8	131.2	131.6	132.6	133.1	132.7	134.1	133.8	134.6	134.4	134.4
1979	134.8	134.3	134.3	134.0	134.3	134.4	134.6	132.8	134.9	136.0	136.6	136.3	136.3
1980	137.5	137.4	138.8	139.0	139.5	139.5	139.1	140.2	139.2	140.0	140.3	140.7	140.7
1981	141.0	138.1	140.1	139.6	140.3								
unadjusted - non désaisonnalisé													
1978	125.9	127.4	127.5	129.3	133.1	136.7	136.9	135.9	137.1	134.9	133.7	131.5	132.5
1979	130.8	130.5	131.0	132.1	135.8	138.6	138.4	135.9	137.9	137.1	135.8	133.4	134.8
1980	133.6	133.4	135.4	136.9	141.1	143.9	143.1	143.3	142.2	141.1	139.5	137.8	139.3
1981	137.0	134.0	136.7	137.5	142.0								
Trade - Commerce:													
adjusted - désaisonnalisé													
1978	171.7	172.2	172.8	173.1	172.4	173.4	174.0	174.9	174.4	174.9	175.4	175.7	175.7
1979	176.4	176.2	176.6	177.3	178.5	178.8	180.0	181.1	181.2	180.8	181.5	180.7	180.7
1980	181.5	181.9	181.9	181.7	181.8	182.3	183.4	182.4	182.9	183.0	182.6	183.1	183.1
1981	185.0	185.7	185.7	186.1	186.2								
unadjusted - non désaisonnalisé													
1978	171.3	169.4	170.3	171.7	172.3	173.3	170.3	172.0	174.3	177.5	180.8	181.7	173.7
1979	176.0	173.5	174.0	175.7	178.2	178.6	176.3	178.4	181.3	183.4	187.1	186.7	179.1

**SOURCES FOR HISTORICAL DATA ON EMPLOYMENT,
EARNINGS AND HOURS(1)**
(based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

A. 1957-1960

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

B. 1961-1970

Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, *Catalogue 72-002, October 1971*.

Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

Average Weekly Earnings, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:

**SOURCES DES DONNÉES CHRONOLOGIQUES SUR L'EMPLOI,
(LES GAINS ET LA DURÉE DU TRAVAIL(1)**
(fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

A. 1957-1960

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967*; Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

B. 1961-1970

Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir *Employment, Earnings and Hours*, *n° 72-002 au catalogue, octobre 1971*.

Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

Gains hebdomadaires moyens, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

C. 1971-1974

Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.

Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.

Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.

D. 1977

January to June 1977 data were revised for Saskatchewan, Prairie Region, British Columbia, and Canada; the industries affected were Construction, Transportation, Communication and Other Utilities, and Industrial Composite. The revised data were published in the September 1977 issue of Catalogue no. 72-002.

E. 1978

January to June 1978 employment, earnings and hours data were revised for all industries and geographical areas. Revised data for January to April 1978 inclusively are contained

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n^o 72-002 au catalogue, juin 1972.

Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n^o 72-002 au catalogue, décembre 1971.

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n^o 72-504 au catalogue.

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n^{os} 72-201 et 72-202 au catalogue, 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1968-1970.

C. 1971-1974

Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada, Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n^o 72-002 au catalogue, juillet 1974.

Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communications et autres services publics et l'ensemble des industries. Voir le n^o 72-002 au catalogue, septembre 1974.

Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires— moyennes et rémunération horaire moyenne des ouvriers (heures— déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n^o 72-002 au catalogue, septembre 1974.

D. 1977

On a révisé les données de janvier à juin 1977 pour la Saskatchewan, la région des Prairies, la Colombie-Britannique et le Canada; les divisions de l'activité économique impliquées sont: la construction, les transports, communications et autres services publics et l'ensemble des industries. Ces données furent publiées dans l'exemplaire de septembre 1977 du numéro 72-002 au catalogue.

E. 1978

Les données sur l'emploi, les gains et la durée du travail pour les mois de janvier à juin 1978 ont été révisées pour toutes les branches d'activité et toutes les régions géographiques. Les données révisées

in "Employment, Earnings and Hours, January — April 1978" (Catalogue No. 72-517) and data for May and June 1978 are included in the July 1978 issue of Catalogue 72-002.

F.1980

January 1980 data in Construction and Industrial Composite were revised for New Brunswick, Atlantic Region, Quebec and Canada. The revisions were published in the April 1980 issue of Catalogue 72-002.

May to September 1980 data in Transportation, communication and other utilities, Transportation, Water transport and services and Industrial Composite were revised for Ontario and Canada. The revisions were published in the December 1980 issue of Catalogue 72-002.

-
- (1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

pour janvier à avril 1978 inclusivement figurent dans *Emploi, gains et durée du travail, janvier-avril 1978* (numéro 72-517 au catalogue) et celles pour mai et juin 1978 paraissent dans le numéro de juillet 1978 du bulletin 72-002.

F.1980

Les données du mois de janvier 1980 pour le secteur de la construction ainsi que pour l'ensemble des industries, ont été rectifiées pour les provinces du Nouveau Brunswick et du Québec, de la région de l'Atlantique et du Canada. Ces données apparaissent dans l'exemplaire du mois d'avril 1980 du numéro 72-002 au catalogue.

Les données pour les mois de mai à septembre 1980 pour le Transport communication et autres services publics, transports, transports par eau et services et l'ensemble des industries ont été rectifiées pour la province de l'Ontario et le Canada. Ces données apparaissent dans l'exemplaire du mois de décembre 1980 du numéro 72-002 au catalogue.

-
- (1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

CONCEPTS AND METHODS

Objectives

The Monthly Employment, Payrolls and Manhours survey is designed to measure the month-to-month trends of employment, paid hours and earnings for the commercial sector of the economy with the exclusion of agriculture, fishing and trapping.

These measures are expressed in an index form for employment and as weekly averages for earnings and hours paid. The data are compiled and published at detailed industrial and geographic levels.

Source of Data

The statistics contained in this report are based on information obtained through a mail census of "larger firms".

The firm is defined as any business entity whether incorporated or not; it comprises sole proprietorships, partnerships, corporations and other forms of organization such as co-operatives. Most firms consist of only one "establishment" (see definition under Industrial Classification) but in some cases the firm is made up of a number of establishments which may or may not be engaged in the same kind of economic activity.

A firm is considered as "larger" when it employs 20 or more persons in any one month of the year. Although the intent of the survey is to cover all such firms, it also includes some firms with less than 20 employees and excludes some firms with more than 20 employees; the reason is that, in practice, it is not always possible to capture promptly enough employment fluctuations in individual firms.

Universe

The universe for the survey is derived from a central file of employers maintained by the Business Register and Profiling Division of Statistics Canada.

Coverage

All commercial industries are covered by the survey, with the exception of agriculture, fishing and trapping; by definition such non-commercial sectors as education and related services, health and welfare services, religious organizations, private households and public administration and defense are excluded. Because the survey is limited to "larger firms", the proportion of total employment covered by the survey varies among industries, provinces and urban areas. The following table shows annual employment as compiled in the survey as a percentage of the estimated total number of employees, the latter being estimated by adding together data from the Employment, Payrolls and Manhours survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of the total number of employees are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

CONCEPTS ET MÉTHODES

Objectifs

L'enquête mensuelle sur l'emploi, la rémunération et les heures-hommes a pour objet de mesurer d'un mois à l'autre les tendances de l'emploi, des heures rémunérées et des gains touchés dans les secteurs commerciaux de l'économie à l'exception de l'agriculture, de la pêche et du piégeage.

Ces mesures sont exprimées sous forme d'indices dans le cas de l'emploi et de moyennes hebdomadaires dans le cas des gains touchés et des heures rémunérées. Les données sont rassemblées et publiées à des niveaux de détails raffinés selon l'activité économique et le lieu géographique.

Source des données

Les statistiques présentées dans ce bulletin sont fondées sur des renseignements obtenus au moyen d'un recensement postal des "grandes entreprises".

Le terme "entreprise" désigne toute entité commerciale constituée ou non en corporation; il peut s'agir d'une entreprise à propriétaire unique, d'une société en nom collectif, d'une corporation ou d'une autre forme d'organisation comme une coopérative. La plupart des entreprises ne comptent qu'un seul "établissement" (voir la définition sous la rubrique "Classement par activité économique") mais, dans certains cas, l'entreprise peut regrouper plusieurs établissements qui exercent ou non le même genre d'activité économique.

Une entreprise est considérée comme une "grande entreprise" si elle emploie 20 personnes ou plus pendant un mois quelconque de l'année. Bien que l'objet de l'enquête soit d'appréhender toutes les grandes entreprises, elle vise cependant quelques entreprises employant moins de 20 salariés et n'englobe pas toutes les entreprises comptant plus de 20 salariés, car, en pratique, il est presque toujours impossible de saisir rapidement toutes les fluctuations de l'emploi dans chacune des entreprises.

Univers

L'univers de l'enquête est établi à l'aide d'un registre central des employeurs tenu à jour par la Division des profils et du registre des entreprises de Statistique Canada.

Champ de l'enquête

L'enquête vise tous les secteurs commerciaux de l'activité économique à l'exception de l'agriculture, de la pêche et du piégeage; en sont donc exclus les secteurs non commerciaux comme l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux, les ménages privés et l'administration publique et la défense. Étant donné que l'enquête ne vise que les "grandes entreprises", la proportion de l'emploi total qu'elle appréhende varie d'une branche d'activité, d'une province et d'une région urbaine à l'autre. Le tableau qui suit indique l'emploi annuel relevé par l'enquête, exprimé en pourcentage du nombre estimatif total de salariés, l'estimation de ce dernier chiffre étant calculée en additionnant les données de l'enquête sur l'emploi, la rémunération et les heures-hommes avec celles d'une enquête par sondage et d'enquêtes supplémentaires menées auprès des petites entreprises. Les estimations du nombre total de salariés sont publiées dans le bulletin intitulé "Estimations du nombre de salariés par province et par industrie" numéro 72-008 au catalogue.

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes health (except hospitals), recreational, business, personal and miscellaneous services only. - Comprend seulement les services récréatifs, commerciaux, personnels, d'hygiène (sauf les hôpitaux) et divers.
- (3) Non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services, public administration, defence, fishing and trapping. - Ne comprend pas les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage.
- (5) Non-commercial services, public administration, defence, fishing and trapping are included in total estimated employment, but are not part of the larger-firm employment survey. - Les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.

Industrial Classification

All firms are assigned to an industry on the basis of their principal activity. In instances where the firm is engaged in only one kind of industrial activity, the industrial classification is straight forward. Classification problems arise when a firm is active in more than one kind of classifiable industrial activity. This usually occurs when a firm operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined, for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added" or "gross mark up" or "gross profit" as well as data on employment and payrolls.

For purposes of detailed geographical statistics, the establishment is often sub-divided into reporting units which, although not capable of reporting all basic industrial statistics, can report employment and payroll data for particular locations.

Classement par activité économique

Toutes les entreprises appartiennent à une branche d'activité économique qui est déterminée en fonction de leur activité principale. Si l'entreprise n'exerce qu'un seul genre d'activité économique, le classement est simple. Les problèmes surgissent lorsqu'elle en exerce plus d'un, par exemple lorsqu'elle possède plus d'un établissement. À des fins statistiques, on définit l'établissement, qui consiste habituellement en une usine, une mine, un magasin ou une unité semblable, comme la plus petite unité constituant un ensemble d'exploitation distinct en mesure de déclarer tous les éléments de base de la statistique des activités économiques, qui permettent de calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut", ainsi que des données sur l'emploi et la rémunération.

Pour permettre d'obtenir des statistiques géographiques détaillées, l'établissement est souvent subdivisé en unités déclarantes qui, bien qu'elles ne puissent fournir toutes les statistiques de base, sont en mesure de déclarer des données sur l'emploi et la rémunération pour des endroits particuliers.

The industrial classification of the statistics contained in this report is based on the Standard Industrial Classification for 1960. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue No. 12-501. The "S.I.C. code" columns of Tables 2, 3 and 4 correspond to the codes of this manual. These tables also contain the following groupings which are not part of the "Standard Industrial Classification Manual".

- (a) Industrial composite (031-899) It is the sum of all the industries included in the survey (see Coverage).
- (b) Durable goods manufacturing (durable) comprises wood products (250-259), furniture and fixtures (260-269), primary metal industries (290-298), metal fabricating industries (300-309), machinery except electrical (310-318), transportation equipment (320-329), electrical products (330-339), and non-metallic mineral products (340-359).
- (c) Non-durable goods manufacturing (non-dur) consists of food and beverages (100-147), tobacco processing and products (150-153), rubber products (160-169), leather products (170-179), textile products (180-229), knitting mills (230-239), clothing (240-249), paper and allied industries (270-274), printing, publishing and allied industries (280-289), petroleum and coal products (360-369), chemicals and chemical products (370-379), and miscellaneous manufacturing industries (380-399).
- (d) Building construction (404,421). It is the sum of general contractors (404) and special trade contractors (421).
- (e) Engineering construction (406,409) It includes highway, bridge and street construction (406) and other construction (409).
- (f) The synthetic textile industry (201) is sub-divided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).
- (g) Head Offices, sales and auxiliary units This special group includes head offices, sales branches and research laboratories for the following major groups of manufacturing: food and beverages (100), rubber products (160), paper and allied industries (270), primary metal industries (290), electrical products (330), and chemicals and chemical products (370).

Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The 1966 Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas; the definitions used for other urban areas are based on a labour market concept. The urban areas usually consist of the urban centre as well as the surrounding territory. A list showing the territory included in each tabulated urban area is available from the Employment and Payrolls Section. The reporting units not located in a tabulated

Le classement des statistiques présentées ici s'inspire de la Classification type des industries de 1960. Vous trouverez une description des diverses activités économiques et divers groupes d'activité économique dans le "Manuel de la classification type des industries," no 12-501 au catalogue.

- a) Ensemble des industries (031-899) - L'ensemble des activités économiques visées par l'enquête. (Voir champ de l'enquête)
- b) Manufactures, biens durables (durable) - L'ensemble de l'industrie des produits du bois (250-259), de l'industrie des meubles et accessoires d'ameublement (260-269), de l'industrie des métaux (formes primaires) (290-298), de l'industrie des produits métalliques (300-309), de l'industrie de la machinerie (sauf le matériel électrique) (310-318), de l'industrie du matériel de transport (320-329), de l'industrie des appareils et du matériel électriques (330-339), et de l'industrie des produits minéraux non métalliques (340-359).
- c) Manufactures, biens non durables (non dur.) - L'ensemble de l'industrie des aliments et boissons (100-147), de l'industrie du traitement et des produits du tabac (150-153), de l'industrie des produits du caoutchouc (160-169), de l'industrie des produits du cuir (170-179), de l'industrie des produits du textile (180-229), de l'industrie de la bonneterie (230-239), de l'industrie du vêtement (240-249), de l'industrie du papier et des produits connexes (270-274), de l'imprimerie, de l'édition et des industries connexes (280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (360-369), de l'industrie chimique et des produits connexes (370-379), et des industries manufacturières diverses (380-399).
- d) Bâtiment (404, 421) - L'ensemble des entrepreneurs généraux (404) et des entrepreneurs spécialisés (421).
- e) Génie civil (406,409) - L'ensemble de la construction de routes, ponts et rues (406) et des autres constructions (409).
- f) L'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).
- g) Sièges sociaux, bureaux de vente et services auxiliaires. Ce groupe spécial comprend les sièges sociaux, les bureaux de ventes, les succursales et les laboratoires de recherche des entreprises faisant partie des groupes d'activité économique suivants: industries des aliments et boissons (100), industrie du caoutchouc (160), industrie du papier et des produits connexes (270), industrie des métaux (formes primaires) (290), industrie des appareils et du matériel électriques (330) et industrie chimique et des produits connexes (370).

Classement géographique

On attribue les unités déclarantes à une province, un comté (selon la définition utilisée aux fins du recensement de la population) et, s'il y a lieu, à une région urbaine. Les données se rapportant à Terre-Neuve, à l'Île-du-Prince-Édouard, à la Nouvelle-Écosse et au Nouveau-Brunswick sont regroupées dans certains tableaux pour présenter l'ensemble des statistiques de la région de l'Atlantique. De la même façon, les données relatives au Manitoba, à la Saskatchewan et à l'Alberta sont additionnées pour indiquer les totaux de la région des Prairies. La définition du terme "région métropolitaine" utilisée aux fins du recensement de la population de 1966 a été retenue pour les dix-neuf régions urbaines; les définitions utilisées pour les autres régions urbaines sont fondées sur un concept du marché du travail. Une région urbaine se compose habituellement d'un centre urbain et du territoire qui l'entoure. Vous pouvez vous procurer une liste indiquant le territoire compris dans

urban area or not allocated to a compiled county, are included in provincial, regional and national totals.

Definitions

1. Reference Period

Conceptually, the data in this report refer to the last seven days in the specified month. In practice, few firms keep payroll records covering precisely this period. Therefore, firms are permitted to report for their last pay period or pay periods in each month. When the reported pay period is longer than one week, the data are reduced to a week using the number of days the firm usually operates during a week divided by the number of working days covered by the reported pay period.

If, owing to strikes, unpaid holidays or other similar factors, the data for the reported period are not representative of the reference period, adjustments are made to reflect the situation of the last seven days of the month.

2. Employee

All persons drawing pay for services rendered or for paid absence during the survey reference period and for whom an employer makes CPP or QPP and/or UIC contributions constitute employees.

The employee concept comprises full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment), and casual employees (those who are hired for discontinuous periods or on an irregular basis and who worked at least seven hours during the reference period). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses and professional practices, the self-employed, unpaid family workers, persons doing non-remunerative work, pensioners, home workers, members of elected or appointed bodies, military personnel and persons providing services to an establishment on a contract basis.

An employee paid for a part of the reference period and unemployed or on strike for the rest is counted as employed. Persons not receiving pay for the entire reference period are excluded.

The employees are classified into two broad occupational categories, namely: salaried employees and wage-earners:

(a) Wage-earners

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. All the above-mentioned employees are considered to be

chaque région urbaine figurant dans les tableaux en vous adressant à la Section des statistiques de l'emploi et de la rémunération. Les chiffres des unités déclarantes situées ailleurs que dans une région urbaine indiquée dans les tableaux ou non attribuées à un comté dont le nom figure sur la liste font partie des totaux provinciaux, régionaux et nationaux.

Définitions

1. Période de référence

En théorie, les données sur l'emploi se rapportent aux sept derniers jours du mois de référence. En pratique, étant donné que peu d'entreprises tiennent des registres de paye pour cette période précise, on leur permet de faire porter leur déclaration sur la (les) dernière(s) période(s) de paye de chaque mois. Lorsque la période de paye sur laquelle porte la déclaration dépasse une semaine, on rajuste les données en effectuant le calcul suivant: on divise le nombre de jours d'activité hebdomadaire de l'entreprise par le nombre de jours ouvrables compris dans la période de paye sur laquelle porte la déclaration.

Si, en raison d'une grève, d'un congé non payé ou d'autres facteurs semblables, les données déclarées ne sont pas représentatives de la période de référence, on procède aux rajustements qui s'imposent afin de traduire la situation pendant les sept derniers jours du mois.

2. Salarié

Toute personne qui est rétribuée pour ses services ou ses absences pendant la semaine de référence et pour laquelle l'employeur verse des contributions au R.P.C. ou au R.R.Q. et à la caisse d'assurance-chômage, est un salarié.

La catégorie "salariés" comprend les salariés à temps plein, les salariés à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise) et les salariés occasionnels (ceux qui sont embauchés de façon temporaire ou irrégulière et qui ont travaillé au moins sept heures au cours de la période de référence). Elle comprend aussi les propriétaires, les administrateurs, les associés et les autres dirigeants d'entreprises constituées en société.

Le concept des salariés exclut les propriétaires et les partenaires d'entreprises non constituées en corporation et ceux qui possèdent un bureau pour l'exercice d'une profession, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les retraités, les travailleurs à domicile, les membres de corps élus ou nommés, le personnel militaire et les personnes fournissant des services à un établissement sur une base forfaitaire.

Sont visées les personnes qui ont été payées pendant une partie de la période de référence mais qui étaient en chômage ou en grève pendant le reste de la période. Les personnes n'ayant pas touché de paye pour la période de référence entière ne sont pas visées.

Les salariés sont classés en deux catégories professionnelles, soit les employés et les ouvriers:

a) Ouvriers

Cette catégorie comprend les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaitres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Toutes ces personnes sont considérées comme des ou-

wage-earners regardless of whether their earnings are based on monthly, hourly or other rates of pay. Average weekly wages are computed for all wage-earners but average weekly hours and average hourly earnings are calculated only for wage-earners for whom hours data are available.

(b) **Salaried Employees**

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

3. **Earnings**

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piece-work and regular commission earnings, regular paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey reference week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained these data combined under "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners were available.

4. **Paid Absence**

Paid absence comprises paid holidays, vacation, sick leave including industrial injury and personal leave such as bereavement leave, jury duty, etc.

5. **Standard Work Week**

The standard work week is the number of hours or days of work normally scheduled for the majority of full-time employees.

Methodology

The data appearing in this report were collected by means of questionnaires mailed monthly to firms covered by the survey. In order to improve the quality of data, the response rate

vriers, que leurs gains soient fondés sur des taux de rémunération mensuels, horaires ou autres. Les salaires hebdomadaires moyens sont calculés pour tous les ouvriers, mais les heures hebdomadaires moyennes et les gains horaires moyens sont calculés uniquement pour ceux dont on connaît le nombre d'heures de travail.

b) **Employés**

Cette catégorie comprend les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

3. **Gains**

Les gains des ouvriers et des employés représentent la rémunération brute de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les traitements, les salaires au taux ordinaire, les gains provenant du travail à la pièce et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de référence. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les contributions de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents du travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur du couvert et du gîte, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "gains" désigne l'ensemble des salaires hebdomadaires des ouvriers et des traitements des employés. Les publications antérieures à mars 1971 présentaient les données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "gains hebdomadaires moyens" des salariés pris en compte ici. Ce système permet maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "salaires hebdomadaires moyens" des ouvriers rémunérés à l'heure.

4. **Absence payée**

Les absences payées comprennent les jours fériés payés, les vacances, les congés de maladie, ainsi que les congés d'accident du travail et les congés personnels tels que les congés de deuil et les congés pour fonctions de jury.

5. **Semaine normale de travail**

La semaine normale de travail est le nombre d'heures ou de jours de travail normalement prévus pour la majorité des salariés à temps plein.

Méthodologie

Les données présentées dans cette publication ont été recueillies au moyen de questionnaires postaux envoyés chaque mois à toutes les entreprises faisant partie de l'enquête. Afin d'améliorer la qualité des

is increased through two reminders mailed to all non-respondents one month and two months after the initial mail-out. If the two reminders do not produce a response, the Regional Operations Division of Statistics Canada attempts to obtain the required data by telephone or in a personal interview. These steps result in a final response rate of over 80%. Firms for which no response is obtained are still accounted for in the employment, earnings and hours tables of this publication. The method for imputing for non-response is explained under 'Imputation' below.

1. Data Edit

All the completed questionnaires which reach Statistics Canada are carefully edited for completeness, consistency and accuracy both manually and using computer edit procedures. To perform the computer edit, the responses are assembled into imputation groups which are formed on the basis of industrial classification, geographic area and size of the reporting unit. The composition of these groups is such that they consist of reporting units similar with respect to the characteristics being measured and with respect to relationships between these characteristics. This edit compares the value of a characteristic (number of employees, hours worked, salary per employee, the ratio of the present number of employees to last month's number of employees, etc.) to the corresponding value of the characteristic for the same unit of the previous month and/or for the imputation group. The amount by which a characteristic is allowed to vary from the average imputation group value is calculated separately for each group and for each characteristic and depends on the homogeneity and stability of the group itself.

When a figure varies too much from the average value for the imputation group, or when only partial response is received, the record is signaled by the computer edit for inspection and subject to correction or acceptance as appropriate.

2. Imputation

Every month, there are reporting units for which no response is received. For those newly introduced into the survey, data are manually imputed based on other sources of information such as the employment intention of the firm and the characteristics of firms in the same industry and geographic area.

Imputation for reporting units, for which data for the previous month are available, is based on the monthly changes reported by responding units within the same imputation group. A ratio of monthly change for each characteristic is applied to the previous month's data of each non respondent.

Reliability of the Estimates

Because the Monthly Employment, Payrolls and Man-hours survey is a census, any inaccuracy in the results is due to non-sampling error. Some of the factors contributing to non-sampling error are the inability to obtain responses from all in-scope reporting units. The problems associated in identifying all in-scope reporting units in a timely fashion, incorrect responses supplied by respondents and errors in coding and processing data. Non-sampling errors are difficult to measure and no estimate of this type of error has been obtained for this survey. However, every attempt has been made to minimize

données, on accroît le taux de réponse en faisant parvenir deux lettres de rappel à toutes les entreprises non répondantes un mois et deux mois après l'envoi initial du questionnaire. Si elles ne répondent toujours pas après avoir reçu les deux avis, la Division des opérations régionales de Statistique Canada tente d'obtenir les données nécessaires par téléphone ou au moyen d'une interview sur place. Ces mesures permettent généralement de hausser le taux de réponse à plus de 80%. Les entreprises qui ne répondent pas à l'enquête sont quand même prises en compte dans les tableaux de la publication portant sur l'emploi, les gains et les heures de travail. La méthode d'imputation pour les entreprises non répondantes est expliquée ci-dessous sous la rubrique 'Imputation'.

1. Vérification des données

Tous les questionnaires remplis renvoyés à Statistique Canada sont soigneusement vérifiés à la main et par ordinateur pour assurer qu'ils sont complets, cohérents et exacts. Pour être vérifiées par ordinateur, les réponses sont réparties en groupes d'imputation constitués en fonction du classement par activité économique, du lieu géographique et de la taille de l'unité déclarante. La composition de ces groupes est telle qu'ils regroupent des unités déclarantes qui présentent les mêmes caractéristiques et dont les caractéristiques affichent les mêmes liens entre elles. Cette vérification permet de comparer la valeur d'une caractéristique (nombre de salariés, heures de travail, gains par salarié, rapport du nombre actuel de salariés à celui du mois précédent, etc.) par rapport à la valeur de la caractéristique correspondante du mois précédent pour la même unité déclarante et/ou pour le groupe d'imputation. L'écart qui peut séparer la valeur d'une caractéristique et la valeur moyenne de la même caractéristique pour le groupe d'imputation tout entier est calculé séparément pour chaque groupe et pour chaque caractéristique, et dépend de l'homogénéité et de la stabilité du groupe lui-même.

Lorsqu'un chiffre s'écarte trop de la valeur moyenne pour tout le groupe d'imputation, ou lorsqu'on ne reçoit qu'une réponse partielle, l'unité déclarante est signalée lors de la vérification par ordinateur pour inspection et est sujette à être corrigée ou acceptée selon le cas.

2. Imputation

Chaque mois il existe certaines unités déclarantes dont on ne reçoit aucune réponse. Pour ces unités qui sont nouvellement introduites dans l'enquête, les données sont imputées manuellement et sont basées sur d'autres sources d'information telles que l'intention d'emploi de la firme et les caractéristiques des entreprises qui font partie de la même branche d'activité et qui sont situées dans le même lieu géographique.

L'imputation des unités déclarantes dont les données du mois précédent sont disponibles, est basée sur les changements mensuels rapportés par les unités déclarantes faisant partie du même groupe d'imputation. Un rapport du changement mensuel pour chaque caractéristique est appliqué aux données du mois précédent pour chaque entreprise non répondante.

Fiabilité des estimations

L'enquête sur l'emploi, la rémunération et les heures-hommes étant une enquête exhaustive, toute inexactitude dans les résultats est attribuable à une erreur d'observation. Parmi les exemples de sources d'erreurs d'observation, citons l'impossibilité d'obtenir des renseignements de toutes les unités faisant partie de l'enquête, les problèmes associés avec l'identification de toutes les unités qui devraient faire partie de l'enquête et ce dans le plus bref délai, les renseignements inexacts fournis par les entreprises répondantes et les erreurs de codage et de traitement des données. Les erreurs d'observation sont difficilement quantifiables et l'on n'a pas établi d'estimation de ce genre d'erreur pour

non-sampling errors by the use of a carefully designed and carefully worded questionnaire, the relative simplicity of the data requested, follow-up of non-respondents, thorough editing of data and control of the processing operations.

Statistical Presentation

1. Data Revision

Each month, statistics for the three latest months are prepared by the Employment and Payrolls Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 55%) and only highly aggregated figures are released in the Statistics Canada *Daily* and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current month and third estimates for the month prior to that. For both of these estimates which are based on a higher rate of response (approximately 75% and 82% respectively), full details are shown in this publication.

After completion of the third estimate, revisions to the data are made occasionally to incorporate large changes. The section, "Sources for Historical Data on Employment, Earnings and Hours", lists the issues that contain the revisions received from respondents or to rectify mechanical errors. These corrections appear in the tables of this publication.

2. Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly - average of the total base year employment (or payroll).

The index numbers constitute a better measure of the monthly trends in statistical series than the actual values because they are not effected by certain changes. For example, a large firm erroneously missing from the survey can be introduced by adjusting both the current and base year data and, thus, will not distort the monthly changes indicated by the index numbers. However, the measure of the monthly trend calculated from the actual value will be biased because the additions which should be reflected in all months are only included from the time the correction is made.

The technique used assumed that the change was applicable to the base period. When this assumption is incorrect, a bias is introduced in the long term trends.

3. Averages

Average weekly earnings for all employees are obtained by dividing the total weekly payrolls by the total number of employees. Average weekly earnings for salaried employees are obtained by dividing the total weekly salaries by the total number of salaried employees. Average weekly earnings for all wage-earners are obtained by dividing the total weekly wages by the total number of wage-earners.

Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. The average weekly hours figure is obtained

cette enquête. Toutefois, tous les efforts ont été faits pour minimiser les erreurs d'observation grâce à la conception et à la formulation soignées des questionnaires, la simplicité relative des données demandées, la relance des entreprises non répondantes, la vérification approfondie des données et le contrôle rigoureux des opérations de traitement.

Présentation statistique

1. Révision des données

Chaque mois, la Section des statistiques de l'emploi et de la rémunération prépare des statistiques pour les trois derniers mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (habituellement environ 55%) et seuls des chiffres très généraux sont publiés dans le *Quotidien* de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxièmes estimations pour le mois qui précède le mois le plus récent, et des troisièmes pour le mois qui précède celui-là. La présente publication contient tous les détails, pour ces deux dernières estimations qui sont basées sur un plus grand nombre de réponses (environ 75% pour les deuxièmes estimations et 82% pour les troisièmes).

Une fois terminées les troisièmes estimations, on modifie à l'occasion les données à la lumière de révisions importantes. La partie intitulée "Sources des données chronologiques sur l'emploi, les gains et la durée du travail" énumère les publications contenant les révisions.

2. Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base.

Les nombres-indices constituent une mesure plus valable des tendances mensuelles observées dans les séries statistiques que les valeurs réelles, car ils ne sont pas touchés par certaines variations. Par exemple, on peut introduire dans l'enquête une grande entreprise qu'on a oublié de dénombrer lors du listage en rajustant à la fois les données de l'année courante et celles de l'année de base et, ainsi, éviter de fausser les variations mensuelles affichées par les nombres-indices. Toutefois, toute mesure de la tendance mensuelle calculée à partir de la valeur réelle comportera un biais, car les ajouts qui devraient être faits pour tous les mois ne sont effectués qu'à partir du moment où la correction est apportée.

Cette procédure, suppose que le changement, s'appliquait aussi à l'année de base, lorsque cette hypothèse s'avère fausse, un biais se crée dans les tendances à long-terme.

3. Moyennes

On obtient les rémunérations hebdomadaires moyennes en divisant les rémunérations hebdomadaires totales par le nombre total de salariés. On obtient les rémunérations hebdomadaires moyennes pour les employés à salaire en divisant le total des salaires hebdomadaires par le nombre total d'employés à salaire. On obtient les rémunérations hebdomadaires pour les ouvriers en divisant le total des rémunérations hebdomadaires des ouvriers par le nombre total des ouvriers.

On obtient les gains horaires moyens en divisant le salaire hebdomadaire total des ouvriers rémunérés à l'heure par le nombre total d'heures par semaine. On calcule les heures hebdomadaires

by dividing total weekly man-hours by the number of wage-earners who were paid for those hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earners total includes part-time wage-earners and casuals working more than seven hours during the survey reference week.

4. Seasonal Adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods. It should be noted that the seasonally-adjusted series contains irregular as well as long-term cyclical fluctuations.

The X-11 variant of the U.S. *Census Method II* is used to seasonally adjust the data. This seasonal adjustment system is a complex computer program which differentiates between the seasonal trend and the irregular movements in a series over a number of years and, on the basis of past movements, estimates appropriate seasonal factors for current data. On an annual basis the entire historical series of seasonally-adjusted data is revised in light of the most recent information on changes in seasonality.

This system is used to calculate the seasonally-adjusted employment index numbers, and the average weekly hours and average hourly earnings for selected statistical series. Additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series, January 1961 - December 1977" (Catalogue 72-206).

5. Confidentiality

The information presented in this publication has been reviewed to ensure that the confidentiality of individual responses is respected.

moyennes en divisant le nombre hebdomadaire total d'heures-hommes par le nombre d'ouvriers qui ont été payés pour ces heures. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. Il convient de remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le nombre total d'ouvriers comprend les ouvriers à temps partiel et occasionnels qui ont travaillé plus de sept heures pendant la semaine de référence.

4. Désaisonnalisation

Les fluctuations des séries chronologiques économiques sont causées par des mouvements saisonniers, cycliques et irréguliers. Une série désaisonnalisée est une série dont on a éliminé les effets des mouvements saisonniers. Les mouvements saisonniers sont ceux qui sont causés par des événements annuels réguliers comme les changements de température, les cycles agricoles, les jours fériés et les vacances. Il convient de noter que la série désaisonnalisée contient des fluctuations irrégulières ainsi que des fluctuations cycliques à long terme.

La variante X-11 de la *Method II* de désaisonnalisation du U.S. Bureau of the Census est utilisée pour désaisonnaliser. Ce système permet de déceler les mouvements saisonniers, tendanciels et irréguliers au cours d'une période de plusieurs années et, à la lumière des mouvements passés, d'estimer les coefficients saisonniers appropriés pour l'année en cours. Sur une base annuelle, toute la série chronologique des données désaisonnalisées est révisée à la lumière des renseignements les plus récents sur les changements de saisonnalité.

Ce système est utilisé pour calculer les nombres-indices désaisonnalisés de l'emploi, ainsi que les heures hebdomadaires moyennes et les gains horaires moyens pour certaines séries statistiques. Vous trouverez d'autres séries désaisonnalisées dans le bulletin *Emploi, rémunération et heures, séries désaisonnalisées, janvier 1961 décembre 1977*, numéro 72-206 au catalogue.

5. Confidentialité

Les données présentées ici ont été examinées afin d'assurer que la confidentialité des réponses des entreprises soit respectée.

Employment, earnings and hours

August 1981

Emploi, gains et durée du travail

Août 1981

Note

This and other government publications may be purchased from local authorized agents and other community bookstores or by mail order.

Mail orders should be sent to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7, or to Publishing Centre, Supply and Services Canada, Ottawa, K1A 0S9.

Inquiries about this publication should be addressed to:

Employment and Payrolls Section,
Labour Division,

Statistics Canada, Ottawa, K1A 0T6 (telephone: 992-5613) or to a local Advisory Services office:

St. John's (Nfld.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick, and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1(112)800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Ventes et services de publications, Statistique Canada, Ottawa, K1A 0V7, ou à Imprimerie et édition, Approvisionnements et Services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Section des statistiques de l'emploi et de la rémunération,
Division du travail,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 992-5613) ou à un bureau local des Services consultatifs situé aux endroits suivants:

St. John's (T.-N.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de la Nouvelle-Écosse, du Nouveau-Brunswick et de l'Île-du-Prince-Édouard en composant 1-800-565-7192. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1(112)800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

Symbols

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- P preliminary figures.
- ^r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

NOTE

1. In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.
2. As a result of updating our seasonal adjustment program, new seasonal factors have been derived for 1981 which may result in changes to the previously published seasonally adjusted series. January to date data have been revised and are available from Mr. R. Ouellette (613) 992-5613.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- P nombres provisoires.
- ^r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

NOTES

1. On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.
2. Dû à une modification de notre programme de désaisonnalisation, des nouveaux facteurs de désaisonnalisation furent calculés pour 1981 et de ce fait des changements peuvent résulter dans les séries désaisonnalisées déjà publiées. Les données pour janvier à date ont été ajustées et sont disponibles en contactant M.R. Ouellette (613) 992-5613.

COMMENTARY

First Estimates(1) — August 1981 (Seasonally Adjusted)

The first estimate of the Canada industrial composite(2) index of employment (1961 = 100) for August 1981 showed a 0.1% increase from July. Forestry, transportation, communication and other utilities and finance, insurance and real estate registered increases while the remaining industry divisions decreased. All regions contributed to the increase except the Atlantic region and Ontario which decreased.

Average weekly earnings, at the national industrial level, advanced by 1.1%. Gains were registered in all industry divisions except finance, insurance and real estate which decreased. All regions contributed to the increase except British Columbia which declined.

Preliminary Data — July 1981

Employment

Seasonally adjusted, preliminary data for July 1981 decreased by 1.1% at the national industrial composite index of employment. All industry divisions decreased except trade, finance, insurance and real estate and service which increased. All regions contributed to the decrease except Ontario which registered gains.

Earnings and Hours

Seasonally adjusted, average weekly earnings increased by 0.2% at the national industrial level. Gains were registered in all industry divisions except forestry, construction and transportation, communication and other utilities which decreased. All regions contributed to the increase except the Prairie region and British Columbia which registered losses.

Unadjusted, average weekly earnings decreased by 0.4% to \$355.32 at the Canada industrial composite level. Average hourly earnings increased by 1 cent in mining (including milling) to \$12.04 but decreased by 5 cents in manufacturing to \$9.10 and by 15 cents in construction to \$13.50. Average weekly hours decreased in mining (including milling), in manufacturing and in construction.

Following are two tables summarizing the variations in all industry divisions that occurred in the first half of 1981 compared to the first half of 1980.

- (1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.
- (2) Industrial Composite is the sum for all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence.

OBSERVATIONS

Premières estimations(1) — août 1981 (chiffres désaisonnalisés)

Les premières estimations de l'indice de l'emploi pour l'ensemble des industries(2) révèlent une hausse de 0.1% de juillet à août 1981. Le forestage, les transports, communications et autres services publics et les finances, assurances et immeuble ont enregistré des gains alors que les autres divisions de l'activité économique ont diminué. Toutes les régions ont progressé à l'exception de la région de l'Atlantique et de l'Ontario qui ont régressé.

Les gains hebdomadaires moyens au niveau de l'ensemble des industries du Canada révèlent une hausse de 1.1%. On a observé des gains dans toutes les divisions de l'activité économique à l'exception des finances, assurances et immeuble qui ont diminué. Toutes les régions ont participé à cette hausse à l'exception de la Colombie-Britannique qui a régressé.

Données provisoires — juillet 1981

Emploi

Après désaisonnalisation, les données pour juillet 1981 ont diminué de 1.1% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont diminué à l'exception du commerce, des finances, assurances et immeuble et des services qui ont augmenté. Exception faite de l'Ontario, toutes les régions ont participé à cette baisse.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont accrus de 0.2% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont progressé à l'exception du forestage, de la construction et des transports, communications et autres services publics qui ont diminué. Toutes les régions ont participé à cette hausse à l'exception de la région des Prairies et de la Colombie-Britannique qui ont régressé.

Les gains hebdomadaires moyens, non désaisonnalisés, ont affiché une baisse de 0.4% pour atteindre \$355.32 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens ont augmenté de 1 cent dans les mines (y compris le broyage) (\$12.04) mais ont diminué de 5 cents dans les manufactures (\$9.10) et de 15 cents dans la construction (\$13.50). Le nombre d'heures hebdomadaires a diminué dans les mines (y compris le broyage), dans les manufactures et dans la construction.

Les deux tableaux suivants résument les changements enregistrés dans toutes les divisions de l'activité économique pour le premier semestre de 1981 comparativement à celui de 1980.

- (1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly earnings relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly earnings for any month is therefore adjusted in the above table by the Consumer Price Index for the following month as more representative of the period in which earnings are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. This table relates to average weekly earnings of all employees. - Nota: 1. Les rémunérations hebdomadaires courantes ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des rémunérations hebdomadaires courantes pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les rémunérations sont dépensées. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au Catalogue. 3. Ce tableau a trait à la rémunération hebdomadaire moyenne de tous les salariés.

TABLEAU 9. Indices désaisonnalisés et non désaisonnalisés de l'emploi, certaines séries, Canada

Year - Année	J	F	M	A	M	J	J	A	S	O	N	D	Average - Moyenne
1961=100													
Forestry - Forestage:													
adjusted - désaisonnalisé													
1978	80.6	81.1	79.6	80.7	82.0	81.7	81.3	83.1	80.9	81.4	81.5	81.5	
1979	81.9	80.6	82.2	84.5	88.5	81.8	83.6	83.5	82.7	82.4	83.0	82.7	
1980	82.8	83.9	86.6	83.5	81.8	80.2	76.9	74.5	77.0	77.9	76.7	76.1	
1981	76.8	75.8	78.0	74.6	76.2	75.8							
unadjusted - non désaisonnalisé													
1978	67.7	68.0	61.9	59.9	79.6	96.6	97.6	101.0	94.6	90.5	83.7	75.1	81.4
1979	68.5	67.5	63.9	63.3	86.2	96.8	99.9	101.3	96.4	91.7	85.1	76.1	83.1
1980	69.3	70.3	67.4	63.0	80.8	94.8	91.6	90.2	89.3	86.7	78.6	69.8	79.3
1981	64.3	63.5	60.8	56.5	75.5	89.5							
Mining, including milling - Mines, y compris le broyage:													
adjusted - désaisonnalisé													
1978	122.3	122.1	118.2	116.2	115.7	118.1	122.5	123.2	117.6	117.6	117.6	117.3	
1979	119.1	120.0	122.1	122.5	122.7	130.4	132.5	131.4	132.1	133.0	134.3	136.1	
1980	136.1	137.5	139.9	142.2	144.1	143.1	142.6	143.1	145.7	145.7	146.2	147.0	
1981	147.9	149.0	150.1	150.4	148.4	149.1							
unadjusted - non désaisonnalisé													
1978	120.8	120.0	115.3	111.5	115.6	122.3	128.1	128.6	117.4	117.5	117.0	115.0	119.1
1979	117.3	117.5	118.8	117.3	122.9	135.5	138.8	137.5	132.3	132.9	133.4	133.0	128.1
1980	133.7	134.3	136.0	136.0	144.6	149.1	149.7	150.0	146.1	145.6	145.0	143.5	142.8
1981	145.1	145.4	145.9	143.8	149.0	155.4							
Manufacturing - Manufactures:													
adjusted - désaisonnalisé													
1978	125.9	125.9	126.5	126.7	127.0	127.0	127.9	128.2	128.5	128.9	129.3	129.7	
1979	130.4	130.7	130.1	130.9	131.2	131.7	132.9	132.1	132.2	131.7	131.8	131.6	
1980	130.8	130.8	131.0	130.3	127.7	128.6	127.8	127.5	128.3	128.4	128.0	128.9	
1981	129.5	130.8	131.0	132.5	132.5	133.3							
unadjusted - non désaisonnalisé													
1978	122.9	123.2	124.8	125.5	128.4	130.0	129.0	130.9	130.3	130.0	129.3	127.3	127.6
1979	127.3	128.0	128.4	129.6	132.5	134.7	134.0	134.7	134.1	132.8	131.8	129.4	131.4
1980	127.8	128.2	129.2	129.0	128.9	131.5	128.8	130.0	130.2	129.5	128.0	126.8	129.0
1981	126.5	128.3	129.2	131.2	133.7	136.3							
Durable goods - Biens durables:													
adjusted - désaisonnalisé													
1978	137.2	137.4	138.6	138.9	139.3	140.2	140.3	141.1	141.4	141.8	142.6	142.9	
1979	143.8	144.6	144.5	145.1	145.8	146.2	146.9	146.8	146.5	145.8	145.8	146.1	
1980	144.1	144.6	145.4	143.4	138.7	140.3	140.0	138.9	139.7	140.0	139.0	140.9	
1981	139.6	142.6	143.6	145.2	145.4	146.8							
unadjusted - non désaisonnalisé													
1978	135.1	135.4	137.2	137.9	140.5	142.7	141.0	141.7	142.0	143.0	143.6	141.6	140.1
1979	141.6	142.7	143.1	144.1	146.9	148.7	147.6	147.4	147.2	147.0	146.7	144.9	145.7
1980	142.0	142.8	144.1	142.4	139.6	142.6	140.7	139.4	140.4	141.1	139.8	139.9	141.2
1981	137.6	140.9	142.3	144.2	146.3	149.2							
Non-durable goods - Biens non durables:													
adjusted - désaisonnalisé													
1978	116.6	116.7	116.9	116.8	117.4	116.2	117.3	118.0	118.1	118.5	118.4	119.1	
1979	119.3	119.5	118.9	119.3	119.5	119.8	121.0	120.3	120.6	120.3	120.5	120.2	
1980	120.0	119.7	119.6	119.7	119.0	119.1	117.4	118.3	119.1	119.0	119.1	119.4	
1981	121.2	121.5	121.1	122.0	122.2	122.2							
unadjusted - non désaisonnalisé													
1978	113.0	113.3	114.7	115.4	118.7	119.8	119.3	122.2	120.8	119.5	117.7	115.7	117.5
1979	115.7	116.1	116.6	117.9	120.8	123.4	123.0	124.4	123.5	121.4	119.8	116.9	120.0
1980	116.4	116.3	117.3	118.2	120.2	122.6	119.2	122.3	122.0	120.1	118.5	116.1	119.1
1981	117.6	118.1	118.7	120.5	123.4	125.8

**SOURCES FOR HISTORICAL DATA ON EMPLOYMENT,
EARNINGS AND HOURS(1)
(based on the 1960 Standard Industrial Classification)**

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

A. 1957-1960

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

B. 1961-1970

Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, Catalogue 72-002, October 1971.

Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Catalogue 72-002, February 1968.

Average Weekly Earnings, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971.*

Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. Catalogue 72-002, February 1972.

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:

**SOURCES DES DONNÉES CHRONOLOGIQUES SUR L'EMPLOI,
(LES GAINS ET LA DURÉE DU TRAVAIL(1)
(fondées sur la Classification type des industries de 1960)**

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

A. 1957-1960

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967*; Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

B. 1961-1970

Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971.

Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le n° 72-002 au catalogue, février 1968.

Gains hebdomadaires moyens, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971.*

Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le n° 72-002 au catalogue, février 1972.

Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1968-1970.

C. 1971-1974

Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada, Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n^o 72-002 au catalogue, juillet 1974.

Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communications et autres services publics et l'ensemble des industries. Voir le n^o 72-002 au catalogue, septembre 1974.

Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires— moyennes et rémunération horaire moyenne des ouvriers (heures— déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n^o 72-002 au catalogue, septembre 1974.

D. 1977

On a révisé les données de janvier à juin 1977 pour la Saskatchewan, la région des Prairies, la Colombie-Britannique et le Canada; les divisions de l'activité économique impliquées sont: la construction, les transports, communications et autres services publics et l'ensemble des industries. Ces données furent publiées dans l'exemplaire de septembre 1977 du numéro 72-002 au catalogue.

E. 1978

Les données sur l'emploi, les gains et la durée du travail pour les mois de janvier à juin 1978 ont été révisées pour toutes les branches d'activité et toutes les régions géographiques. Les données révisées

in "Employment, Earnings and Hours, January — April 1978" (Catalogue No. 72-517) and data for May and June 1978 are included in the July 1978 issue of Catalogue 72-002.

F.1980

January 1980 data in Construction and Industrial Composite were revised for New Brunswick, Atlantic Region, Quebec and Canada. The revisions were published in the April 1980 issue of Catalogue 72-002.

May to September 1980 data in Transportation, communication and other utilities, Transportation, Water transport and services and Industrial Composite were revised for Ontario and Canada. The revisions were published in the December 1980 issue of Catalogue 72-002.

-
- (1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

pour janvier à avril 1978 inclusivement figurent dans *Emploi, gains et durée du travail, janvier-avril 1978* (numéro 72-517 au catalogue) et celles pour mai et juin 1978 paraissent dans le numéro de juillet 1978 du bulletin 72-002.

F.1980

Les données du mois de janvier 1980 pour le secteur de la construction ainsi que pour l'ensemble des industries, ont été rectifiées pour les provinces du Nouveau Brunswick et du Québec, de la région de l'Atlantique et du Canada. Ces données apparaissent dans l'exemplaire du mois d'avril 1980 du numéro 72-002 au catalogue.

Les données pour les mois de mai à septembre 1980 pour le Transport communication et autres services publics, transports, transports par eau et services et l'ensemble des industries ont été rectifiées pour la province de l'Ontario et le Canada. Ces données apparaissent dans l'exemplaire du mois de décembre 1980 du numéro 72-002 au catalogue.

-
- (1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

CONCEPTS AND METHODS

Objectives

The Monthly Employment, Payrolls and Manhours survey is designed to measure the month-to-month trends of employment, paid hours and earnings for the commercial sector of the economy with the exclusion of agriculture, fishing and trapping.

These measures are expressed in an index form for employment and as weekly averages for earnings and hours paid. The data are compiled and published at detailed industrial and geographic levels.

Source of Data

The statistics contained in this report are based on information obtained through a mail census of "larger firms".

The firm is defined as any business entity whether incorporated or not; it comprises sole proprietorships, partnerships, corporations and other forms of organization such as co-operatives. Most firms consist of only one "establishment" (see definition under Industrial Classification) but in some cases the firm is made up of a number of establishments which may or may not be engaged in the same kind of economic activity.

A firm is considered as "larger" when it employs 20 or more persons in any one month of the year. Although the intent of the survey is to cover all such firms, it also includes some firms with less than 20 employees and excludes some firms with more than 20 employees; the reason is that, in practice, it is not always possible to capture promptly enough employment fluctuations in individual firms.

Universe

The universe for the survey is derived from a central file of employers maintained by the Business Register and Profiling Division of Statistics Canada.

Coverage

All commercial industries are covered by the survey, with the exception of agriculture, fishing and trapping; by definition such non-commercial sectors as education and related services, health and welfare services, religious organizations, private households and public administration and defense are excluded. Because the survey is limited to "larger firms", the proportion of total employment covered by the survey varies among industries, provinces and urban areas. The following table shows annual employment as compiled in the survey as a percentage of the estimated total number of employees, the latter being estimated by adding together data from the Employment, Payrolls and Manhours survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of the total number of employees are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

CONCEPTS ET MÉTHODES

Objectifs

L'enquête mensuelle sur l'emploi, la rémunération et les heures-hommes a pour objet de mesurer d'un mois à l'autre les tendances de l'emploi, des heures rémunérées et des gains touchés dans les secteurs commerciaux de l'économie à l'exception de l'agriculture, de la pêche et du piégeage.

Ces mesures sont exprimées sous forme d'indices dans le cas de l'emploi et de moyennes hebdomadaires dans le cas des gains touchés et des heures rémunérées. Les données sont rassemblées et publiées à des niveaux de détails raffinés selon l'activité économique et le lieu géographique.

Source des données

Les statistiques présentées dans ce bulletin sont fondées sur des renseignements obtenus au moyen d'un recensement postal des "grandes entreprises".

Le terme "entreprise" désigne toute entité commerciale constituée ou non en corporation; il peut s'agir d'une entreprise à propriétaire unique, d'une société en nom collectif, d'une corporation ou d'une autre forme d'organisation comme une coopérative. La plupart des entreprises ne comptent qu'un seul "établissement" (voir la définition sous la rubrique "Classement par activité économique") mais, dans certains cas, l'entreprise peut regrouper plusieurs établissements qui exercent ou non le même genre d'activité économique.

Une entreprise est considérée comme une "grande entreprise" si elle emploie 20 personnes ou plus pendant un mois quelconque de l'année. Bien que l'objet de l'enquête soit d'appréhender toutes les grandes entreprises, elle vise cependant quelques entreprises employant moins de 20 salariés et n'englobe pas toutes les entreprises comptant plus de 20 salariés, car, en pratique, il est presque toujours impossible de saisir rapidement toutes les fluctuations de l'emploi dans chacune des entreprises.

Univers

L'univers de l'enquête est établi à l'aide d'un registre central des employeurs tenu à jour par la Division des profils et du registre des entreprises de Statistique Canada.

Champ de l'enquête

L'enquête vise tous les secteurs commerciaux de l'activité économique à l'exception de l'agriculture, de la pêche et du piégeage; en sont donc exclus les secteurs non commerciaux comme l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux, les ménages privés et l'administration publique et la défense. Étant donné que l'enquête ne vise que les "grandes entreprises", la proportion de l'emploi total qu'elle appréhende varie d'une branche d'activité, d'une province et d'une région urbaine à l'autre. Le tableau qui suit indique l'emploi annuel relevé par l'enquête, exprimé en pourcentage du nombre estimatif total de salariés, l'estimation de ce dernier chiffre étant calculée en additionnant les données de l'enquête sur l'emploi, la rémunération et les heures-hommes avec celles d'une enquête par sondage et d'enquêtes supplémentaires menées auprès des petites entreprises. Les estimations du nombre total de salariés sont publiées dans le bulletin intitulé "Estimations du nombre de salariés par province et par industrie" numéro 72-008 au catalogue.

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes health (except hospitals), recreational, business, personal and miscellaneous services only. - Comprend seulement les services récréatifs, commerciaux, personnels, d'hygiène (sauf les hôpitaux) et divers.
- (3) Non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services, public administration, defence, fishing and trapping. - Ne comprend pas les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage.
- (5) Non-commercial services, public administration, defence, fishing and trapping are included in total estimated employment, but are not part of the larger-firm employment survey. - Les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.

Industrial Classification

All firms are assigned to an industry on the basis of their principal activity. In instances where the firm is engaged in only one kind of industrial activity, the industrial classification is straight forward. Classification problems arise when a firm is active in more than one kind of classifiable industrial activity. This usually occurs when a firm operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined, for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added" or "gross mark up" or "gross profit" as well as data on employment and payrolls.

For purposes of detailed geographical statistics, the establishment is often sub-divided into reporting units which, although not capable of reporting all basic industrial statistics, can report employment and payroll data for particular locations.

Classement par activité économique

Toutes les entreprises appartiennent à une branche d'activité économique qui est déterminée en fonction de leur activité principale. Si l'entreprise n'exerce qu'un seul genre d'activité économique, le classement est simple. Les problèmes surgissent lorsqu'elle en exerce plus d'un, par exemple lorsqu'elle possède plus d'un établissement. À des fins statistiques, on définit l'établissement, qui consiste habituellement en une usine, une mine, un magasin ou une unité semblable, comme la plus petite unité constituant un ensemble d'exploitation distinct en mesure de déclarer tous les éléments de base de la statistique des activités économiques, qui permettent de calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut", ainsi que des données sur l'emploi et la rémunération.

Pour permettre d'obtenir des statistiques géographiques détaillées, l'établissement est souvent subdivisé en unités déclarantes qui, bien qu'elles ne puissent fournir toutes les statistiques de base, sont en mesure de déclarer des données sur l'emploi et la rémunération pour des endroits particuliers.

The industrial classification of the statistics contained in this report is based on the Standard Industrial Classification for 1960. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue No. 12-501. The "S.I.C. code" columns of Tables 2, 3 and 4 correspond to the codes of this manual. These tables also contain the following groupings which are not part of the "Standard Industrial Classification Manual".

- (a) Industrial composite (031-899) It is the sum of all the industries included in the survey (see Coverage).
- (b) Durable goods manufacturing (durable) comprises wood products (250-259), furniture and fixtures (260-269), primary metal industries (290-298), metal fabricating industries (300-309), machinery except electrical (310-318), transportation equipment (320-329), electrical products (330-339), and non-metallic mineral products (340-359).
- (c) Non-durable goods manufacturing (non-dur) consists of food and beverages (100-147), tobacco processing and products (150-153), rubber products (160-169), leather products (170-179), textile products (180-229), knitting mills (230-239), clothing (240-249), paper and allied industries (270-274), printing, publishing and allied industries (280-289), petroleum and coal products (360-369), chemicals and chemical products (370-379), and miscellaneous manufacturing industries (380-399).
- (d) Building construction (404,421). It is the sum of general contractors (404) and special trade contractors (421).
- (e) Engineering construction (406,409) It includes highway, bridge and street construction (406) and other construction (409).
- (f) The synthetic textile industry (201) is sub-divided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).
- (g) Head Offices, sales and auxiliary units This special group includes head offices, sales branches and research laboratories for the following major groups of manufacturing: food and beverages (100), rubber products (160), paper and allied industries (270), primary metal industries (290), electrical products (330), and chemicals and chemical products (370).

Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The 1966 Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas; the definitions used for other urban areas are based on a labour market concept. The urban areas usually consist of the urban centre as well as the surrounding territory. A list showing the territory included in each tabulated urban area is available from the Employment and Payrolls Section. The reporting units not located in a tabulated

Le classement des statistiques présentées ici s'inspire de la Classification type des industries de 1960. Vous trouverez une description des diverses activités économiques et divers groupes d'activité économique dans le "Manuel de la classification type des industries," no 12-501 au catalogue.

- a) Ensemble des industries (031-899) - L'ensemble des activités économiques visées par l'enquête. (Voir champ de l'enquête)
- b) Manufactures, biens durables (durable) - L'ensemble de l'industrie des produits du bois (250-259), de l'industrie des meubles et accessoires d'ameublement (260-269), de l'industrie des métaux (formes primaires) (290-298), de l'industrie des produits métalliques (300-309), de l'industrie de la machinerie (sauf le matériel électrique) (310-318), de l'industrie du matériel de transport (320-329), de l'industrie des appareils et du matériel électriques (330-339), et de l'industrie des produits minéraux non métalliques (340-359).
- c) Manufactures, biens non durables (non dur.) - L'ensemble de l'industrie des aliments et boissons (100-147), de l'industrie du traitement et des produits du tabac (150-153), de l'industrie des produits du caoutchouc (160-169), de l'industrie des produits du cuir (170-179), de l'industrie des produits du textile (180-229), de l'industrie de la bonneterie (230-239), de l'industrie du vêtement (240-249), de l'industrie du papier et des produits connexes (270-274), de l'imprimerie, de l'édition et des industries connexes (280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (360-369), de l'industrie chimique et des produits connexes (370-379), et des industries manufacturières diverses (380-399).
- d) Bâtiment (404, 421) - L'ensemble des entrepreneurs généraux (404) et des entrepreneurs spécialisés (421).
- e) Génie civil (406,409) - L'ensemble de la construction de routes, ponts et rues (406) et des autres constructions (409).
- f) L'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).
- g) Sièges sociaux, bureaux de vente et services auxiliaires. Ce groupe spécial comprend les sièges sociaux, les bureaux de ventes, les succursales et les laboratoires de recherche des entreprises faisant partie des groupes d'activité économique suivants: industries des aliments et boissons (100), industrie du caoutchouc (160), industrie du papier et des produits connexes (270), industrie des métaux (formes primaires) (290), industrie des appareils et du matériel électriques (330) et industrie chimique et des produits connexes (370).

Classement géographique

On attribue les unités déclarantes à une province, un comté (selon la définition utilisée aux fins du recensement de la population) et, s'il y a lieu, à une région urbaine. Les données se rapportant à Terre-Neuve, à l'Île-du-Prince-Édouard, à la Nouvelle-Écosse et au Nouveau-Brunswick sont regroupées dans certains tableaux pour présenter l'ensemble des statistiques de la région de l'Atlantique. De la même façon, les données relatives au Manitoba, à la Saskatchewan et à l'Alberta sont additionnées pour indiquer les totaux de la région des Prairies. La définition du terme "région métropolitaine" utilisée aux fins du recensement de la population de 1966 a été retenue pour les dix-neuf régions urbaines; les définitions utilisées pour les autres régions urbaines sont fondées sur un concept du marché du travail. Une région urbaine se compose habituellement d'un centre urbain et du territoire qui l'entoure. Vous pouvez vous procurer une liste indiquant le territoire compris dans

urban area or not allocated to a compiled county, are included in provincial, regional and national totals.

Definitions

1. Reference Period

Conceptually, the data in this report refer to the last seven days in the specified month. In practice, few firms keep payroll records covering precisely this period. Therefore, firms are permitted to report for their last pay period or pay periods in each month. When the reported pay period is longer than one week, the data are reduced to a week using the number of days the firm usually operates during a week divided by the number of working days covered by the reported pay period.

If, owing to strikes, unpaid holidays or other similar factors, the data for the reported period are not representative of the reference period, adjustments are made to reflect the situation of the last seven days of the month.

2. Employee

All persons drawing pay for services rendered or for paid absence during the survey reference period and for whom an employer makes CPP or QPP and/or UIC contributions constitute employees.

The employee concept comprises full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment), and casual employees (those who are hired for discontinuous periods or on an irregular basis and who worked at least seven hours during the reference period). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses and professional practices, the self-employed, unpaid family workers, persons doing non-remunerative work, pensioners, home workers, members of elected or appointed bodies, military personnel and persons providing services to an establishment on a contract basis.

An employee paid for a part of the reference period and unemployed or on strike for the rest is counted as employed. Persons not receiving pay for the entire reference period are excluded.

The employees are classified into two broad occupational categories, namely: salaried employees and wage-earners:

(a) Wage-earners

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. All the above-mentioned employees are considered to be

chaque région urbaine figurant dans les tableaux en vous adressant à la Section des statistiques de l'emploi et de la rémunération. Les chiffres des unités déclarantes situées ailleurs que dans une région urbaine indiquée dans les tableaux ou non attribuées à un comté dont le nom figure sur la liste font partie des totaux provinciaux, régionaux et nationaux.

Définitions

1. Période de référence

En théorie, les données sur l'emploi se rapportent aux sept derniers jours du mois de référence. En pratique, étant donné que peu d'entreprises tiennent des registres de paye pour cette période précise, on leur permet de faire porter leur déclaration sur la (les) dernière(s) période(s) de paye de chaque mois. Lorsque la période de paye sur laquelle porte la déclaration dépasse une semaine, on rajuste les données en effectuant le calcul suivant: on divise le nombre de jours d'activité hebdomadaire de l'entreprise par le nombre de jours ouvrables compris dans la période de paye sur laquelle porte la déclaration.

Si, en raison d'une grève, d'un congé non payé ou d'autres facteurs semblables, les données déclarées ne sont pas représentatives de la période de référence, on procède aux rajustements qui s'imposent afin de traduire la situation pendant les sept derniers jours du mois.

2. Salarié

Toute personne qui est rétribuée pour ses services ou ses absences pendant la semaine de référence et pour laquelle l'employeur verse des contributions au R.P.C. ou au R.R.Q. et à la caisse d'assurance-chômage, est un salarié.

La catégorie "salariés" comprend les salariés à temps plein, les salariés à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise) et les salariés occasionnels (ceux qui sont embauchés de façon temporaire ou irrégulière et qui ont travaillé au moins sept heures au cours de la période de référence). Elle comprend aussi les propriétaires, les administrateurs, les associés et les autres dirigeants d'entreprises constituées en société.

Le concept des salariés exclut les propriétaires et les partenaires d'entreprises non constituées en corporation et ceux qui possèdent un bureau pour l'exercice d'une profession, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les retraités, les travailleurs à domicile, les membres de corps élus ou nommés, le personnel militaire et les personnes fournissant des services à un établissement sur une base forfaitaire.

Sont visées les personnes qui ont été payées pendant une partie de la période de référence mais qui étaient en chômage ou en grève pendant le reste de la période. Les personnes n'ayant pas touché de paye pour la période de référence entière ne sont pas visées.

Les salariés sont classés en deux catégories professionnelles, soit les employés et les ouvriers:

a) Ouvriers

Cette catégorie comprend les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Toutes ces personnes sont considérées comme des ou-

wage-earners regardless of whether their earnings are based on monthly, hourly or other rates of pay. Average weekly wages are computed for all wage-earners but average weekly hours and average hourly earnings are calculated only for wage-earners for whom hours data are available.

(b) **Salaried Employees**

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

3. **Earnings**

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piece-work and regular commission earnings, regular paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey reference week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained these data combined under "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners were available.

4. **Paid Absence**

Paid absence comprises paid holidays, vacation, sick leave including industrial injury and personal leave such as bereavement leave, jury duty, etc.

5. **Standard Work Week**

The standard work week is the number of hours or days of work normally scheduled for the majority of full-time employees.

Methodology

The data appearing in this report were collected by means of questionnaires mailed monthly to firms covered by the survey. In order to improve the quality of data, the response rate

vriers, que leurs gains soient fondés sur des taux de rémunération mensuels, horaires ou autres. Les salaires hebdomadaires moyens sont calculés pour tous les ouvriers, mais les heures hebdomadaires moyennes et les gains horaires moyens sont calculés uniquement pour ceux dont on connaît le nombre d'heures de travail.

b) **Employés**

Cette catégorie comprend les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

3. **Gains**

Les gains des ouvriers et des employés représentent la rémunération brute de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les traitements, les salaires au taux ordinaire, les gains provenant du travail à la pièce et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de référence. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les contributions de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents du travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur du couvert et du gîte, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "gains" désigne l'ensemble des salaires hebdomadaires des ouvriers et des traitements des employés. Les publications antérieures à mars 1971 présentaient les données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "gains hebdomadaires moyens" des salariés pris en compte ici. Ce système permet maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "salaires hebdomadaires moyens" des ouvriers rémunérés à l'heure.

4. **Absence payée**

Les absences payées comprennent les jours fériés payés, les vacances, les congés de maladie, ainsi que les congés d'accident du travail et les congés personnels tels que les congés de deuil et les congés pour fonctions de jury.

5. **Semaine normale de travail**

La semaine normale de travail est le nombre d'heures ou de jours de travail normalement prévus pour la majorité des salariés à temps plein.

Méthodologie

Les données présentées dans cette publication ont été recueillies au moyen de questionnaires postaux envoyés chaque mois à toutes les entreprises faisant partie de l'enquête. Afin d'améliorer la qualité des

is increased through two reminders mailed to all non-respondents one month and two months after the initial mail-out. If the two reminders do not produce a response, the Regional Operations Division of Statistics Canada attempts to obtain the required data by telephone or in a personal interview. These steps result in a final response rate of over 80%. Firms for which no response is obtained are still accounted for in the employment, earnings and hours tables of this publication. The method for imputing for non-response is explained under 'Imputation' below.

1. Data Edit

All the completed questionnaires which reach Statistics Canada are carefully edited for completeness, consistency and accuracy both manually and using computer edit procedures. To perform the computer edit, the responses are assembled into imputation groups which are formed on the basis of industrial classification, geographic area and size of the reporting unit. The composition of these groups is such that they consist of reporting units similar with respect to the characteristics being measured and with respect to relationships between these characteristics. This edit compares the value of a characteristic (number of employees, hours worked, salary per employee, the ratio of the present number of employees to last month's number of employees, etc.) to the corresponding value of the characteristic for the same unit of the previous month and/or for the imputation group. The amount by which a characteristic is allowed to vary from the average imputation group value is calculated separately for each group and for each characteristic and depends on the homogeneity and stability of the group itself.

When a figure varies too much from the average value for the imputation group, or when only partial response is received, the record is signaled by the computer edit for inspection and subject to correction or acceptance as appropriate.

2. Imputation

Every month, there are reporting units for which no response is received. For those newly introduced into the survey, data are manually imputed based on other sources of information such as the employment intention of the firm and the characteristics of firms in the same industry and geographic area.

Imputation for reporting units, for which data for the previous month are available, is based on the monthly changes reported by responding units within the same imputation group. A ratio of monthly change for each characteristic is applied to the previous month's data of each non respondent.

Reliability of the Estimates

Because the Monthly Employment, Payrolls and Man-hours survey is a census, any inaccuracy in the results is due to non-sampling error. Some of the factors contributing to non-sampling error are the inability to obtain responses from all in-scope reporting units. The problems associated in identifying all in-scope reporting units in a timely fashion, incorrect responses supplied by respondents and errors in coding and processing data. Non-sampling errors are difficult to measure and no estimate of this type of error has been obtained for this survey. However, every attempt has been made to minimize

données, on accroît le taux de réponse en faisant parvenir deux lettres de rappel à toutes les entreprises non répondantes un mois et deux mois après l'envoi initial du questionnaire. Si elles ne répondent toujours pas après avoir reçu les deux avis, la Division des opérations régionales de Statistique Canada tente d'obtenir les données nécessaires par téléphone ou au moyen d'une interview sur place. Ces mesures permettent généralement de hausser le taux de réponse à plus de 80%. Les entreprises qui ne répondent pas à l'enquête sont quand même prises en compte dans les tableaux de la publication portant sur l'emploi, les gains et les heures de travail. La méthode d'imputation pour les entreprises non répondantes est expliquée ci-dessous sous la rubrique "Imputation".

1. Vérification des données

Tous les questionnaires remplis renvoyés à Statistique Canada sont soigneusement vérifiés à la main et par ordinateur pour assurer qu'ils sont complets, cohérents et exacts. Pour être vérifiées par ordinateur, les réponses sont réparties en groupes d'imputation constitués en fonction du classement par activité économique, du lieu géographique et de la taille de l'unité déclarante. La composition de ces groupes est telle qu'ils regroupent des unités déclarantes qui présentent les mêmes caractéristiques et dont les caractéristiques affichent les mêmes liens entre elles. Cette vérification permet de comparer la valeur d'une caractéristique (nombre de salariés, heures de travail, gains par salarié, rapport du nombre actuel de salariés à celui du mois précédent, etc.) par rapport à la valeur de la caractéristique correspondante du mois précédent pour la même unité déclarante et/ou pour le groupe d'imputation. L'écart qui peut séparer la valeur d'une caractéristique et la valeur moyenne de la même caractéristique pour le groupe d'imputation tout entier est calculé séparément pour chaque groupe et pour chaque caractéristique, et dépend de l'homogénéité et de la stabilité du groupe lui-même.

Lorsqu'un chiffre s'écarte trop de la valeur moyenne pour tout le groupe d'imputation, ou lorsqu'on ne reçoit qu'une réponse partielle, l'unité déclarante est signalée lors de la vérification par ordinateur pour inspection et est sujette à être corrigée ou acceptée selon le cas.

2. Imputation

Chaque mois il existe certaines unités déclarantes dont on ne reçoit aucune réponse. Pour ces unités qui sont nouvellement introduites dans l'enquête, les données sont imputées manuellement et sont basées sur d'autres sources d'information telles que l'intention d'emploi de la firme et les caractéristiques des entreprises qui font partie de la même branche d'activité et qui sont situées dans le même lieu géographique.

L'imputation des unités déclarantes dont les données du mois précédent sont disponibles, est basée sur les changements mensuels rapportés par les unités déclarantes faisant partie du même groupe d'imputation. Un rapport du changement mensuel pour chaque caractéristique est appliqué aux données du mois précédent pour chaque entreprise non répondante.

Fiabilité des estimations

L'enquête sur l'emploi, la rémunération et les heures-hommes étant une enquête exhaustive, toute inexactitude dans les résultats est attribuable à une erreur d'observation. Parmi les exemples de sources d'erreurs d'observation, citons l'impossibilité d'obtenir des renseignements de toutes les unités faisant partie de l'enquête, les problèmes associés avec l'identification de toutes les unités qui devraient faire partie de l'enquête et ce dans le plus bref délai, les renseignements inexacts fournis par les entreprises répondantes et les erreurs de codage et de traitement des données. Les erreurs d'observation sont difficilement quantifiables et l'on n'a pas établi d'estimation de ce genre d'erreur pour

non-sampling errors by the use of a carefully designed and carefully worded questionnaire, the relative simplicity of the data requested, follow-up of non-respondents, thorough editing of data and control of the processing operations.

Statistical Presentation

1. Data Revision

Each month, statistics for the three latest months are prepared by the Employment and Payrolls Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 55%) and only highly aggregated figures are released in the Statistics Canada *Daily* and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current month and third estimates for the month prior to that. For both of these estimates which are based on a higher rate of response (approximately 75% and 82% respectively), full details are shown in this publication.

After completion of the third estimate, revisions to the data are made occasionally to incorporate large changes. The section, "Sources for Historical Data on Employment, Earnings and Hours", lists the issues that contain the revisions received from respondents or to rectify mechanical errors. These corrections appear in the tables of this publication.

2. Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly - average of the total base year employment (or payroll).

The index numbers constitute a better measure of the monthly trends in statistical series than the actual values because they are not effected by certain changes. For example, a large firm erroneously missing from the survey can be introduced by adjusting both the current and base year data and, thus, will not distort the monthly changes indicated by the index numbers. However, the measure of the monthly trend calculated from the actual value will be biased because the additions which should be reflected in all months are only included from the time the correction is made.

The technique used assumed that the change was applicable to the base period. When this assumption is incorrect, a bias is introduced in the long term trends.

3. Averages

Average weekly earnings for all employees are obtained by dividing the total weekly payrolls by the total number of employees. Average weekly earnings for salaried employees are obtained by dividing the total weekly salaries by the total number of salaried employees. Average weekly earnings for all wage-earners are obtained by dividing the total weekly wages by the total number of wage-earners.

Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. The average weekly hours figure is obtained

cette enquête. Toutefois, tous les efforts ont été faits pour minimiser les erreurs d'observation grâce à la conception et à la formulation soignées des questionnaires, la simplicité relative des données demandées, la relance des entreprises non répondantes, la vérification approfondie des données et le contrôle rigoureux des opérations de traitement.

Présentation statistique

1. Révision des données

Chaque mois, la Section des statistiques de l'emploi et de la rémunération prépare des statistiques pour les trois derniers mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (habituellement environ 55%) et seuls des chiffres très généraux sont publiés dans le *Quotidien* de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxièmes estimations pour le mois qui précède le mois le plus récent, et des troisièmes pour le mois qui précède celui-là. La présente publication contient tous les détails, pour ces deux dernières estimations qui sont basées sur un plus grand nombre de réponses (environ 75% pour les deuxièmes estimations et 82% pour les troisièmes).

Une fois terminées les troisièmes estimations, on modifie à l'occasion les données à la lumière de révisions importantes. La partie intitulée "Sources des données chronologiques sur l'emploi, les gains et la durée du travail" énumère les publications contenant les révisions.

2. Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base.

Les nombres-indices constituent une mesure plus valable des tendances mensuelles observées dans les séries statistiques que les valeurs réelles, car ils ne sont pas touchés par certaines variations. Par exemple, on peut introduire dans l'enquête une grande entreprise qu'on a oublié de dénombrer lors du listage en rajustant à la fois les données de l'année courante et celles de l'année de base et, ainsi, éviter de fausser les variations mensuelles affichées par les nombres-indices. Toutefois, toute mesure de la tendance mensuelle calculée à partir de la valeur réelle comportera un biais, car les ajouts qui devraient être faits pour tous les mois ne sont effectués qu'à partir du moment où la correction est apportée.

Cette procédure, suppose que le changement, s'appliquait aussi à l'année de base, lorsque cette hypothèse s'avère fausse, un biais se crée dans les tendances à long-terme.

3. Moyennes

On obtient les rémunérations hebdomadaires moyennes en divisant les rémunérations hebdomadaires totales par le nombre total de salariés. On obtient les rémunérations hebdomadaires moyennes pour les employés à salaire en divisant le total des salaires hebdomadaires par le nombre total d'employés à salaire. On obtient les rémunérations hebdomadaires pour les ouvriers en divisant le total des rémunérations hebdomadaires des ouvriers par le nombre total des ouvriers.

On obtient les gains horaires moyens en divisant le salaire hebdomadaire total des ouvriers rémunérés à l'heure par le nombre total d'heures par semaine. On calcule les heures hebdomadaires

by dividing total weekly man-hours by the number of wage-earners who were paid for those hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earners total includes part-time wage-earners and casuals working more than seven hours during the survey reference week.

4. Seasonal Adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods. It should be noted that the seasonally-adjusted series contains irregular as well as long-term cyclical fluctuations.

The X-11 variant of the U.S. *Census Method II* is used to seasonally adjust the data. This seasonal adjustment system is a complex computer program which differentiates between the seasonal trend and the irregular movements in a series over a number of years and, on the basis of past movements, estimates appropriate seasonal factors for current data. On an annual basis the entire historical series of seasonally-adjusted data is revised in light of the most recent information on changes in seasonality.

This system is used to calculate the seasonally-adjusted employment index numbers, and the average weekly hours and average hourly earnings for selected statistical series. Additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series, January 1961 - December 1977" (Catalogue 72-206).

5. Confidentiality

The information presented in this publication has been reviewed to ensure that the confidentiality of individual responses is respected.

moyennes en divisant le nombre hebdomadaire total d'heures-hommes par le nombre d'ouvriers qui ont été payés pour ces heures. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. Il convient de remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le nombre total d'ouvriers comprend les ouvriers à temps partiel et occasionnels qui ont travaillé plus de sept heures pendant la semaine de référence.

4. Désaisonnalisation

Les fluctuations des séries chronologiques économiques sont causées par des mouvements saisonniers, cycliques et irréguliers. Une série désaisonnalisée est une série dont on a éliminé les effets des mouvements saisonniers. Les mouvements saisonniers sont ceux qui sont causés par des événements annuels réguliers comme les changements de température, les cycles agricoles, les jours fériés et les vacances. Il convient de noter que la série désaisonnalisée contient des fluctuations irrégulières ainsi que des fluctuations cycliques à long terme.

La variante X-11 de la *Method II* de désaisonnalisation du U.S. *Bureau of the Census* est utilisée pour désaisonnaliser. Ce système permet de déceler les mouvements saisonniers, tendanciels et irréguliers au cours d'une période de plusieurs années et, à la lumière des mouvements passés, d'estimer les coefficients saisonniers appropriés pour l'année en cours. Sur une base annuelle, toute la série chronologique des données désaisonnalisées est révisée à la lumière des renseignements les plus récents sur les changements de saisonnalité.

Ce système est utilisé pour calculer les nombres-indices désaisonnalisés de l'emploi, ainsi que les heures hebdomadaires moyennes et les gains horaires moyens pour certaines séries statistiques. Vous trouverez d'autres séries désaisonnalisées dans le bulletin *Emploi, rémunération et heures, séries désaisonnalisées, janvier 1961 décembre 1977*, numéro 72-206 au catalogue.

5. Confidentialité

Les données présentées ici ont été examinées afin d'assurer que la confidentialité des réponses des entreprises soit respectée.

PUBLICATIONS SUR L'EMPLOI ET LA RÉMUNÉRATION

Les publications suivantes de la Division du travail contiennent des données sur l'emploi, la rémunération et les heures de travail dans l'industrie, d'après le concept de l'établissement:

Catalogue

Mensuel

- 72-002 Emploi, gains et durée du travail. Bil.
- 72-005 Estimations du revenu du travail. Bil.
- 72-008 Estimations du nombre de salariés par province et par industrie. Bil.

Annuel

- 72-206 Emploi, rémunérations et heures séries désaisonnalisées. Bil.

Hors série

- 72-506 Coûts de la main-d'oeuvre dans l'industrie manufacturière, 1967. Bil.
- 72-508 Estimations du nombre d'employés par province et industrie, 1961 - 1968. Bil.
- 72-510 Coûts de la main-d'oeuvre dans l'industrie manufacturière, 1968. Bil.
- 72-511 Coûts de la main-d'oeuvre au Canada: Mines, carrières et puits de pétrole, 1969. Bil.
- 72-513 Estimations du nombre d'employés par province et par industrie, 1961 - 1972. Bil.
- 72-514 Estimations du nombre d'employés par province et par industrie, 1961 - 1974. Bil.
- 72-516 Estimations du nombre de salariés par province et par industrie, 1961 - 1976. Bil.
- 72-517 Emploi, gains et durée du travail, 1978. Bil.

Annuel/divers

- 72-601 Gains et heures de travail au Canada: Commerce de détail, septembre 1970. Bil.
- 72-602 Gains et heures de travail au Canada: Hébergement, restauration et loisirs, 1972. Bil.
- 72-603 Gains et heures de travail au Canada: Finances, assurances et affaires immobilières, 1973. Bil.
- 72-610 Coûts de la main-d'oeuvre au Canada: Finances, assurances et immeubles, 1970. Bil.
- 72-611 Coûts de la main-d'oeuvre au Canada: Transports, communications et autres services d'utilité publique, 1970. Bil.
- 72-612 Coûts de la main-d'oeuvre au Canada: Industrie manufacturière, 1971. Bil.
- 72-613 Coûts de la main-d'oeuvre au Canada: Mines, carrières et puits de pétrole, 1972. Bil.
- 72-615 Coûts de la main-d'oeuvre au Canada: Commerce, 1972. Bil.
- 72-616 Coûts de la main-d'oeuvre au Canada: Enseignement, bibliothèques et musées, 1974. Bil.
- 72-617 Coûts de la main-d'oeuvre au Canada: Services fournis aux entreprises, 1975. Bil.
- 72-618 Coûts de la main-d'oeuvre au Canada: Ensemble des industries, 1976. Bil.
- 72-619 Rémunération des salariés au Canada: Ensemble des industries, 1978. Bil.

Outre les publications énumérées ci-dessus, Statistique Canada publie une grande variété de bulletins statistiques sur la situation économique et sociale du Canada. On peut se procurer gratuitement un catalogue complet des publications courantes en s'adressant à Statistique Canada, Ottawa (Canada), K1A 0T6.

EMPLOYMENT AND PAYROLL REPORTS

Following are publications of the Labour Division based upon establishment data in the field of industrial employment, payrolls and hours:

Catalogue

Monthly

- 72-002 Employment, Earnings and Hours. Bil.
- 72-005 Estimates of Labour Income. Bil.
- 72-008 Estimates of Employees by Province and Industry. Bil.

Annual

- 72-206 Employment, Earnings and Hours Seasonally-adjusted Series. Bil.

Occasional

- 72-506 Labour Costs in Manufacturing, 1967. Bil.
- 72-508 Estimates of Employees by Province and Industry, 1961 - 1968. Bil.
- 72-510 Labour Costs in Manufacturing, 1968. Bil.
- 72-511 Labour Costs in Canada: Mines, Quarries and Oil Wells, 1969. Bil.
- 72-513 Estimates of Employees by Province and Industry, 1961 - 1972. Bil.
- 72-514 Estimates of Employees by Province and Industry, 1961 - 1974. Bil.
- 72-516 Estimates of Employees by Province and Industry, 1961 - 1976. Bil.
- 72-517 Employment, Earnings and Hours, 1978. Bil.

Annual/Various

- 72-601 Earnings and Hours of Work in Canada: Retail Trade Industry, September 1970. Bil.

Note

This and other government publications may be purchased from local authorized agents and other community bookstores or by mail order.

Mail orders should be sent to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7, or to Publishing Centre, Supply and Services Canada, Ottawa, K1A 0S9.

Inquiries about this publication should be addressed to:

Employment and Payrolls Section,
Labour Division,

Statistics Canada, Ottawa, K1A 0T6 (telephone: 992-5613) or to a local Advisory Services office:

St. John's (Nfld.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick, and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1(112)800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Ventes et services de publications, Statistique Canada, Ottawa, K1A 0V7, ou à Imprimerie et édition, Approvisionnement et Services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Section des statistiques de l'emploi et de la rémunération,
Division du travail,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 992-5613) ou à un bureau local des Services consultatifs situé aux endroits suivants:

St. John's (T.-N.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de la Nouvelle-Écosse, du Nouveau-Brunswick et de l'Île-du-Prince-Édouard en composant 1-800-565-7192. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1(112)800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

Symbols

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- † revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

NOTE

1. In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.
2. As a result of updating our seasonal adjustment program, new seasonal factors have been derived for 1981 which may result in changes to the previously published seasonally adjusted series. January to date data have been revised and are available from Mr. R. Ouellette (613) 992-5613.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- † nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

NOTES

1. On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.
2. Dû à une modification de notre programme de désaisonnalisation, des nouveaux facteurs de désaisonnalisation furent calculés pour 1981 et de ce fait des changements peuvent résulter dans les séries désaisonnalisées déjà publiées. Les données pour janvier à date ont été ajustées et sont disponibles en contactant M.R. Ouellette (613) 992-5613.

COMMENTARY

First Estimates(1) — September 1981 (Seasonally Adjusted)

The first estimate of the Canada industrial composite(2) index of employment (1961 = 100) for September 1981 remained unchanged from August. Increases were registered in forestry, mining (including milling), in finance, insurance and real estate and in service while the remaining industry divisions decreased or remained unchanged. The Atlantic region, Quebec and Ontario decreased while the Prairie region remained unchanged and British Columbia increased.

Average weekly earnings at the national industrial level advanced by 0.8%. Gains were registered in all industry divisions except construction which decreased. All regions contributed to the increase.

Preliminary Data — August 1981

Employment

Seasonally adjusted, preliminary data for August 1981 increased by 0.3% at the national industrial composite index of employment. Forestry, transportation, communication and other utilities and finance, insurance and real estate increased while the remaining industry divisions decreased. All regions contributed to the increase except the Atlantic region and Ontario which decreased.

Earnings and Hours

Seasonally adjusted, average weekly earnings increased by 0.9% at the national industrial level. Gains were registered in all industry divisions except finance, insurance and real estate which decreased. All regions contributed to the increase except British Columbia which registered losses.

Unadjusted, average weekly earnings increased by 0.5% to \$358.11 at the Canada industrial composite level. Average hourly earnings increased by 14 cents in mining (including milling) to \$12.21, by 6 cents in manufacturing to \$9.15 and by 28 cents in construction to \$13.82. Average weekly hours increased in mining (including milling) and in construction but decreased in manufacturing.

(1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.

(2) Industrial Composite is the sum for all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence.

OBSERVATIONS

Premières estimations(1) — septembre 1981 (chiffres désaisonnalisés)

Les premières estimations de l'indice de l'emploi pour l'ensemble des industries(2) sont demeurées inchangées d'août à septembre 1981. Le forestage, les mines (y compris le broyage), les finances, assurances et immeuble et les services ont enregistré des gains alors que les autres divisions de l'activité économique ont soit diminué ou demeuré inchangé. La région de l'Atlantique, le Québec et l'Ontario ont diminué alors que la région des Prairies n'a pas varié et que la Colombie-Britannique a augmenté.

Les gains hebdomadaires moyens au niveau de l'ensemble des industries du Canada révèlent une hausse de 0.8%. On a observé des gains dans toutes les divisions de l'activité économique à l'exception de la construction qui a diminué. Toutes les régions ont participé à cette hausse.

Données provisoires — Août 1981

Emploi

Après désaisonnalisation, les données pour août 1981 ont augmenté de 0.3% au niveau de l'ensemble des industries du Canada. Le forestage, les transports, communications et autres services publics et les finances, assurances et immeuble ont augmenté alors que les autres divisions de l'activité économique ont diminué. Le Québec, la région des Prairies et la Colombie-Britannique ont progressé tandis que la région de l'Atlantique et l'Ontario ont régressé.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont accrus de 0.9% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont progressé à l'exception des finances, assurances et immeuble qui ont régressé. Exception faite de la Colombie-Britannique, toutes les régions ont participé à cette hausse.

Les gains hebdomadaires moyens, non désaisonnalisés, ont affiché une hausse de 0.5% pour atteindre \$358.11 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens ont augmenté de 14 cents dans les mines (y compris le broyage) (\$12.21), de 6 cents dans les manufactures (\$9.15) et de 28 cents dans la construction (\$13.82). Le nombre d'heures hebdomadaires a augmenté dans les mines (y compris le broyage) et dans la construction mais a diminué dans les manufactures.

(1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.

(2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

This table relates to average weekly earnings of all employees. - Nota: 1. Les rémunérations hebdomadaires courantes on trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des rémunérations hebdomadaires courantes pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les rémunérations sont dépensées. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au Catalogue. 3. Ce tableau a trait à la rémunération hebdomadaire moyenne de tous les salariés.

**SOURCES FOR HISTORICAL DATA ON EMPLOYMENT,
EARNINGS AND HOURS(1)**
(based on the 1960 Standard Industrial Classification)

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

A. 1957-1960

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

B. 1961-1970

Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, *Catalogue 72-002, October 1971*.

Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

Average Weekly Earnings, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:

**SOURCES DES DONNÉES CHRONOLOGIQUES SUR L'EMPLOI,
(LES GAINS ET LA DURÉE DU TRAVAIL(1)**
(fondées sur la Classification type des industries de 1960)

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

A. 1957-1960

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967*; Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

B. 1961-1970

Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir *Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971*.

Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

Gains hebdomadaires moyens, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.

All other available monthly and annual data for 1961-1964 are published in:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

C. 1971-1974

Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.

Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.

Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.

D. 1977

January to June 1977 data were revised for Saskatchewan, Prairie Region, British Columbia, and Canada; the industries affected were Construction, Transportation, Communication and Other Utilities, and Industrial Composite. The revised data were published in the September 1977 issue of Catalogue no. 72-002.

E. 1978

January to June 1978 employment, earnings and hours data were revised for all industries and geographical areas. Revised data for January to April 1978 inclusively are contained

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n^o 72-002 au catalogue, juin 1972.

Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n^o 72-002 au catalogue, décembre 1971.

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n^o 72-504 au catalogue.

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n^{os} 72-201 et 72-202 au catalogue, 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1968-1970.

C. 1971-1974

Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada, Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n^o 72-002 au catalogue, juillet 1974.

Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, transports, communication et autres services publics et l'ensemble des industries. Voir le n^o 72-002 au catalogue, septembre 1974.

Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires— moyennes et rémunération horaire moyenne des ouvriers (heures— déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n^o 72-002 au catalogue, septembre 1974.

D. 1977

On a révisé les données de janvier à juin 1977 pour la Saskatchewan, la région des Prairies, la Colombie-Britannique et le Canada; les divisions de l'activité économique impliquées sont: la construction, les transports, communications et autres services publics et l'ensemble des industries. Ces données furent publiées dans l'exemplaire de septembre 1977 du numéro 72-002 au catalogue.

E. 1978

Les données sur l'emploi, les gains et la durée du travail pour les mois de janvier à juin 1978 ont été révisées pour toutes les branches d'activité et toutes les régions géographiques. Les données révisées

in "Employment, Earnings and Hours, January — April 1978" (Catalogue No. 72-517) and data for May and June 1978 are included in the July 1978 issue of Catalogue 72-002.

F.1980

January 1980 data in Construction and Industrial Composite were revised for New Brunswick, Atlantic Region, Quebec and Canada. The revisions were published in the April 1980 issue of Catalogue 72-002.

May to September 1980 data in Transportation, communication and other utilities, Transportation, Water transport and services and Industrial Composite were revised for Ontario and Canada. The revisions were published in the December 1980 issue of Catalogue 72-002.

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

pour janvier à avril 1978 inclusivement figurent dans *Emploi, gains et durée du travail, janvier-avril 1978* (numéro 72-517 au catalogue) et celles pour mai et juin 1978 paraissent dans le numéro de juillet 1978 du bulletin 72-002.

F.1980

Les données du mois de janvier 1980 pour le secteur de la construction ainsi que pour l'ensemble des industries, ont été rectifiées pour les provinces du Nouveau Brunswick et du Québec, de la région de l'Atlantique et du Canada. Ces données apparaissent dans l'exemplaire du mois d'avril 1980 du numéro 72-002 au catalogue.

Les données pour les mois de mai à septembre 1980 pour le Transport communication et autres services publics, transports, transports par eau et services et l'ensemble des industries ont été rectifiées pour la province de l'Ontario et le Canada. Ces données apparaissent dans l'exemplaire du mois de décembre 1980 du numéro 72-002 au catalogue.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

CONCEPTS AND METHODS

Objectives

The Monthly Employment, Payrolls and Manhours survey is designed to measure the month-to-month trends of employment, paid hours and earnings for the commercial sector of the economy with the exclusion of agriculture, fishing and trapping.

These measures are expressed in an index form for employment and as weekly averages for earnings and hours paid. The data are compiled and published at detailed industrial and geographic levels.

Source of Data

The statistics contained in this report are based on information obtained through a mail census of "larger firms".

The firm is defined as any business entity whether incorporated or not; it comprises sole proprietorships, partnerships, corporations and other forms of organization such as co-operatives. Most firms consist of only one "establishment" (see definition under Industrial Classification) but in some cases the firm is made up of a number of establishments which may or may not be engaged in the same kind of economic activity.

A firm is considered as "larger" when it employs 20 or more persons in any one month of the year. Although the intent of the survey is to cover all such firms, it also includes some firms with less than 20 employees and excludes some firms with more than 20 employees; the reason is that, in practice, it is not always possible to capture promptly enough employment fluctuations in individual firms.

Universe

The universe for the survey is derived from a central file of employers maintained by the Business Register and Profiling Division of Statistics Canada.

Coverage

All commercial industries are covered by the survey, with the exception of agriculture, fishing and trapping; by definition such non-commercial sectors as education and related services, health and welfare services, religious organizations, private households and public administration and defense are excluded. Because the survey is limited to "larger firms", the proportion of total employment covered by the survey varies among industries, provinces and urban areas. The following table shows annual employment as compiled in the survey as a percentage of the estimated total number of employees, the latter being estimated by adding together data from the Employment, Payrolls and Manhours survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of the total number of employees are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

CONCEPTS ET MÉTHODES

Objectifs

L'enquête mensuelle sur l'emploi, la rémunération et les heures-hommes a pour objet de mesurer d'un mois à l'autre les tendances de l'emploi, des heures rémunérées et des gains touchés dans les secteurs commerciaux de l'économie à l'exception de l'agriculture, de la pêche et du piégeage.

Ces mesures sont exprimées sous forme d'indices dans le cas de l'emploi et de moyennes hebdomadaires dans le cas des gains touchés et des heures rémunérées. Les données sont rassemblées et publiées à des niveaux de détails raffinés selon l'activité économique et le lieu géographique.

Source des données

Les statistiques présentées dans ce bulletin sont fondées sur des renseignements obtenus au moyen d'un recensement postal des "grandes entreprises".

Le terme "entreprise" désigne toute entité commerciale constituée ou non en corporation; il peut s'agir d'une entreprise à propriétaire unique, d'une société en nom collectif, d'une corporation ou d'une autre forme d'organisation comme une coopérative. La plupart des entreprises ne comptent qu'un seul "établissement" (voir la définition sous la rubrique "Classement par activité économique") mais, dans certains cas, l'entreprise peut regrouper plusieurs établissements qui exercent ou non le même genre d'activité économique.

Une entreprise est considérée comme une "grande entreprise" si elle emploie 20 personnes ou plus pendant un mois quelconque de l'année. Bien que l'objet de l'enquête soit d'appréhender toutes les grandes entreprises, elle vise cependant quelques entreprises employant moins de 20 salariés et n'englobe pas toutes les entreprises comptant plus de 20 salariés, car, en pratique, il est presque toujours impossible de saisir rapidement toutes les fluctuations de l'emploi dans chacune des entreprises.

Univers

L'univers de l'enquête est établi à l'aide d'un registre central des employeurs tenu à jour par la Division des profils et du registre des entreprises de Statistique Canada.

Champ de l'enquête

L'enquête vise tous les secteurs commerciaux de l'activité économique à l'exception de l'agriculture, de la pêche et du piégeage; en sont donc exclus les secteurs non commerciaux comme l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux, les ménages privés et l'administration publique et la défense. Étant donné que l'enquête ne vise que les "grandes entreprises", la proportion de l'emploi total qu'elle appréhende varie d'une branche d'activité, d'une province et d'une région urbaine à l'autre. Le tableau qui suit indique l'emploi annuel relevé par l'enquête, exprimé en pourcentage du nombre estimatif total de salariés, l'estimation de ce dernier chiffre étant calculée en additionnant les données de l'enquête sur l'emploi, la rémunération et les heures-hommes avec celles d'une enquête par sondage et d'enquêtes supplémentaires menées auprès des petites entreprises. Les estimations du nombre total de salariés sont publiées dans le bulletin intitulé "Estimations du nombre de salariés par province et par industrie" numéro 72-008 au catalogue.

Larger-Firm Survey Employment as a Percentage of Total Estimated Employment, by Industry Division, for Canada and Provinces, 1980 Annual Averages(1)

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes health (except hospitals), recreational, business, personal and miscellaneous services only. - Comprend seulement les services récréatifs, commerciaux, personnels, d'hygiène (sauf les hôpitaux) et divers.
- (3) Non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services, public administration, defence, fishing and trapping. - Ne comprend pas les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage.
- (5) Non-commercial services, public administration, defence, fishing and trapping are included in total estimated employment, but are not part of the larger-firm employment survey. - Les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.

Industrial Classification

All firms are assigned to an industry on the basis of their principal activity. In instances where the firm is engaged in only one kind of industrial activity, the industrial classification is straight forward. Classification problems arise when a firm is active in more than one kind of classifiable industrial activity. This usually occurs when a firm operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined, for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added" or "gross mark up" or "gross profit" as well as data on employment and payrolls.

For purposes of detailed geographical statistics, the establishment is often sub-divided into reporting units which, although not capable of reporting all basic industrial statistics, can report employment and payroll data for particular locations.

Classement par activité économique

Toutes les entreprises appartiennent à une branche d'activité économique qui est déterminée en fonction de leur activité principale. Si l'entreprise n'exerce qu'un seul genre d'activité économique, le classement est simple. Les problèmes surgissent lorsqu'elle en exerce plus d'un, par exemple lorsqu'elle possède plus d'un établissement. À des fins statistiques, on définit l'établissement, qui consiste habituellement en une usine, une mine, un magasin ou une unité semblable, comme la plus petite unité constituant un ensemble d'exploitation distinct en mesure de déclarer tous les éléments de base de la statistique des activités économiques, qui permettent de calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut", ainsi que des données sur l'emploi et la rémunération.

Pour permettre d'obtenir des statistiques géographiques détaillées, l'établissement est souvent subdivisé en unités déclarantes qui, bien qu'elles ne puissent fournir toutes les statistiques de base, sont en mesure de déclarer des données sur l'emploi et la rémunération pour des endroits particuliers.

The industrial classification of the statistics contained in this report is based on the Standard Industrial Classification for 1960. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue No. 12-501. The "S.I.C. code" columns of Tables 2, 3 and 4 correspond to the codes of this manual. These tables also contain the following groupings which are not part of the "Standard Industrial Classification Manual".

- (a) Industrial composite (031-899) It is the sum of all the industries included in the survey (see Coverage).
- (b) Durable goods manufacturing (durable) comprises wood products (250-259), furniture and fixtures (260-269), primary metal industries (290-298), metal fabricating industries (300-309), machinery except electrical (310-318), transportation equipment (320-329), electrical products (330-339), and non-metallic mineral products (340-359).
- (c) Non-durable goods manufacturing (non-dur) consists of food and beverages (100-147), tobacco processing and products (150-153), rubber products (160-169), leather products (170-179), textile products (180-229), knitting mills (230-239), clothing (240-249), paper and allied industries (270-274), printing, publishing and allied industries (280-289), petroleum and coal products (360-369), chemicals and chemical products (370-379), and miscellaneous manufacturing industries (380-399).
- (d) Building construction (404,421). It is the sum of general contractors (404) and special trade contractors (421).
- (e) Engineering construction (406,409) It includes highway, bridge and street construction (406) and other construction (409).
- (f) The synthetic textile industry (201) is sub-divided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).
- (g) Head Offices, sales and auxiliary units This special group includes head offices, sales branches and research laboratories for the following major groups of manufacturing: food and beverages (100), rubber products (160), paper and allied industries (270), primary metal industries (290), electrical products (330), and chemicals and chemical products (370).

Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The 1966 Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas; the definitions used for other urban areas are based on a labour market concept. The urban areas usually consist of the urban centre as well as the surrounding territory. A list showing the territory included in each tabulated urban area is available from the Employment and Payrolls Section. The reporting units not located in a tabulated

Le classement des statistiques présentées ici s'inspire de la Classification type des industries de 1960. Vous trouverez une description des diverses activités économiques et divers groupes d'activité économique dans le "Manuel de la classification type des industries," no 12-501 au catalogue.

- a) Ensemble des industries (031-899) - L'ensemble des activités économiques visées par l'enquête. (Voir champ de l'enquête)
- b) Manufactures, biens durables (durable) - L'ensemble de l'industrie des produits du bois (250-259), de l'industrie des meubles et accessoires d'ameublement (260-269), de l'industrie des métaux (formes primaires) (290-298), de l'industrie des produits métalliques (300-309), de l'industrie de la machinerie (sauf le matériel électrique) (310-318), de l'industrie du matériel de transport (320-329), de l'industrie des appareils et du matériel électriques (330-339), et de l'industrie des produits minéraux non métalliques (340-359).
- c) Manufactures, biens non durables (non dur.) - L'ensemble de l'industrie des aliments et boissons (100-147), de l'industrie du traitement et des produits du tabac (150-153), de l'industrie des produits du caoutchouc (160-169), de l'industrie des produits du cuir (170-179), de l'industrie des produits du textile (180-229), de l'industrie de la bonneterie (230-239), de l'industrie du vêtement (240-249), de l'industrie du papier et des produits connexes (270-274), de l'imprimerie, de l'édition et des industries connexes (280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (360-369), de l'industrie chimique et des produits connexes (370-379), et des industries manufacturières diverses (380-399).
- d) Bâtiment (404, 421) - L'ensemble des entrepreneurs généraux (404) et des entrepreneurs spécialisés (421).
- e) Génie civil (406,409) - L'ensemble de la construction de routes, ponts et rues (406) et des autres constructions (409).
- f) L'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).
- g) Sièges sociaux, bureaux de vente et services auxiliaires. Ce groupe spécial comprend les sièges sociaux, les bureaux de ventes, les succursales et les laboratoires de recherche des entreprises faisant partie des groupes d'activité économique suivants: industries des aliments et boissons (100), industrie du caoutchouc (160), industrie du papier et des produits connexes (270), industrie des métaux (formes primaires) (290), industrie des appareils et du matériel électriques (330) et industrie chimique et des produits connexes (370).

Classement géographique

On attribue les unités déclarantes à une province, un comté (selon la définition utilisée aux fins du recensement de la population) et, s'il y a lieu, à une région urbaine. Les données se rapportant à Terre-Neuve, à l'Île-du-Prince-Édouard, à la Nouvelle-Écosse et au Nouveau-Brunswick sont regroupées dans certains tableaux pour présenter l'ensemble des statistiques de la région de l'Atlantique. De la même façon, les données relatives au Manitoba, à la Saskatchewan et à l'Alberta sont additionnées pour indiquer les totaux de la région des Prairies. La définition du terme "région métropolitaine" utilisée aux fins du recensement de la population de 1966 a été retenue pour les dix-neuf régions urbaines; les définitions utilisées pour les autres régions urbaines sont fondées sur un concept du marché du travail. Une région urbaine se compose habituellement d'un centre urbain et du territoire qui l'entoure. Vous pouvez vous procurer une liste indiquant le territoire compris dans

urban area or not allocated to a compiled county, are included in provincial, regional and national totals.

Definitions

1. Reference Period

Conceptually, the data in this report refer to the last seven days in the specified month. In practice, few firms keep payroll records covering precisely this period. Therefore, firms are permitted to report for their last pay period or pay periods in each month. When the reported pay period is longer than one week, the data are reduced to a week using the number of days the firm usually operates during a week divided by the number of working days covered by the reported pay period.

If, owing to strikes, unpaid holidays or other similar factors, the data for the reported period are not representative of the reference period, adjustments are made to reflect the situation of the last seven days of the month.

2. Employee

All persons drawing pay for services rendered or for paid absence during the survey reference period and for whom an employer makes CPP or QPP and/or UIC contributions constitute employees.

The employee concept comprises full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment), and casual employees (those who are hired for discontinuous periods or on an irregular basis and who worked at least seven hours during the reference period). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses and professional practices, the self-employed, unpaid family workers, persons doing non-remunerative work, pensioners, home workers, members of elected or appointed bodies, military personnel and persons providing services to an establishment on a contract basis.

An employee paid for a part of the reference period and unemployed or on strike for the rest is counted as employed. Persons not receiving pay for the entire reference period are excluded.

The employees are classified into two broad occupational categories, namely: salaried employees and wage-earners:

(a) Wage-earners

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. All the above-mentioned employees are considered to be

chaque région urbaine figurant dans les tableaux en vous adressant à la Section des statistiques de l'emploi et de la rémunération. Les chiffres des unités déclarantes situées ailleurs que dans une région urbaine indiquée dans les tableaux ou non attribuées à un comté dont le nom figure sur la liste font partie des totaux provinciaux, régionaux et nationaux.

Définitions

1. Période de référence

En théorie, les données sur l'emploi se rapportent aux sept derniers jours du mois de référence. En pratique, étant donné que peu d'entreprises tiennent des registres de paye pour cette période précise, on leur permet de faire porter leur déclaration sur la (les) dernière(s) période(s) de paye de chaque mois. Lorsque la période de paye sur laquelle porte la déclaration dépasse une semaine, on rajuste les données en effectuant le calcul suivant: on divise le nombre de jours d'activité hebdomadaire de l'entreprise par le nombre de jours ouvrables compris dans la période de paye sur laquelle porte la déclaration.

Si, en raison d'une grève, d'un congé non payé ou d'autres facteurs semblables, les données déclarées ne sont pas représentatives de la période de référence, on procède aux rajustements qui s'imposent afin de traduire la situation pendant les sept derniers jours du mois.

2. Salarié

Toute personne qui est rétribuée pour ses services ou ses absences pendant la semaine de référence et pour laquelle l'employeur verse des contributions au R.P.C. ou au R.R.Q. et à la caisse d'assurance-chômage, est un salarié.

La catégorie "salariés" comprend les salariés à temps plein, les salariés à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise) et les salariés occasionnels (ceux qui sont embauchés de façon temporaire ou irrégulière et qui ont travaillé au moins sept heures au cours de la période de référence). Elle comprend aussi les propriétaires, les administrateurs, les associés et les autres dirigeants d'entreprises constituées en société.

Le concept des salariés exclut les propriétaires et les partenaires d'entreprises non constituées en corporation et ceux qui possèdent un bureau pour l'exercice d'une profession, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les retraités, les travailleurs à domicile, les membres de corps élus ou nommés, le personnel militaire et les personnes fournissant des services à un établissement sur une base forfaitaire.

Sont visées les personnes qui ont été payées pendant une partie de la période de référence mais qui étaient en chômage ou en grève pendant le reste de la période. Les personnes n'ayant pas touché de paye pour la période de référence entière ne sont pas visées.

Les salariés sont classés en deux catégories professionnelles, soit les employés et les ouvriers:

a) Ouvriers

Cette catégorie comprend les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Toutes ces personnes sont considérées comme des ou-

wage-earners regardless of whether their earnings are based on monthly, hourly or other rates of pay. Average weekly wages are computed for all wage-earners but average weekly hours and average hourly earnings are calculated only for wage-earners for whom hours data are available.

(b) **Salaried Employees**

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

3. **Earnings**

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piece-work and regular commission earnings, regular paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey reference week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained these data combined under "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners were available.

4. **Paid Absence**

Paid absence comprises paid holidays, vacation, sick leave including industrial injury and personal leave such as bereavement leave, jury duty, etc.

5. **Standard Work Week**

The standard work week is the number of hours or days of work normally scheduled for the majority of full-time employees.

Methodology

The data appearing in this report were collected by means of questionnaires mailed monthly to firms covered by the survey. In order to improve the quality of data, the response rate

vriers, que leurs gains soient fondés sur des taux de rémunération mensuels, horaires ou autres. Les salaires hebdomadaires moyens sont calculés pour tous les ouvriers, mais les heures hebdomadaires moyennes et les gains horaires moyens sont calculés uniquement pour ceux dont on connaît le nombre d'heures de travail.

(b) **Employés**

Cette catégorie comprend les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

3. **Gains**

Les gains des ouvriers et des employés représentent la rémunération brute de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les traitements, les salaires au taux ordinaire, les gains provenant du travail à la pièce et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de référence. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'œuvre tels que les contributions de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents du travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur du couvert et du gîte, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "gains" désigne l'ensemble des salaires hebdomadaires des ouvriers et des traitements des employés. Les publications antérieures à mars 1971 présentaient les données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "gains hebdomadaires moyens" des salariés pris en compte ici. Ce système permet maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "salaires hebdomadaires moyens" des ouvriers rémunérés à l'heure.

4. **Absence payée**

Les absences payées comprennent les jours fériés payés, les vacances, les congés de maladie, ainsi que les congés d'accident du travail et les congés personnels tels que les congés de deuil et les congés pour fonctions de jury.

5. **Semaine normale de travail**

La semaine normale de travail est le nombre d'heures ou de jours de travail normalement prévus pour la majorité des salariés à temps plein.

Méthodologie

Les données présentées dans cette publication ont été recueillies au moyen de questionnaires postaux envoyés chaque mois à toutes les entreprises faisant partie de l'enquête. Afin d'améliorer la qualité des

is increased through two reminders mailed to all non-respondents one month and two months after the initial mail-out. If the two reminders do not produce a response, the Regional Operations Division of Statistics Canada attempts to obtain the required data by telephone or in a personal interview. These steps result in a final response rate of over 80%. Firms for which no response is obtained are still accounted for in the employment, earnings and hours tables of this publication. The method for imputing for non-response is explained under 'Imputation' below.

1. Data Edit

All the completed questionnaires which reach Statistics Canada are carefully edited for completeness, consistency and accuracy both manually and using computer edit procedures. To perform the computer edit, the responses are assembled into imputation groups which are formed on the basis of industrial classification, geographic area and size of the reporting unit. The composition of these groups is such that they consist of reporting units similar with respect to the characteristics being measured and with respect to relationships between these characteristics. This edit compares the value of a characteristic (number of employees, hours worked, salary per employee, the ratio of the present number of employees to last month's number of employees, etc.) to the corresponding value of the characteristic for the same unit of the previous month and/or for the imputation group. The amount by which a characteristic is allowed to vary from the average imputation group value is calculated separately for each group and for each characteristic and depends on the homogeneity and stability of the group itself.

When a figure varies too much from the average value for the imputation group, or when only partial response is received, the record is signaled by the computer edit for inspection and subject to correction or acceptance as appropriate.

2. Imputation

Every month, there are reporting units for which no response is received. For those newly introduced into the survey, data are manually imputed based on other sources of information such as the employment intention of the firm and the characteristics of firms in the same industry and geographic area.

Imputation for reporting units, for which data for the previous month are available, is based on the monthly changes reported by responding units within the same imputation group. A ratio of monthly change for each characteristic is applied to the previous month's data of each non respondent.

Reliability of the Estimates

Because the Monthly Employment, Payrolls and Man-hours survey is a census, any inaccuracy in the results is due to non-sampling error. Some of the factors contributing to non-sampling error are the inability to obtain responses from all in-scope reporting units. The problems associated in identifying all in-scope reporting units in a timely fashion, incorrect responses supplied by respondents and errors in coding and processing data. Non-sampling errors are difficult to measure and no estimate of this type of error has been obtained for this survey. However, every attempt has been made to minimize

données, on accroît le taux de réponse en faisant parvenir deux lettres de rappel à toutes les entreprises non répondantes un mois et deux mois après l'envoi initial du questionnaire. Si elles ne répondent toujours pas après avoir reçu les deux avis, la Division des opérations régionales de Statistique Canada tente d'obtenir les données nécessaires par téléphone ou au moyen d'une interview sur place. Ces mesures permettent généralement de hausser le taux de réponse à plus de 80%. Les entreprises qui ne répondent pas à l'enquête sont quand même prises en compte dans les tableaux de la publication portant sur l'emploi, les gains et les heures de travail. La méthode d'imputation pour les entreprises non répondantes est expliquée ci-dessous sous la rubrique "Imputation".

1. Vérification des données

Tous les questionnaires remplis renvoyés à Statistique Canada sont soigneusement vérifiés à la main et par ordinateur pour assurer qu'ils sont complets, cohérents et exacts. Pour être vérifiées par ordinateur, les réponses sont réparties en groupes d'imputation constitués en fonction du classement par activité économique, du lieu géographique et de la taille de l'unité déclarante. La composition de ces groupes est telle qu'ils regroupent des unités déclarantes qui présentent les mêmes caractéristiques et dont les caractéristiques affichent les mêmes liens entre elles. Cette vérification permet de comparer la valeur d'une caractéristique (nombre de salariés, heures de travail, gains par salarié, rapport du nombre actuel de salariés à celui du mois précédent, etc.) par rapport à la valeur de la caractéristique correspondante du mois précédent pour la même unité déclarante et/ou pour le groupe d'imputation. L'écart qui peut séparer la valeur d'une caractéristique et la valeur moyenne de la même caractéristique pour le groupe d'imputation tout entier est calculé séparément pour chaque groupe et pour chaque caractéristique, et dépend de l'homogénéité et de la stabilité du groupe lui-même.

Lorsqu'un chiffre s'écarte trop de la valeur moyenne pour tout le groupe d'imputation, ou lorsqu'on ne reçoit qu'une réponse partielle, l'unité déclarante est signalée lors de la vérification par ordinateur pour inspection et est sujette à être corrigée ou acceptée selon le cas.

2. Imputation

Chaque mois il existe certaines unités déclarantes dont on ne reçoit aucune réponse. Pour ces unités qui sont nouvellement introduites dans l'enquête, les données sont imputées manuellement et sont basées sur d'autres sources d'information telles que l'intention d'emploi de la firme et les caractéristiques des entreprises qui font partie de la même branche d'activité et qui sont situées dans le même lieu géographique.

L'imputation des unités déclarantes dont les données du mois précédent sont disponibles, est basée sur les changements mensuels rapportés par les unités déclarantes faisant partie du même groupe d'imputation. Un rapport du changement mensuel pour chaque caractéristique est appliqué aux données du mois précédent pour chaque entreprise non répondante.

Fiabilité des estimations

L'enquête sur l'emploi, la rémunération et les heures-hommes étant une enquête exhaustive, toute inexactitude dans les résultats est attribuable à une erreur d'observation. Parmi les exemples de sources d'erreurs d'observation, citons l'impossibilité d'obtenir des renseignements de toutes les unités faisant partie de l'enquête, les problèmes associés avec l'identification de toutes les unités qui devraient faire partie de l'enquête et ce dans le plus bref délai, les renseignements inexacts fournis par les entreprises répondantes et les erreurs de codage et de traitement des données. Les erreurs d'observation sont difficilement quantifiables et l'on n'a pas établi d'estimation de ce genre d'erreur pour

non-sampling errors by the use of a carefully designed and carefully worded questionnaire, the relative simplicity of the data requested, follow-up of non-respondents, thorough editing of data and control of the processing operations.

Statistical Presentation

1. Data Revision

Each month, statistics for the three latest months are prepared by the Employment and Payrolls Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 55%) and only highly aggregated figures are released in the Statistics Canada *Daily* and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current month and third estimates for the month prior to that. For both of these estimates which are based on a higher rate of response (approximately 75% and 82% respectively), full details are shown in this publication.

After completion of the third estimate, revisions to the data are made occasionally to incorporate large changes. The section, "Sources for Historical Data on Employment, Earnings and Hours", lists the issues that contain the revisions received from respondents or to rectify mechanical errors. These corrections appear in the tables of this publication.

2. Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly - average of the total base year employment (or payroll).

The index numbers constitute a better measure of the monthly trends in statistical series than the actual values because they are not effected by certain changes. For example, a large firm erroneously missing from the survey can be introduced by adjusting both the current and base year data and, thus, will not distort the monthly changes indicated by the index numbers. However, the measure of the monthly trend calculated from the actual value will be biased because the additions which should be reflected in all months are only included from the time the correction is made.

The technique used assumed that the change was applicable to the base period. When this assumption is incorrect, a bias is introduced in the long term trends.

3. Averages

Average weekly earnings for all employees are obtained by dividing the total weekly payrolls by the total number of employees. Average weekly earnings for salaried employees are obtained by dividing the total weekly salaries by the total number of salaried employees. Average weekly earnings for all wage-earners are obtained by dividing the total weekly wages by the total number of wage-earners.

Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. The average weekly hours figure is obtained

cette enquête. Toutefois, tous les efforts ont été faits pour minimiser les erreurs d'observation grâce à la conception et à la formulation soignées des questionnaires, la simplicité relative des données demandées, la relance des entreprises non répondantes, la vérification approfondie des données et le contrôle rigoureux des opérations de traitement.

Présentation statistique

1. Révision des données

Chaque mois, la Section des statistiques de l'emploi et de la rémunération prépare des statistiques pour les trois derniers mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (habituellement environ 55%) et seuls des chiffres très généraux sont publiés dans le *Quotidien* de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxièmes estimations pour le mois qui précède le mois le plus récent, et des troisièmes pour le mois qui précède celui-là. La présente publication contient tous les détails, pour ces deux dernières estimations qui sont basées sur un plus grand nombre de réponses (environ 75% pour les deuxièmes estimations et 82% pour les troisièmes).

Une fois terminées les troisièmes estimations, on modifie à l'occasion les données à la lumière de révisions importantes. La partie intitulée "Sources des données chronologiques sur l'emploi, les gains et la durée du travail" énumère les publications contenant les révisions.

2. Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base.

Les nombres-indices constituent une mesure plus valable des tendances mensuelles observées dans les séries statistiques que les valeurs réelles, car ils ne sont pas touchés par certaines variations. Par exemple, on peut introduire dans l'enquête une grande entreprise qu'on a oublié de dénombrer lors du listage en rajustant à la fois les données de l'année courante et celles de l'année de base et, ainsi, éviter de fausser les variations mensuelles affichées par les nombres-indices. Toutefois, toute mesure de la tendance mensuelle calculée à partir de la valeur réelle comportera un biais, car les ajouts qui devraient être faits pour tous les mois ne sont effectués qu'à partir du moment où la correction est apportée.

Cette procédure, suppose que le changement, s'appliquait aussi à l'année de base, lorsque cette hypothèse s'avère fausse, un biais se crée dans les tendances à long-terme.

3. Moyennes

On obtient les rémunérations hebdomadaires moyennes en divisant les rémunérations hebdomadaires totales par le nombre total de salariés. On obtient les rémunérations hebdomadaires moyennes pour les employés à salaire en divisant le total des salaires hebdomadaires par le nombre total d'employés à salaire. On obtient les rémunérations hebdomadaires pour les ouvriers en divisant le total des rémunérations hebdomadaires des ouvriers par le nombre total des ouvriers.

On obtient les gains horaires moyens en divisant le salaire hebdomadaire total des ouvriers rémunérés à l'heure par le nombre total d'heures par semaine. On calcule les heures hebdomadaires

by dividing total weekly man-hours by the number of wage-earners who were paid for those hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earners total includes part-time wage-earners and casuals working more than seven hours during the survey reference week.

4. Seasonal Adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods. It should be noted that the seasonally-adjusted series contains irregular as well as long-term cyclical fluctuations.

The X-11 variant of the U.S. *Census Method II* is used to seasonally adjust the data. This seasonal adjustment system is a complex computer program which differentiates between the seasonal trend and the irregular movements in a series over a number of years and, on the basis of past movements, estimates appropriate seasonal factors for current data. On an annual basis the entire historical series of seasonally-adjusted data is revised in light of the most recent information on changes in seasonality.

This system is used to calculate the seasonally-adjusted employment index numbers, and the average weekly hours and average hourly earnings for selected statistical series. Additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series, January 1961 - December 1977" (Catalogue 72-206).

5. Confidentiality

The information presented in this publication has been reviewed to ensure that the confidentiality of individual responses is respected.

moyennes en divisant le nombre hebdomadaire total d'heures-hommes par le nombre d'ouvriers qui ont été payés pour ces heures. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. Il convient de remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le nombre total d'ouvriers comprend les ouvriers à temps partiel et occasionnels qui ont travaillé plus de sept heures pendant la semaine de référence.

4. Désaisonnalisation

Les fluctuations des séries chronologiques économiques sont causées par des mouvements saisonniers, cycliques et irréguliers. Une série désaisonnalisée est une série dont on a éliminé les effets des mouvements saisonniers. Les mouvements saisonniers sont ceux qui sont causés par des événements annuels réguliers comme les changements de température, les cycles agricoles, les jours fériés et les vacances. Il convient de noter que la série désaisonnalisée contient des fluctuations irrégulières ainsi que des fluctuations cycliques à long terme.

La variante X-11 de la *Method II* de désaisonnalisation du U.S. *Bureau of the Census* est utilisée pour désaisonnaliser. Ce système permet de déceler les mouvements saisonniers, tendanciels et irréguliers au cours d'une période de plusieurs années et, à la lumière des mouvements passés, d'estimer les coefficients saisonniers appropriés pour l'année en cours. Sur une base annuelle, toute la série chronologique des données désaisonnalisées est révisée à la lumière des renseignements les plus récents sur les changements de saisonnalité.

Ce système est utilisé pour calculer les nombres-indices désaisonnalisés de l'emploi, ainsi que les heures hebdomadaires moyennes et les gains horaires moyens pour certaines séries statistiques. Vous trouverez d'autres séries désaisonnalisées dans le bulletin *Emploi, rémunération et heures, séries désaisonnalisées, janvier 1961 décembre 1977*, numéro 72-206 au catalogue.

5. Confidentialité

Les données présentées ici ont été examinées afin d'assurer que la confidentialité des réponses des entreprises soit respectée.

Note

This and other government publications may be purchased from local authorized agents and other community bookstores or by mail order.

Mail orders should be sent to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7, or to Publishing Centre, Supply and Services Canada, Ottawa, K1A 0S9.

Inquiries about this publication should be addressed to:

Employment and Payrolls Section,
Labour Division,

Statistics Canada, Ottawa, K1A 0T6 (telephone: 992-5613) or to a local Advisory Services office:

St. John's (Nfld.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick, and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1(112)800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Ventes et services de publications, Statistique Canada, Ottawa, K1A 0V7, ou à Imprimerie et édition, Approvisionnements et Services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Section des statistiques de l'emploi et de la rémunération,
Division du travail,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 992-5613) ou à un bureau local des Services consultatifs situé aux endroits suivants:

St. John's (T.-N.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de la Nouvelle-Écosse, du Nouveau-Brunswick et de l'Île-du-Prince-Édouard en composant 1-800-565-7192. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1(112)800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- ^r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

NOTE

1. In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.
2. As a result of updating our seasonal adjustment program, new seasonal factors have been derived for 1981 which may result in changes to the previously published seasonally adjusted series. January to date data have been revised and are available from Mr. R. Ouellette (613) 992-5613.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- ^r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

NOTES

1. On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.
2. Dû à une modification de notre programme de désaisonnalisation, des nouveaux facteurs de désaisonnalisation furent calculés pour 1981 et de ce fait des changements peuvent résulter dans les séries désaisonnalisées déjà publiées. Les données pour janvier à date ont été ajustées et sont disponibles en contactant M.R. Ouellette (613) 992-5613.

COMMENTARY

First Estimates(1) — October 1981 (Seasonally Adjusted)

The first estimate of the Canada industrial composite (2) index of employment (1961 = 100) for October 1981 decreased by 0.3% from 156.1 to 155.7. Forestry, manufacturing, construction and trade decreased while the remaining industry divisions increased. Quebec and Ontario registered losses while the remaining regions increased.

Average weekly earnings, at the national industrial level, advanced by 0.9% from \$362.79 to \$366.11. Gains were registered in all industry divisions except mining (including milling) and construction which decreased. All regions contributed to the increase with the exception of the Prairie region.

Preliminary Data — September 1981

Employment

Seasonally adjusted, preliminary data for September 1981 increased by 0.3% at the national industrial composite index of employment. Increases were registered in all industry divisions with the exception of construction and trade which decreased. The Atlantic region and Quebec decreased while the remaining regions increased.

Earnings and Hours

Seasonally adjusted, average weekly earnings increased by 1.0% at the national industrial level. Gains were registered in all industry divisions except construction which decreased. All regions contributed to the increase.

Unadjusted, average weekly earnings increased by 1.8% to \$365.37 at the Canada industrial composite level. Average hourly earnings increased by 43 cents in mining (including milling) to \$12.62, by 24 cents in manufacturing to \$9.41 and by 42 cents in construction to \$14.28. Average weekly hours increased in mining (including milling), in manufacturing and in construction.

(1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.

(2) Industrial Composite is the sum for all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence.

OBSERVATIONS

Premières estimations(1) — octobre 1981 (chiffres désaisonnalisés)

Les premières estimations de l'indice de l'emploi pour octobre 1981 démontrent une baisse de 0.3% de 156.1 à 155.7 au niveau de l'ensemble des industries (2) du Canada. Le forestage, les manufactures, la construction et le commerce ont diminué alors que les autres divisions de l'activité économique ont augmenté. Le Québec et l'Ontario ont régressé alors que les autres régions ont progressé.

Les gains hebdomadaires moyens au niveau de l'ensemble des industries du Canada révèlent une hausse de 0.9% de \$362.79 à \$366.11. On a observé des gains dans toutes les divisions de l'activité économique à l'exception des mines (y compris le broyage) et de la construction qui ont diminué. Exception faite de la région des Prairies, toutes les régions ont participé à cette hausse.

Données provisoires — Septembre 1981

Emploi

Après désaisonnalisation, les données pour septembre 1981 ont augmenté de 0.3% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont participé à cette augmentation à l'exception de la construction et du commerce qui ont diminué. Exception faite des régions de l'Atlantique et du Québec, toutes les régions ont progressé.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont accrus de 1.0% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont progressé à l'exception de la construction qui a diminué. Toutes les régions ont participé à cette hausse.

Les gains hebdomadaires moyens, non désaisonnalisés, ont affiché une hausse de 1.8% pour atteindre \$365.37 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens ont augmenté de 43 cents dans les mines (y compris le broyage) (\$12.62), de 24 cents dans les manufactures (\$9.41) et de 42 cents dans la construction (\$14.28). Le nombre moyen d'heures hebdomadaires a augmenté dans les mines (y compris le broyage), dans les manufactures et dans la construction.

(1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.

(2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice des prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

**SOURCES FOR HISTORICAL DATA ON EMPLOYMENT,
EARNINGS AND HOURS(1)
(based on the 1960 Standard Industrial Classification)**

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

A. 1957-1960

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

B. 1961-1970

Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, *Catalogue 72-002, October 1971*.

Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

Average Weekly Earnings, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:

**SOURCES DES DONNÉES CHRONOLOGIQUES SUR L'EMPLOI,
(LES GAINS ET LA DURÉE DU TRAVAIL(1)
(fondées sur la Classification type des industries de 1960)**

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

A. 1957-1960

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967*; Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

B. 1961-1970

Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, *n° 72-002 au catalogue, octobre 1971*.

Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

Gains hebdomadaires moyens, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

C. 1971-1974

Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.

Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.

Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.

D. 1977

January to June 1977 data were revised for Saskatchewan, Prairie Region, British Columbia, and Canada; the industries affected were Construction, Transportation, Communication and Other Utilities, and Industrial Composite. The revised data were published in the September 1977 issue of *Catalogue* no. 72-002.

E. 1978

January to June 1978 employment, earnings and hours data were revised for all industries and geographical areas. Revised data for January to April 1978 inclusively are contained

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n^o 72-002 au catalogue, juin 1972.

Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n^o 72-002 au catalogue, décembre 1971.

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n^o 72-504 au catalogue.

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n^{os} 72-201 et 72-202 au catalogue, 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1968-1970.

C. 1971-1974

Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada, Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n^o 72-002 au catalogue, juillet 1974.

Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, transports, communication et autres services publics et l'ensemble des industries. Voir le n^o 72-002 au catalogue, septembre 1974.

Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires — moyennes et rémunération horaire moyenne des ouvriers (heures — déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n^o 72-002 au catalogue, septembre 1974.

D. 1977

On a révisé les données de janvier à juin 1977 pour la Saskatchewan, la région des Prairies, la Colombie-Britannique et le Canada; les divisions de l'activité économique impliquées sont: la construction, les transports, communications et autres services publics et l'ensemble des industries. Ces données furent publiées dans l'exemplaire de septembre 1977 du numéro 72-002 au catalogue.

E. 1978

Les données sur l'emploi, les gains et la durée du travail pour les mois de janvier à juin 1978 ont été révisées pour toutes les branches d'activité et toutes les régions géographiques. Les données révisées

in "Employment, Earnings and Hours, January — April 1978" (Catalogue No. 72-517) and data for May and June 1978 are included in the July 1978 issue of Catalogue 72-002.

F.1980

January 1980 data in Construction and Industrial Composite were revised for New Brunswick, Atlantic Region, Quebec and Canada. The revisions were published in the April 1980 issue of Catalogue 72-002.

May to September 1980 data in Transportation, communication and other utilities, Transportation, Water transport and services and Industrial Composite were revised for Ontario and Canada. The revisions were published in the December 1980 issue of Catalogue 72-002.

pour janvier à avril 1978 inclusivement figurent dans *Emploi, gains et durée du travail, janvier-avril 1978* (numéro 72-517 au catalogue) et celles pour mai et juin 1978 paraissent dans le numéro de juillet 1978 du bulletin 72-002.

F.1980

Les données du mois de janvier 1980 pour le secteur de la construction ainsi que pour l'ensemble des industries, ont été rectifiées pour les provinces du Nouveau Brunswick et du Québec, de la région de l'Atlantique et du Canada. Ces données apparaissent dans l'exemplaire du mois d'avril 1980 du numéro 72-002 au catalogue.

Les données pour les mois de mai à septembre 1980 pour le Transport communication et autres services publics, transports, transports par eau et services et l'ensemble des industries ont été rectifiées pour la province de l'Ontario et le Canada. Ces données apparaissent dans l'exemplaire du mois de décembre 1980 du numéro 72-002 au catalogue.

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

CONCEPTS AND METHODS

Objectives

The Monthly Employment, Payrolls and Manhours survey is designed to measure the month-to-month trends of employment, paid hours and earnings for the commercial sector of the economy with the exclusion of agriculture, fishing and trapping.

These measures are expressed in an index form for employment and as weekly averages for earnings and hours paid. The data are compiled and published at detailed industrial and geographic levels.

Source of Data

The statistics contained in this report are based on information obtained through a mail census of "larger firms".

The firm is defined as any business entity whether incorporated or not; it comprises sole proprietorships, partnerships, corporations and other forms of organization such as co-operatives. Most firms consist of only one "establishment" (see definition under Industrial Classification) but in some cases the firm is made up of a number of establishments which may or may not be engaged in the same kind of economic activity.

A firm is considered as "larger" when it employs 20 or more persons in any one month of the year. Although the intent of the survey is to cover all such firms, it also includes some firms with less than 20 employees and excludes some firms with more than 20 employees; the reason is that, in practice, it is not always possible to capture promptly enough employment fluctuations in individual firms.

Universe

The universe for the survey is derived from a central file of employers maintained by the Business Register and Profiling Division of Statistics Canada.

Coverage

All commercial industries are covered by the survey, with the exception of agriculture, fishing and trapping; by definition such non-commercial sectors as education and related services, health and welfare services, religious organizations, private households and public administration and defense are excluded. Because the survey is limited to "larger firms", the proportion of total employment covered by the survey varies among industries, provinces and urban areas. The following table shows annual employment as compiled in the survey as a percentage of the estimated total number of employees, the latter being estimated by adding together data from the Employment, Payrolls and Manhours survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of the total number of employees are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

CONCEPTS ET MÉTHODES

Objectifs

L'enquête mensuelle sur l'emploi, la rémunération et les heures-hommes a pour objet de mesurer d'un mois à l'autre les tendances de l'emploi, des heures rémunérées et des gains touchés dans les secteurs commerciaux de l'économie à l'exception de l'agriculture, de la pêche et du piégeage.

Ces mesures sont exprimées sous forme d'indices dans le cas de l'emploi et de moyennes hebdomadaires dans le cas des gains touchés et des heures rémunérées. Les données sont rassemblées et publiées à des niveaux de détails raffinés selon l'activité économique et le lieu géographique.

Source des données

Les statistiques présentées dans ce bulletin sont fondées sur des renseignements obtenus au moyen d'un recensement postal des "grandes entreprises".

Le terme "entreprise" désigne toute entité commerciale constituée ou non en corporation; il peut s'agir d'une entreprise à propriétaire unique, d'une société en nom collectif, d'une corporation ou d'une autre forme d'organisation comme une coopérative. La plupart des entreprises ne comptent qu'un seul "établissement" (voir la définition sous la rubrique "Classement par activité économique") mais, dans certains cas, l'entreprise peut regrouper plusieurs établissements qui exercent ou non le même genre d'activité économique.

Une entreprise est considérée comme une "grande entreprise" si elle emploie 20 personnes ou plus pendant un mois quelconque de l'année. Bien que l'objet de l'enquête soit d'appréhender toutes les grandes entreprises, elle vise cependant quelques entreprises employant moins de 20 salariés et n'englobe pas toutes les entreprises comptant plus de 20 salariés, car, en pratique, il est presque toujours impossible de saisir rapidement toutes les fluctuations de l'emploi dans chacune des entreprises.

Univers

L'univers de l'enquête est établi à l'aide d'un registre central des employeurs tenu à jour par la Division des profils et du registre des entreprises de Statistique Canada.

Champ de l'enquête

L'enquête vise tous les secteurs commerciaux de l'activité économique à l'exception de l'agriculture, de la pêche et du piégeage; en sont donc exclus les secteurs non commerciaux comme l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux, les ménages privés et l'administration publique et la défense. Étant donné que l'enquête ne vise que les "grandes entreprises", la proportion de l'emploi total qu'elle appréhende varie d'une branche d'activité, d'une province et d'une région urbaine à l'autre. Le tableau qui suit indique l'emploi annuel relevé par l'enquête, exprimé en pourcentage du nombre estimatif total de salariés, l'estimation de ce dernier chiffre étant calculée en additionnant les données de l'enquête sur l'emploi, la rémunération et les heures-hommes avec celles d'une enquête par sondage et d'enquêtes supplémentaires menées auprès des petites entreprises. Les estimations du nombre total de salariés sont publiées dans le bulletin intitulé "Estimations du nombre de salariés par province et par industrie" numéro 72-008 au catalogue.

Larger-Firm Survey Employment as a Percentage of Total Estimated Employment, by Industry Division, for Canada and Provinces, 1980 Annual Averages(1)

Emploi des grandes entreprises en tant que pourcentage de l'estimation de l'emploi total par branche d'activité pour le Canada et les provinces, moyennes annuelles de 1980(1)

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes health (except hospitals), recreational, business, personal and miscellaneous services only. - Comprend seulement les services récréatifs, commerciaux, personnels, d'hygiène (sauf les hôpitaux) et divers.
- (3) Non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services, public administration, defence, fishing and trapping. - Ne comprend pas les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage.
- (5) Non-commercial services, public administration, defence, fishing and trapping are included in total estimated employment, but are not part of the larger-firm employment survey. - Les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.

Industrial Classification

All firms are assigned to an industry on the basis of their principal activity. In instances where the firm is engaged in only one kind of industrial activity, the industrial classification is straight forward. Classification problems arise when a firm is active in more than one kind of classifiable industrial activity. This usually occurs when a firm operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined, for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added" or "gross mark up" or "gross profit" as well as data on employment and payrolls.

For purposes of detailed geographical statistics, the establishment is often sub-divided into reporting units which, although not capable of reporting all basic industrial statistics, can report employment and payroll data for particular locations.

Classement par activité économique

Toutes les entreprises appartiennent à une branche d'activité économique qui est déterminée en fonction de leur activité principale. Si l'entreprise n'exerce qu'un seul genre d'activité économique, le classement est simple. Les problèmes surgissent lorsqu'elle en exerce plus d'un, par exemple lorsqu'elle possède plus d'un établissement. À des fins statistiques, on définit l'établissement, qui consiste habituellement en une usine, une mine, un magasin ou une unité semblable, comme la plus petite unité constituant un ensemble d'exploitation distinct en mesure de déclarer tous les éléments de base de la statistique des activités économiques, qui permettent de calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut", ainsi que des données sur l'emploi et la rémunération.

Pour permettre d'obtenir des statistiques géographiques détaillées, l'établissement est souvent subdivisé en unités déclarantes qui, bien qu'elles ne puissent fournir toutes les statistiques de base, sont en mesure de déclarer des données sur l'emploi et la rémunération pour des endroits particuliers.

The industrial classification of the statistics contained in this report is based on the Standard Industrial Classification for 1960. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue No. 12-501. The "S.I.C. code" columns of Tables 2, 3 and 4 correspond to the codes of this manual. These tables also contain the following groupings which are not part of the "Standard Industrial Classification Manual".

- (a) Industrial composite (031-899) It is the sum of all the industries included in the survey (see Coverage).
- (b) Durable goods manufacturing (durable) comprises wood products (250-259), furniture and fixtures (260-269), primary metal industries (290-298), metal fabricating industries (300-309), machinery except electrical (310-318), transportation equipment (320-329), electrical products (330-339), and non-metallic mineral products (340-359).
- (c) Non-durable goods manufacturing (non-dur) consists of food and beverages (100-147), tobacco processing and products (150-153), rubber products (160-169), leather products (170-179), textile products (180-229), knitting mills (230-239), clothing (240-249), paper and allied industries (270-274), printing, publishing and allied industries (280-289), petroleum and coal products (360-369), chemicals and chemical products (370-379), and miscellaneous manufacturing industries (380-399).
- (d) Building construction (404,421). It is the sum of general contractors (404) and special trade contractors (421).
- (e) Engineering construction (406,409) It includes highway, bridge and street construction (406) and other construction (409).
- (f) The synthetic textile industry (201) is sub-divided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).
- (g) Head Offices, sales and auxiliary units This special group includes head offices, sales branches and research laboratories for the following major groups of manufacturing: food and beverages (100), rubber products (160), paper and allied industries (270), primary metal industries (290), electrical products (330), and chemicals and chemical products (370).

Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The 1966 Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas; the definitions used for other urban areas are based on a labour market concept. The urban areas usually consist of the urban centre as well as the surrounding territory. A list showing the territory included in each tabulated urban area is available from the Employment and Payrolls Section. The reporting units not located in a tabulated

Le classement des statistiques présentées ici s'inspire de la Classification type des industries de 1960. Vous trouverez une description des diverses activités économiques et divers groupes d'activité économique dans le "Manuel de la classification type des industries," no 12-501 au catalogue.

- a) Ensemble des industries (031-899) - L'ensemble des activités économiques visées par l'enquête. (Voir champ de l'enquête)
- b) Manufactures, biens durables (durable) - L'ensemble de l'industrie des produits du bois (250-259), de l'industrie des meubles et accessoires d'ameublement (260-269), de l'industrie des métaux (formes primaires) (290-298), de l'industrie des produits métalliques (300-309), de l'industrie de la machinerie (sauf le matériel électrique) (310-318), de l'industrie du matériel de transport (320-329), de l'industrie des appareils et du matériel électriques (330-339), et de l'industrie des produits minéraux non métalliques (340-359).
- c) Manufactures, biens non durables (non dur.) - L'ensemble de l'industrie des aliments et boissons (100-147), de l'industrie du traitement et des produits du tabac (150-153), de l'industrie des produits du caoutchouc (160-169), de l'industrie des produits du cuir (170-179), de l'industrie des produits du textile (180-229), de l'industrie de la bonneterie (230-239), de l'industrie du vêtement (240-249), de l'industrie du papier et des produits connexes (270-274), de l'imprimerie, de l'édition et des industries connexes (280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (360-369), de l'industrie chimique et des produits connexes (370-379), et des industries manufacturières diverses (380-399).
- d) Bâtiment (404, 421) - L'ensemble des entrepreneurs généraux (404) et des entrepreneurs spécialisés (421).
- e) Génie civil (406,409) - L'ensemble de la construction de routes, ponts et rues (406) et des autres constructions (409).
- f) L'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).
- g) Sièges sociaux, bureaux de vente et services auxiliaires. Ce groupe spécial comprend les sièges sociaux, les bureaux de ventes, les succursales et les laboratoires de recherche des entreprises faisant partie des groupes d'activité économique suivants: industries des aliments et boissons (100), industrie du caoutchouc (160), industrie du papier et des produits connexes (270), industrie des métaux (formes primaires) (290), industrie des appareils et du matériel électriques (330) et industrie chimique et des produits connexes (370).

Classement géographique

On attribue les unités déclarantes à une province, un comté (selon la définition utilisée aux fins du recensement de la population) et, s'il y a lieu, à une région urbaine. Les données se rapportant à Terre-Neuve, à l'Île-du-Prince-Édouard, à la Nouvelle-Écosse et au Nouveau-Brunswick sont regroupées dans certains tableaux pour présenter l'ensemble des statistiques de la région de l'Atlantique. De la même façon, les données relatives au Manitoba, à la Saskatchewan et à l'Alberta sont additionnées pour indiquer les totaux de la région des Prairies. La définition du terme "région métropolitaine" utilisée aux fins du recensement de la population de 1966 a été retenue pour les dix-neuf régions urbaines; les définitions utilisées pour les autres régions urbaines sont fondées sur un concept du marché du travail. Une région urbaine se compose habituellement d'un centre urbain et du territoire qui l'entoure. Vous pouvez vous procurer une liste indiquant le territoire compris dans

urban area or not allocated to a compiled county, are included in provincial, regional and national totals.

Definitions

1. Reference Period

Conceptually, the data in this report refer to the last seven days in the specified month. In practice, few firms keep payroll records covering precisely this period. Therefore, firms are permitted to report for their last pay period or pay periods in each month. When the reported pay period is longer than one week, the data are reduced to a week using the number of days the firm usually operates during a week divided by the number of working days covered by the reported pay period.

If, owing to strikes, unpaid holidays or other similar factors, the data for the reported period are not representative of the reference period, adjustments are made to reflect the situation of the last seven days of the month.

2. Employee

All persons drawing pay for services rendered or for paid absence during the survey reference period and for whom an employer makes CPP or QPP and/or UIC contributions constitute employees.

The employee concept comprises full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment), and casual employees (those who are hired for discontinuous periods or on an irregular basis and who worked at least seven hours during the reference period). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses and professional practices, the self-employed, unpaid family workers, persons doing non-remunerative work, pensioners, home workers, members of elected or appointed bodies, military personnel and persons providing services to an establishment on a contract basis.

An employee paid for a part of the reference period and unemployed or on strike for the rest is counted as employed. Persons not receiving pay for the entire reference period are excluded.

The employees are classified into two broad occupational categories, namely: salaried employees and wage-earners:

(a) Wage-earners

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. All the above-mentioned employees are considered to be

chaque région urbaine figurant dans les tableaux en vous adressant à la Section des statistiques de l'emploi et de la rémunération. Les chiffres des unités déclarantes situées ailleurs que dans une région urbaine indiquée dans les tableaux ou non attribuées à un comté dont le nom figure sur la liste font partie des totaux provinciaux, régionaux et nationaux.

Définitions

1. Période de référence

En théorie, les données sur l'emploi se rapportent aux sept derniers jours du mois de référence. En pratique, étant donné que peu d'entreprises tiennent des registres de paye pour cette période précise, on leur permet de faire porter leur déclaration sur la (les) dernière(s) période(s) de paye de chaque mois. Lorsque la période de paye sur laquelle porte la déclaration dépasse une semaine, on rajuste les données en effectuant le calcul suivant: on divise le nombre de jours d'activité hebdomadaire de l'entreprise par le nombre de jours ouvrables compris dans la période de paye sur laquelle porte la déclaration.

Si, en raison d'une grève, d'un congé non payé ou d'autres facteurs semblables, les données déclarées ne sont pas représentatives de la période de référence, on procède aux rajustements qui s'imposent afin de traduire la situation pendant les sept derniers jours du mois.

2. Salarié

Toute personne qui est rétribuée pour ses services ou ses absences pendant la semaine de référence et pour laquelle l'employeur verse des contributions au R.P.C. ou au R.R.Q. et à la caisse d'assurance-chômage, est un salarié.

La catégorie "salariés" comprend les salariés à temps plein, les salariés à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise) et les salariés occasionnels (ceux qui sont embauchés de façon temporaire ou irrégulière et qui ont travaillé au moins sept heures au cours de la période de référence). Elle comprend aussi les propriétaires, les administrateurs, les associés et les autres dirigeants d'entreprises constituées en société.

Le concept des salariés exclut les propriétaires et les partenaires d'entreprises non constituées en corporation et ceux qui possèdent un bureau pour l'exercice d'une profession, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les retraités, les travailleurs à domicile, les membres de corps élus ou nommés, le personnel militaire et les personnes fournissant des services à un établissement sur une base forfaitaire.

Sont visées les personnes qui ont été payées pendant une partie de la période de référence mais qui étaient en chômage ou en grève pendant le reste de la période. Les personnes n'ayant pas touché de paye pour la période de référence entière ne sont pas visées.

Les salariés sont classés en deux catégories professionnelles, soit les employés et les ouvriers:

a) Ouvriers

Cette catégorie comprend les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Toutes ces personnes sont considérées comme des ou-

wage-earners regardless of whether their earnings are based on monthly, hourly or other rates of pay. Average weekly wages are computed for all wage-earners but average weekly hours and average hourly earnings are calculated only for wage-earners for whom hours data are available.

(b) Salaried Employees

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

3. Earnings

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piece-work and regular commission earnings, regular paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey reference week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained these data combined under "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners were available.

4. Paid Absence

Paid absence comprises paid holidays, vacation, sick leave including industrial injury and personal leave such as bereavement leave, jury duty, etc.

5. Standard Work Week

The standard work week is the number of hours or days of work normally scheduled for the majority of full-time employees.

Methodology

The data appearing in this report were collected by means of questionnaires mailed monthly to firms covered by the survey. In order to improve the quality of data, the response rate

vriers, que leurs gains soient fondés sur des taux de rémunération mensuels, horaires ou autres. Les salaires hebdomadaires moyens sont calculés pour tous les ouvriers, mais les heures hebdomadaires moyennes et les gains horaires moyens sont calculés uniquement pour ceux dont on connaît le nombre d'heures de travail.

b) Employés

Cette catégorie comprend les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

3. Gains

Les gains des ouvriers et des employés représentent la rémunération brute de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les traitements, les salaires au taux ordinaire, les gains provenant du travail à la pièce et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de référence. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les contributions de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents du travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur du couvert et du gîte, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "gains" désigne l'ensemble des salaires hebdomadaires des ouvriers et des traitements des employés. Les publications antérieures à mars 1971 présentaient les données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "gains hebdomadaires moyens" des salariés pris en compte ici. Ce système permet maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "salaires hebdomadaires moyens" des ouvriers rémunérés à l'heure.

4. Absence payée

Les absences payées comprennent les jours fériés payés, les vacances, les congés de maladie, ainsi que les congés d'accident du travail et les congés personnels tels que les congés de deuil et les congés pour fonctions de jury.

5. Semaine normale de travail

La semaine normale de travail est le nombre d'heures ou de jours de travail normalement prévus pour la majorité des salariés à temps plein.

Méthodologie

Les données présentées dans cette publication ont été recueillies au moyen de questionnaires postaux envoyés chaque mois à toutes les entreprises faisant partie de l'enquête. Afin d'améliorer la qualité des

is increased through two reminders mailed to all non-respondents one month and two months after the initial mail-out. If the two reminders do not produce a response, the Regional Operations Division of Statistics Canada attempts to obtain the required data by telephone or in a personal interview. These steps result in a final response rate of over 80%. Firms for which no response is obtained are still accounted for in the employment, earnings and hours tables of this publication. The method for imputing for non-response is explained under 'Imputation' below.

1. Data Edit

All the completed questionnaires which reach Statistics Canada are carefully edited for completeness, consistency and accuracy both manually and using computer edit procedures. To perform the computer edit, the responses are assembled into imputation groups which are formed on the basis of industrial classification, geographic area and size of the reporting unit. The composition of these groups is such that they consist of reporting units similar with respect to the characteristics being measured and with respect to relationships between these characteristics. This edit compares the value of a characteristic (number of employees, hours worked, salary per employee, the ratio of the present number of employees to last month's number of employees, etc.) to the corresponding value of the characteristic for the same unit of the previous month and/or for the imputation group. The amount by which a characteristic is allowed to vary from the average imputation group value is calculated separately for each group and for each characteristic and depends on the homogeneity and stability of the group itself.

When a figure varies too much from the average value for the imputation group, or when only partial response is received, the record is signaled by the computer edit for inspection and subject to correction or acceptance as appropriate.

2. Imputation

Every month, there are reporting units for which no response is received. For those newly introduced into the survey, data are manually imputed based on other sources of information such as the employment intention of the firm and the characteristics of firms in the same industry and geographic area.

Imputation for reporting units, for which data for the previous month are available, is based on the monthly changes reported by responding units within the same imputation group. A ratio of monthly change for each characteristic is applied to the previous month's data of each non respondent.

Reliability of the Estimates

Because the Monthly Employment, Payrolls and Man-hours survey is a census, any inaccuracy in the results is due to non-sampling error. Some of the factors contributing to non-sampling error are the inability to obtain responses from all in-scope reporting units. The problems associated in identifying all in-scope reporting units in a timely fashion, incorrect responses supplied by respondents and errors in coding and processing data. Non-sampling errors are difficult to measure and no estimate of this type of error has been obtained for this survey. However, every attempt has been made to minimize

données, on accroît le taux de réponse en faisant parvenir deux lettres de rappel à toutes les entreprises non répondantes un mois et deux mois après l'envoi initial du questionnaire. Si elles ne répondent toujours pas après avoir reçu les deux avis, la Division des opérations régionales de Statistique Canada tente d'obtenir les données nécessaires par téléphone ou au moyen d'une interview sur place. Ces mesures permettent généralement de hausser le taux de réponse à plus de 80%. Les entreprises qui ne répondent pas à l'enquête sont quand même prises en compte dans les tableaux de la publication portant sur l'emploi, les gains et les heures de travail. La méthode d'imputation pour les entreprises non répondantes est expliquée ci-dessous sous la rubrique "Imputation".

1. Vérification des données

Tous les questionnaires remplis renvoyés à Statistique Canada sont soigneusement vérifiés à la main et par ordinateur pour assurer qu'ils sont complets, cohérents et exacts. Pour être vérifiées par ordinateur, les réponses sont réparties en groupes d'imputation constitués en fonction du classement par activité économique, du lieu géographique et de la taille de l'unité déclarante. La composition de ces groupes est telle qu'ils regroupent des unités déclarantes qui présentent les mêmes caractéristiques et dont les caractéristiques affichent les mêmes liens entre elles. Cette vérification permet de comparer la valeur d'une caractéristique (nombre de salariés, heures de travail, gains par salarié, rapport du nombre actuel de salariés à celui du mois précédent, etc.) par rapport à la valeur de la caractéristique correspondante du mois précédent pour la même unité déclarante et/ou pour le groupe d'imputation. L'écart qui peut séparer la valeur d'une caractéristique et la valeur moyenne de la même caractéristique pour le groupe d'imputation tout entier est calculé séparément pour chaque groupe et pour chaque caractéristique, et dépend de l'homogénéité et de la stabilité du groupe lui-même.

Lorsqu'un chiffre s'écarte trop de la valeur moyenne pour tout le groupe d'imputation, ou lorsqu'on ne reçoit qu'une réponse partielle, l'unité déclarante est signalée lors de la vérification par ordinateur pour inspection et est sujette à être corrigée ou acceptée selon le cas.

2. Imputation

Chaque mois il existe certaines unités déclarantes dont on ne reçoit aucune réponse. Pour ces unités qui sont nouvellement introduites dans l'enquête, les données sont imputées manuellement et sont basées sur d'autres sources d'information telles que l'intention d'emploi de la firme et les caractéristiques des entreprises qui font partie de la même branche d'activité et qui sont situées dans le même lieu géographique.

L'imputation des unités déclarantes dont les données du mois précédent sont disponibles, est basée sur les changements mensuels rapportés par les unités déclarantes faisant partie du même groupe d'imputation. Un rapport du changement mensuel pour chaque caractéristique est appliqué aux données du mois précédent pour chaque entreprise non répondante.

Fiabilité des estimations

L'enquête sur l'emploi, la rémunération et les heures-hommes étant une enquête exhaustive, toute inexactitude dans les résultats est attribuable à une erreur d'observation. Parmi les exemples de sources d'erreurs d'observation, citons l'impossibilité d'obtenir des renseignements de toutes les unités faisant partie de l'enquête, les problèmes associés avec l'identification de toutes les unités qui devraient faire partie de l'enquête et ce dans le plus bref délai, les renseignements inexacts fournis par les entreprises répondantes et les erreurs de codage et de traitement des données. Les erreurs d'observation sont difficilement quantifiables et l'on n'a pas établi d'estimation de ce genre d'erreur pour

non-sampling errors by the use of a carefully designed and carefully worded questionnaire, the relative simplicity of the data requested, follow-up of non-respondents, thorough editing of data and control of the processing operations.

Statistical Presentation

1. Data Revision

Each month, statistics for the three latest months are prepared by the Employment and Payrolls Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 55%) and only highly aggregated figures are released in the Statistics Canada *Daily* and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current month and third estimates for the month prior to that. For both of these estimates which are based on a higher rate of response (approximately 75% and 82% respectively), full details are shown in this publication.

After completion of the third estimate, revisions to the data are made occasionally to incorporate large changes. The section, "Sources for Historical Data on Employment, Earnings and Hours", lists the issues that contain the revisions received from respondents or to rectify mechanical errors. These corrections appear in the tables of this publication.

2. Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly - average of the total base year employment (or payroll).

The index numbers constitute a better measure of the monthly trends in statistical series than the actual values because they are not effected by certain changes. For example, a large firm erroneously missing from the survey can be introduced by adjusting both the current and base year data and, thus, will not distort the monthly changes indicated by the index numbers. However, the measure of the monthly trend calculated from the actual value will be biased because the additions which should be reflected in all months are only included from the time the correction is made.

The technique used assumed that the change was applicable to the base period. When this assumption is incorrect, a bias is introduced in the long term trends.

3. Averages

Average weekly earnings for all employees are obtained by dividing the total weekly payrolls by the total number of employees. Average weekly earnings for salaried employees are obtained by dividing the total weekly salaries by the total number of salaried employees. Average weekly earnings for all wage-earners are obtained by dividing the total weekly wages by the total number of wage-earners.

Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. The average weekly hours figure is obtained

cette enquête. Toutefois, tous les efforts ont été faits pour minimiser les erreurs d'observation grâce à la conception et à la formulation soignées des questionnaires, la simplicité relative des données demandées, la relance des entreprises non répondantes, la vérification approfondie des données et le contrôle rigoureux des opérations de traitement.

Présentation statistique

1. Révision des données

Chaque mois, la Section des statistiques de l'emploi et de la rémunération prépare des statistiques pour les trois derniers mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (habituellement environ 55%) et seuls des chiffres très généraux sont publiés dans le *Quotidien* de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxièmes estimations pour le mois qui précède le mois le plus récent, et des troisièmes pour le mois qui précède celui-là. La présente publication contient tous les détails, pour ces deux dernières estimations qui sont basées sur un plus grand nombre de réponses (environ 75% pour les deuxièmes estimations et 82% pour les troisièmes).

Une fois terminées les troisièmes estimations, on modifie à l'occasion les données à la lumière de révisions importantes. La partie intitulée "Sources des données chronologiques sur l'emploi, les gains et la durée du travail" énumère les publications contenant les révisions.

2. Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base.

Les nombres-indices constituent une mesure plus valable des tendances mensuelles observées dans les séries statistiques que les valeurs réelles, car ils ne sont pas touchés par certaines variations. Par exemple, on peut introduire dans l'enquête une grande entreprise qu'on a oublié de dénombrer lors du listage en rajustant à la fois les données de l'année courante et celles de l'année de base et, ainsi, éviter de fausser les variations mensuelles affichées par les nombres-indices. Toutefois, toute mesure de la tendance mensuelle calculée à partir de la valeur réelle comportera un biais, car les ajouts qui devraient être faits pour tous les mois ne sont effectués qu'à partir du moment où la correction est apportée.

Cette procédure, suppose que le changement, s'appliquait aussi à l'année de base, lorsque cette hypothèse s'avère fausse, un biais se crée dans les tendances à long-terme.

3. Moyennes

On obtient les rémunérations hebdomadaires moyennes en divisant les rémunérations hebdomadaires totales par le nombre total de salariés. On obtient les rémunérations hebdomadaires moyennes pour les employés à salaire en divisant le total des salaires hebdomadaires par le nombre total d'employés à salaire. On obtient les rémunérations hebdomadaires pour les ouvriers en divisant le total des rémunérations hebdomadaires des ouvriers par le nombre total des ouvriers.

On obtient les gains horaires moyens en divisant le salaire hebdomadaire total des ouvriers rémunérés à l'heure par le nombre total d'heures par semaine. On calcule les heures hebdomadaires

by dividing total weekly man-hours by the number of wage-earners who were paid for those hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earners total includes part-time wage-earners and casuals working more than seven hours during the survey reference week.

4. Seasonal Adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods. It should be noted that the seasonally-adjusted series contains irregular as well as long-term cyclical fluctuations.

The X-11 variant of the U.S. *Census Method II* is used to seasonally adjust the data. This seasonal adjustment system is a complex computer program which differentiates between the seasonal trend and the irregular movements in a series over a number of years and, on the basis of past movements, estimates appropriate seasonal factors for current data. On an annual basis, the entire historical series of seasonally-adjusted data is revised in light of the most recent information on changes in seasonality.

This system is used to calculate the seasonally-adjusted employment index numbers, and the average weekly hours and average hourly earnings for selected statistical series. Additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series, January 1961 - December 1977" (Catalogue 72-206).

5. Confidentiality

The information presented in this publication has been reviewed to ensure that the confidentiality of individual responses is respected.

moyennes en divisant le nombre hebdomadaire total d'heures-hommes par le nombre d'ouvriers qui ont été payés pour ces heures. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. Il convient de remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le nombre total d'ouvriers comprend les ouvriers à temps partiel et occasionnels qui ont travaillé plus de sept heures pendant la semaine de référence.

4. Désaisonnalisation

Les fluctuations des séries chronologiques économiques sont causées par des mouvements saisonniers, cycliques et irréguliers. Une série désaisonnalisée est une série dont on a éliminé les effets des mouvements saisonniers. Les mouvements saisonniers sont ceux qui sont causés par des événements annuels réguliers comme les changements de température, les cycles agricoles, les jours fériés et les vacances. Il convient de noter que la série désaisonnalisée contient des fluctuations irrégulières ainsi que des fluctuations cycliques à long terme.

La variante X-11 de la *Method II* de désaisonnalisation du U.S. *Bureau of the Census* est utilisée pour désaisonnaliser. Ce système permet de déceler les mouvements saisonniers, tendanciels et irréguliers au cours d'une période de plusieurs années et, à la lumière des mouvements passés, d'estimer les coefficients saisonniers appropriés pour l'année en cours. Sur une base annuelle, toute la série chronologique des données désaisonnalisées est révisée à la lumière des renseignements les plus récents sur les changements de saisonnalité.

Ce système est utilisé pour calculer les nombres-indices désaisonnalisés de l'emploi, ainsi que les heures hebdomadaires moyennes et les gains horaires moyens pour certaines séries statistiques. Vous trouverez d'autres séries désaisonnalisées dans le bulletin *Emploi, rémunération et heures, séries désaisonnalisées, janvier 1961 décembre 1977*, numéro 72-206 au catalogue.

5. Confidentialité

Les données présentées ici ont été examinées afin d'assurer que la confidentialité des réponses des entreprises soit respectée.

- 72-619 Rémunération des salariés au Canada: Ensemble des industries, 1978. Bil.

Outre les publications énumérées ci-dessus, Statistique Canada publie une grande variété de bulletins statistiques sur la situation économique et sociale du Canada. On peut se procurer gratuitement un catalogue complet des publications courantes en s'adressant à Statistique Canada, Ottawa (Canada), K1A 0T6.

EMPLOYMENT AND PAYROLL REPORTS

Following are publications of the Labour Division based upon establishment data in the field of industrial employment, payrolls and hours:

Catalogue

Monthly

- 72-002 Employment, Earnings and Hours. Bil.
- 72-005 Estimates of Labour Income. Bil.
- 72-008 Estimates of Employees by Province and Industry. Bil.

Annual

- 72-206 Employment, Earnings and Hours Seasonally-adjusted Series. Bil.

Occasional

- 72-506 Labour Costs in Manufacturing, 1967. Bil.
- 72-508 Estimates of Employees by Province and Industry, 1961 - 1968. Bil.
- 72-510 Labour Costs in Manufacturing, 1968. Bil.
- 72-511 Labour Costs in Canada: Mines, Quarries and Oil Wells, 1969. Bil.
- 72-513 Estimates of Employees by Province and Industry, 1961 - 1972. Bil.
- 72-514 Estimates of Employees by Province and Industry, 1961 - 1974. Bil.
- 72-516 Estimates of Employees by Province and Industry, 1961 - 1976. Bil.
- 72-517 Employment, Earnings and Hours, 1978. Bil.

Annual/Various

- 72-601 Earnings and Hours of Work in Canada: Retail Trade Industry, September 1970. Bil.
- 72-602 Earnings and Hours of Work in Canada: Accommodation, Food and Recreational Services, 1972. Bil.
- 72-603 Earnings and Hours of Work in Canada: Finance, Insurance and Real Estate, 1973. Bil.
- 72-610 Labour Costs in Canada: Finance, Insurance and Real Estate, 1970. Bil.
- 72-611 Labour Costs in Canada: Transportation, Communication and Other Utilities, 1970. Bil.
- 72-612 Labour Costs in Canada: Manufacturing, 1971. Bil.
- 72-613 Labour Costs in Canada: Mines, Quarries and Oil Wells, 1972. Bil.
- 72-615 Labour Costs in Canada: Trade, 1972. Bil.
- 72-616 Labour Costs in Canada: Education, Libraries and Museums, 1974. Bil.
- 72-617 Labour Costs in Canada: Services to Business Management, 1975. Bil.
- 72-618 Labour Costs in Canada: All Industries, 1976. Bil.
- 72-619 Employee Compensation in Canada: All Industries, 1978. Bil.

In addition to the selected publications listed above, Statistics Canada published a wide range of statistical reports on Canadian economic and social affairs. A comprehensive catalogue of all current publications is available free on request from Statistics Canada, Ottawa (Canada), K1A 0T6.

Note

This and other government publications may be purchased from local authorized agents and other community bookstores or by mail order.

Mail orders should be sent to Publication Sales and Services, Statistics Canada, Ottawa, K1A 0V7, or to Publishing Centre, Supply and Services Canada, Ottawa, K1A 0S9.

Inquiries about this publication should be addressed to:

Employment and Payrolls Section,
Labour Division,

Statistics Canada, Ottawa, K1A 0T6 (telephone: 992-5613) or to a local Advisory Services office:

St. John's (Nfld.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Nova Scotia, New Brunswick, and Prince Edward Island by telephoning 1-800-565-7192. Throughout Saskatchewan, the Regina office can be reached by dialing 1(112)800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Ventes et services de publications, Statistique Canada, Ottawa, K1A 0V7, ou à Imprimerie et édition, Approvisionnements et Services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Section des statistiques de l'emploi et de la rémunération,
Division du travail,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 992-5613) ou à un bureau local des Services consultatifs situé aux endroits suivants:

St. John's (T.-N.)	(737-4073)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(359-5405)
Edmonton	(420-3027)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de la Nouvelle-Écosse, du Nouveau-Brunswick et de l'Île-du-Prince-Édouard en composant 1-800-565-7192. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1(112)800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

Symbols

The following standard symbols are used in Statistics Canada publications:

- .. figures not available.
- ... figures not appropriate or not applicable.
 - nil or zero.
- amount too small to be expressed.
- P preliminary figures.
- † revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

NOTE

1. In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.
2. As a result of updating our seasonal adjustment program, new seasonal factors have been derived for 1981 which may result in changes to the previously published seasonally adjusted series. January to date data have been revised and are available from Mr. R. Ouellette (613) 992-5613.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
 - néant ou zéro.
- nombres infimes.
- P nombres provisoires.
- † nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

NOTES

1. On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.
2. Dû à une modification de notre programme de désaisonnalisation, des nouveaux facteurs de désaisonnalisation furent calculés pour 1981 et de ce fait des changements peuvent résulter dans les séries désaisonnalisées déjà publiées. Les données pour janvier à date ont été ajustées et sont disponibles en contactant M.R. Ouellette (613) 992-5613.

COMMENTARY

First Estimates(1) — November 1981 (Seasonally Adjusted)

The first estimate of the Canada industrial composite(2) index of employment decreased by 0.4% from 155.3 to 154.7. Forestry, manufacturing and trade decreased while the remaining industry divisions increased or remained unchanged. The Atlantic region, Quebec and Ontario registered losses while the Prairie region and British Columbia increased.

Average weekly earnings at the national industrial level advanced by 0.5% from \$367.79 to \$369.56. Gains were registered in all industry divisions except forestry. All regions contributed to the increase.

Preliminary Data — October 1981

Employment

Seasonally adjusted, preliminary data for October 1981 decreased by 0.3% at the national industrial composite level. Decreases were registered in all industry divisions with the exception of mining (including milling), of transportation, communication and other utilities and service which increased. Quebec, Ontario and British Columbia decreased while the remaining regions increased.

Earnings and Hours

Seasonally adjusted, average weekly earnings increased by 1.2% at the national industrial level. Gains were registered in all industry divisions except mining (including milling) and construction which decreased. All regions contributed to the increase with the exception of the Prairie region.

Unadjusted, average weekly earnings increased by 1.0% to \$369.56 at the Canada industrial composite level. Average hourly earnings increased by 23 cents in mining (including milling) to \$12.86, by 12 cents in manufacturing to \$9.54 and by 10 cents in construction to \$14.41. Average weekly hours increased in manufacturing but decreased in mining (including milling) and in construction.

Following are two tables summarizing the variations in all industry divisions that occurred in the first three quarters of 1981 compared with the first three quarters of 1980.

- (1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.
- (2) Industrial Composite is the sum for all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence.

OBSERVATIONS

Premières estimations(1) — Novembre 1981 (chiffres désaisonnalisés)

Les premières estimations de l'indice de l'emploi pour novembre 1981 démontrent une baisse de 0.4% de 155.3 à 154.7 au niveau de l'ensemble des industries(2) du Canada. Le forestage, les manufactures et le commerce ont diminué alors que les autres divisions de l'activité économique ont augmenté ou n'ont pas varié. La région de l'Atlantique, le Québec et l'Ontario ont régressé alors que la région des Prairies et la Colombie-Britannique ont progressé.

Les gains hebdomadaires moyens au niveau de l'ensemble des industries du Canada révèlent une hausse de 0.5% de \$367.79 à \$369.56. On a observé des gains dans toutes les divisions de l'activité économique à l'exception du forestage. Toutes les régions ont participé à cette hausse.

Données provisoires — Octobre 1981

Emploi

Après désaisonnalisation, les données pour octobre 1981 ont diminué de 0.3% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont progressé à l'exception des mines (y compris le broyage), des transports, communications et autres services publics et des services qui ont augmenté. Le Québec, l'Ontario et la Colombie-Britannique ont régressé alors que les autres régions ont progressé.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont accrus de 1.2% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont progressé à l'exception des mines (y compris le broyage) et de la construction qui ont diminué. Exception faite de la région des Prairies, toutes les régions ont participé à cette hausse.

Les gains hebdomadaires moyens, non désaisonnalisés, ont affiché une hausse de 1.0% pour atteindre \$369.56 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens ont augmenté de 23 cents dans les mines (y compris le broyage) (\$12.86), de 12 cents dans les manufactures (\$9.54) et de 10 cents dans la construction (\$14.41). Le nombre moyen d'heures hebdomadaires a augmenté dans les manufactures mais a diminué dans les mines (y compris le broyage) et dans la construction.

Les deux tableaux suivants résument les changements enregistrés dans toutes les divisions de l'activité économique pour les trois premiers trimestres de 1981 comparativement aux trois premiers trimestres de 1980.

- (1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly earnings relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly earnings for any month is therefore adjusted in the above table by the Consumer Price Index for the following month as more representative of the period in which earnings are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. This table relates to average weekly earnings of all employees. - Nota: 1. Les rémunérations hebdomadaires courantes on trait aux dernières périodes de paie du mois, tandis que l'indice du prix à la consommation se rapporte au début du mois. La moyenne des rémunérations hebdomadaires courantes pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les rémunérations sont dépensées. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction de l'indice et de ses éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au Catalogue. 3. Ce tableau a trait à la rémunération hebdomadaire moyenne de tous les salariés.

**SOURCES FOR HISTORICAL DATA ON EMPLOYMENT,
EARNINGS AND HOURS(1)
(based on the 1960 Standard Industrial Classification)**

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

A. 1957-1960

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

B. 1961-1970

Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. Employment, Earnings and Hours, *Catalogue 72-002, October 1971*.

Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

Average Weekly Earnings, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:

**SOURCES DES DONNÉES CHRONOLOGIQUES SUR L'EMPLOI,
(LES GAINS ET LA DURÉE DU TRAVAIL(1)
(fondées sur la Classification type des industries de 1960)**

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

A. 1957-1960

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967*; Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

B. 1961-1970

Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir Employment, Earnings and Hours, *n° 72-002 au catalogue, octobre 1971*.

Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

Gains hebdomadaires moyens, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.

All other available monthly and annual data for 1961-1964 are published in:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

C. 1971-1974

Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.

Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.

Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.

D. 1977

January to June 1977 data were revised for Saskatchewan, Prairie Region, British Columbia, and Canada; the industries affected were Construction, Transportation, Communication and Other Utilities, and Industrial Composite. The revised data were published in the September 1977 issue of Catalogue no. 72-002.

E. 1978

January to June 1978 employment, earnings and hours data were revised for all industries and geographical areas. Revised data for January to April 1978 inclusively are contained

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n^o 72-002 au catalogue, juin 1972.

Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n^o 72-002 au catalogue, décembre 1971.

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n^o 72-504 au catalogue.

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n^{os} 72-201 et 72-202 au catalogue, 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1968-1970.

C. 1971-1974

Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada, Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n^o 72-002 au catalogue, juillet 1974.

Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, communications et autres services publics et l'ensemble des industries. Voir le n^o 72-002 au catalogue, septembre 1974.

Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires— moyennes et rémunération horaire moyenne des ouvriers (heures— déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n^o 72-002 au catalogue, septembre 1974.

D. 1977

On a révisé les données de janvier à juin 1977 pour la Saskatchewan, la région des Prairies, la Colombie-Britannique et le Canada; les divisions de l'activité économique impliquées sont: la construction, les transports, communications et autres services publics et l'ensemble des industries. Ces données furent publiées dans l'exemplaire de septembre 1977 du numéro 72-002 au catalogue.

E. 1978

Les données sur l'emploi, les gains et la durée du travail pour les mois de janvier à juin 1978 ont été révisées pour toutes les branches d'activité et toutes les régions géographiques. Les données révisées

in "Employment, Earnings and Hours, January — April 1978" (Catalogue No. 72-517) and data for May and June 1978 are included in the July 1978 issue of Catalogue 72-002.

F.1980

January 1980 data in Construction and Industrial Composite were revised for New Brunswick, Atlantic Region, Quebec and Canada. The revisions were published in the April 1980 issue of Catalogue 72-002.

May to September 1980 data in Transportation, communication and other utilities, Transportation, Water transport and services and Industrial Composite were revised for Ontario and Canada. The revisions were published in the December 1980 issue of Catalogue 72-002.

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

pour janvier à avril 1978 inclusivement figurent dans *Emploi, gains et durée du travail, janvier-avril 1978* (numéro 72-517 au catalogue) et celles pour mai et juin 1978 paraissent dans le numéro de juillet 1978 du bulletin 72-002.

F.1980

Les données du mois de janvier 1980 pour le secteur de la construction ainsi que pour l'ensemble des industries, ont été rectifiées pour les provinces du Nouveau Brunswick et du Québec, de la région de l'Atlantique et du Canada. Ces données apparaissent dans l'exemplaire du mois d'avril 1980 du numéro 72-002 au catalogue.

Les données pour les mois de mai à septembre 1980 pour le Transport communication et autres services publics, transports, transports par eau et services et l'ensemble des industries ont été rectifiées pour la province de l'Ontario et le Canada. Ces données apparaissent dans l'exemplaire du mois de décembre 1980 du numéro 72-002 au catalogue.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

CONCEPTS AND METHODS

Objectives

The Monthly Employment, Payrolls and Manhours survey is designed to measure the month-to-month trends of employment, paid hours and earnings for the commercial sector of the economy with the exclusion of agriculture, fishing and trapping.

These measures are expressed in an index form for employment and as weekly averages for earnings and hours paid. The data are compiled and published at detailed industrial and geographic levels.

Source of Data

The statistics contained in this report are based on information obtained through a mail census of "larger firms".

The firm is defined as any business entity whether incorporated or not; it comprises sole proprietorships, partnerships, corporations and other forms of organization such as co-operatives. Most firms consist of only one "establishment" (see definition under Industrial Classification) but in some cases the firm is made up of a number of establishments which may or may not be engaged in the same kind of economic activity.

A firm is considered as "larger" when it employs 20 or more persons in any one month of the year. Although the intent of the survey is to cover all such firms, it also includes some firms with less than 20 employees and excludes some firms with more than 20 employees; the reason is that, in practice, it is not always possible to capture promptly enough employment fluctuations in individual firms.

Universe

The universe for the survey is derived from a central file of employers maintained by the Business Register and Profiling Division of Statistics Canada.

Coverage

All commercial industries are covered by the survey, with the exception of agriculture, fishing and trapping; by definition such non-commercial sectors as education and related services, health and welfare services, religious organizations, private households and public administration and defense are excluded. Because the survey is limited to "larger firms", the proportion of total employment covered by the survey varies among industries, provinces and urban areas. The following table shows annual employment as compiled in the survey as a percentage of the estimated total number of employees, the latter being estimated by adding together data from the Employment, Payrolls and Manhours survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of the total number of employees are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

CONCEPTS ET MÉTHODES

Objectifs

L'enquête mensuelle sur l'emploi, la rémunération et les heures-hommes a pour objet de mesurer d'un mois à l'autre les tendances de l'emploi, des heures rémunérées et des gains touchés dans les secteurs commerciaux de l'économie à l'exception de l'agriculture, de la pêche et du piégeage.

Ces mesures sont exprimées sous forme d'indices dans le cas de l'emploi et de moyennes hebdomadaires dans le cas des gains touchés et des heures rémunérées. Les données sont rassemblées et publiées à des niveaux de détails raffinés selon l'activité économique et le lieu géographique.

Source des données

Les statistiques présentées dans ce bulletin sont fondées sur des renseignements obtenus au moyen d'un recensement postal des "grandes entreprises".

Le terme "entreprise" désigne toute entité commerciale constituée ou non en corporation; il peut s'agir d'une entreprise à propriétaire unique, d'une société en nom collectif, d'une corporation ou d'une autre forme d'organisation comme une coopérative. La plupart des entreprises ne comptent qu'un seul "établissement" (voir la définition sous la rubrique "Classement par activité économique") mais, dans certains cas, l'entreprise peut regrouper plusieurs établissements qui exercent ou non le même genre d'activité économique.

Une entreprise est considérée comme une "grande entreprise" si elle emploie 20 personnes ou plus pendant un mois quelconque de l'année. Bien que l'objet de l'enquête soit d'appréhender toutes les grandes entreprises, elle vise cependant quelques entreprises employant moins de 20 salariés et n'englobe pas toutes les entreprises comptant plus de 20 salariés, car, en pratique, il est presque toujours impossible de saisir rapidement toutes les fluctuations de l'emploi dans chacune des entreprises.

Univers

L'univers de l'enquête est établi à l'aide d'un registre central des employeurs tenu à jour par la Division des profils et du registre des entreprises de Statistique Canada.

Champ de l'enquête

L'enquête vise tous les secteurs commerciaux de l'activité économique à l'exception de l'agriculture, de la pêche et du piégeage; en sont donc exclus les secteurs non commerciaux comme l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux, les ménages privés et l'administration publique et la défense. Étant donné que l'enquête ne vise que les "grandes entreprises", la proportion de l'emploi total qu'elle appréhende varie d'une branche d'activité, d'une province et d'une région urbaine à l'autre. Le tableau qui suit indique l'emploi annuel relevé par l'enquête, exprimé en pourcentage du nombre estimatif total de salariés, l'estimation de ce dernier chiffre étant calculée en additionnant les données de l'enquête sur l'emploi, la rémunération et les heures-hommes avec celles d'une enquête par sondage et d'enquêtes supplémentaires menées auprès des petites entreprises. Les estimations du nombre total de salariés sont publiées dans le bulletin intitulé "Estimations du nombre de salariés par province et par industrie" numéro 72-008 au catalogue.

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes health (except hospitals), recreational, business, personal and miscellaneous services only. - Comprend seulement les services récréatifs, commerciaux, personnels, d'hygiène (sauf les hôpitaux) et divers.
- (3) Non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services, public administration, defence, fishing and trapping. - Ne comprend pas les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage.
- (5) Non-commercial services, public administration, defence, fishing and trapping are included in total estimated employment, but are not part of the larger-firm employment survey. - Les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.

Industrial Classification

All firms are assigned to an industry on the basis of their principal activity. In instances where the firm is engaged in only one kind of industrial activity, the industrial classification is straight forward. Classification problems arise when a firm is active in more than one kind of classifiable industrial activity. This usually occurs when a firm operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined, for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added" or "gross mark up" or "gross profit" as well as data on employment and payrolls.

For purposes of detailed geographical statistics, the establishment is often sub-divided into reporting units which, although not capable of reporting all basic industrial statistics, can report employment and payroll data for particular locations.

Classement par activité économique

Toutes les entreprises appartiennent à une branche d'activité économique qui est déterminée en fonction de leur activité principale. Si l'entreprise n'exerce qu'un seul genre d'activité économique, le classement est simple. Les problèmes surgissent lorsqu'elle en exerce plus d'un, par exemple lorsqu'elle possède plus d'un établissement. À des fins statistiques, on définit l'établissement, qui consiste habituellement en une usine, une mine, un magasin ou une unité semblable, comme la plus petite unité constituant un ensemble d'exploitation distinct en mesure de déclarer tous les éléments de base de la statistique des activités économiques, qui permettent de calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut", ainsi que des données sur l'emploi et la rémunération.

Pour permettre d'obtenir des statistiques géographiques détaillées, l'établissement est souvent subdivisé en unités déclarantes qui, bien qu'elles ne puissent fournir toutes les statistiques de base, sont en mesure de déclarer des données sur l'emploi et la rémunération pour des endroits particuliers.

The industrial classification of the statistics contained in this report is based on the Standard Industrial Classification for 1960. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue No. 12-501. The "S.I.C. code" columns of Tables 2, 3 and 4 correspond to the codes of this manual. These tables also contain the following groupings which are not part of the "Standard Industrial Classification Manual".

- (a) Industrial composite (031-899) It is the sum of all the industries included in the survey (see Coverage).
- (b) Durable goods manufacturing (durable) comprises wood products (250-259), furniture and fixtures (260-269), primary metal industries (290-298), metal fabricating industries (300-309), machinery except electrical (310-318), transportation equipment (320-329), electrical products (330-339), and non-metallic mineral products (340-359).
- (c) Non-durable goods manufacturing (non-dur) consists of food and beverages (100-147), tobacco processing and products (150-153), rubber products (160-169), leather products (170-179), textile products (180-229), knitting mills (230-239), clothing (240-249), paper and allied industries (270-274), printing, publishing and allied industries (280-289), petroleum and coal products (360-369), chemicals and chemical products (370-379), and miscellaneous manufacturing industries (380-399).
- (d) Building construction (404,421). It is the sum of general contractors (404) and special trade contractors (421).
- (e) Engineering construction (406,409) It includes highway, bridge and street construction (406) and other construction (409).
- (f) The synthetic textile industry (201) is sub-divided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).
- (g) Head Offices, sales and auxiliary units This special group includes head offices, sales branches and research laboratories for the following major groups of manufacturing: food and beverages (100), rubber products (160), paper and allied industries (270), primary metal industries (290), electrical products (330), and chemicals and chemical products (370).

Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The 1966 Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas; the definitions used for other urban areas are based on a labour market concept. The urban areas usually consist of the urban centre as well as the surrounding territory. A list showing the territory included in each tabulated urban area is available from the Employment and Payrolls Section. The reporting units not located in a tabulated

Le classement des statistiques présentées ici s'inspire de la Classification type des industries de 1960. Vous trouverez une description des diverses activités économiques et divers groupes d'activité économique dans le "Manuel de la classification type des industries," no 12-501 au catalogue.

- a) Ensemble des industries (031-899) - L'ensemble des activités économiques visées par l'enquête. (Voir champ de l'enquête)
- b) Manufactures, biens durables (durable) - L'ensemble de l'industrie des produits du bois (250-259), de l'industrie des meubles et accessoires d'ameublement (260-269), de l'industrie des métaux (formes primaires) (290-298), de l'industrie des produits métalliques (300-309), de l'industrie de la machinerie (sauf le matériel électrique) (310-318), de l'industrie du matériel de transport (320-329), de l'industrie des appareils et du matériel électriques (330-339), et de l'industrie des produits minéraux non métalliques (340-359).
- c) Manufactures, biens non durables (non dur.) - L'ensemble de l'industrie des aliments et boissons (100-147), de l'industrie du traitement et des produits du tabac (150-153), de l'industrie des produits du caoutchouc (160-169), de l'industrie des produits du cuir (170-179), de l'industrie des produits du textile (180-229), de l'industrie de la bonneterie (230-239), de l'industrie du vêtement (240-249), de l'industrie du papier et des produits connexes (270-274), de l'imprimerie, de l'édition et des industries connexes (280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (360-369), de l'industrie chimique et des produits connexes (370-379), et des industries manufacturières diverses (380-399).
- d) Bâtiment (404, 421) - L'ensemble des entrepreneurs généraux (404) et des entrepreneurs spécialisés (421).
- e) Génie civil (406,409) - L'ensemble de la construction de routes, ponts et rues (406) et des autres constructions (409).
- f) L'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).
- g) Sièges sociaux, bureaux de vente et services auxiliaires. Ce groupe spécial comprend les sièges sociaux, les bureaux de ventes, les succursales et les laboratoires de recherche des entreprises faisant partie des groupes d'activité économique suivants: industries des aliments et boissons (100), industrie du caoutchouc (160), industrie du papier et des produits connexes (270), industrie des métaux (formes primaires) (290), industrie des appareils et du matériel électriques (330) et industrie chimique et des produits connexes (370).

Classement géographique

On attribue les unités déclarantes à une province, un comté (selon la définition utilisée aux fins du recensement de la population) et, s'il y a lieu, à une région urbaine. Les données se rapportant à Terre-Neuve, à l'Île-du-Prince-Édouard, à la Nouvelle-Écosse et au Nouveau-Brunswick sont regroupées dans certains tableaux pour présenter l'ensemble des statistiques de la région de l'Atlantique. De la même façon, les données relatives au Manitoba, à la Saskatchewan et à l'Alberta sont additionnées pour indiquer les totaux de la région des Prairies. La définition du terme "région métropolitaine" utilisée aux fins du recensement de la population de 1966 a été retenue pour les dix-neuf régions urbaines; les définitions utilisées pour les autres régions urbaines sont fondées sur un concept du marché du travail. Une région urbaine se compose habituellement d'un centre urbain et du territoire qui l'entoure. Vous pouvez vous procurer une liste indiquant le territoire compris dans

urban area or not allocated to a compiled county, are included in provincial, regional and national totals.

chaque région urbaine figurant dans les tableaux en vous adressant à la Section des statistiques de l'emploi et de la rémunération. Les chiffres des unités déclarantes situées ailleurs que dans une région urbaine indiquée dans les tableaux ou non attribuées à un comté dont le nom figure sur la liste font partie des totaux provinciaux, régionaux et nationaux.

Definitions

1. Reference Period

Conceptually, the data in this report refer to the last seven days in the specified month. In practice, few firms keep payroll records covering precisely this period. Therefore, firms are permitted to report for their last pay period or pay periods in each month. When the reported pay period is longer than one week, the data are reduced to a week using the number of days the firm usually operates during a week divided by the number of working days covered by the reported pay period.

If, owing to strikes, unpaid holidays or other similar factors, the data for the reported period are not representative of the reference period, adjustments are made to reflect the situation of the last seven days of the month.

2. Employee

All persons drawing pay for services rendered or for paid absence during the survey reference period and for whom an employer makes CPP or QPP and/or UIC contributions constitute employees.

The employee concept comprises full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment), and casual employees (those who are hired for discontinuous periods or on an irregular basis and who worked at least seven hours during the reference period). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses and professional practices, the self-employed, unpaid family workers, persons doing non-remunerative work, pensioners, home workers, members of elected or appointed bodies, military personnel and persons providing services to an establishment on a contract basis.

An employee paid for a part of the reference period and unemployed or on strike for the rest is counted as employed. Persons not receiving pay for the entire reference period are excluded.

The employees are classified into two broad occupational categories, namely: salaried employees and wage-earners:

(a) Wage-earners

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. All the above-mentioned employees are considered to be

Définitions

1. Période de référence

En théorie, les données sur l'emploi se rapportent aux sept derniers jours du mois de référence. En pratique, étant donné que peu d'entreprises tiennent des registres de paye pour cette période précise, on leur permet de faire porter leur déclaration sur la (les) dernière(s) période(s) de paye de chaque mois. Lorsque la période de paye sur laquelle porte la déclaration dépasse une semaine, on rajuste les données en effectuant le calcul suivant: on divise le nombre de jours d'activité hebdomadaire de l'entreprise par le nombre de jours ouvrables compris dans la période de paye sur laquelle porte la déclaration.

Si, en raison d'une grève, d'un congé non payé ou d'autres facteurs semblables, les données déclarées ne sont pas représentatives de la période de référence, on procède aux rajustements qui s'imposent afin de traduire la situation pendant les sept derniers jours du mois.

2. Salarié

Toute personne qui est rétribuée pour ses services ou ses absences pendant la semaine de référence et pour laquelle l'employeur verse des contributions au R.P.C. ou au R.R.Q. et à la caisse d'assurance-chômage, est un salarié.

La catégorie "salariés" comprend les salariés à temps plein, les salariés à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise) et les salariés occasionnels (ceux qui sont embauchés de façon temporaire ou irrégulière et qui ont travaillé au moins sept heures au cours de la période de référence). Elle comprend aussi les propriétaires, les administrateurs, les associés et les autres dirigeants d'entreprises constituées en société.

Le concept des salariés exclut les propriétaires et les partenaires d'entreprises non constituées en corporation et ceux qui possèdent un bureau pour l'exercice d'une profession, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les retraités, les travailleurs à domicile, les membres de corps élus ou nommés, le personnel militaire et les personnes fournissant des services à un établissement sur une base forfaitaire.

Sont visées les personnes qui ont été payées pendant une partie de la période de référence mais qui étaient en chômage ou en grève pendant le reste de la période. Les personnes n'ayant pas touché de paye pour la période de référence entière ne sont pas visées.

Les salariés sont classés en deux catégories professionnelles, soit les employés et les ouvriers:

a) Ouvriers

Cette catégorie comprend les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaîtres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Toutes ces personnes sont considérées comme des ou-

wage-earners regardless of whether their earnings are based on monthly, hourly or other rates of pay. Average weekly wages are computed for all wage-earners but average weekly hours and average hourly earnings are calculated only for wage-earners for whom hours data are available.

(b) **Salaried Employees**

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

vriers, que leurs gains soient fondés sur des taux de rémunération mensuels, horaires ou autres. Les salaires hebdomadaires moyens sont calculés pour tous les ouvriers, mais les heures hebdomadaires moyennes et les gains horaires moyens sont calculés uniquement pour ceux dont on connaît le nombre d'heures de travail.

b) **Employés**

Cette catégorie comprend les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

3. **Earnings**

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piece-work and regular commission earnings, regular paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey reference week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained these data combined under "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners were available.

3. **Gains**

Les gains des ouvriers et des employés représentent la rémunération brute de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les traitements, les salaires au taux ordinaire, les gains provenant du travail à la pièce et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de référence. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'oeuvre tels que les contributions de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents du travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur du couvert et du gîte, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "gains" désigne l'ensemble des salaires hebdomadaires des ouvriers et des traitements des employés. Les publications antérieures à mars 1971 présentaient les données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "gains hebdomadaires moyens" des salariés pris en compte ici. Ce système permet maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "salaires hebdomadaires moyens" des ouvriers rémunérés à l'heure.

4. **Paid Absence**

Paid absence comprises paid holidays, vacation, sick leave including industrial injury and personal leave such as bereavement leave, jury duty, etc.

4. **Absence payée**

Les absences payées comprennent les jours fériés payés, les vacances, les congés de maladie, ainsi que les congés d'accident du travail et les congés personnels tels que les congés de deuil et les congés pour fonctions de jury.

5. **Standard Work Week**

The standard work week is the number of hours or days of work normally scheduled for the majority of full-time employees.

5. **Semaine normale de travail**

La semaine normale de travail est le nombre d'heures ou de jours de travail normalement prévus pour la majorité des salariés à temps plein.

Methodology

The data appearing in this report were collected by means of questionnaires mailed monthly to firms covered by the survey. In order to improve the quality of data, the response rate

Méthodologie

Les données présentées dans cette publication ont été recueillies au moyen de questionnaires postaux envoyés chaque mois à toutes les entreprises faisant partie de l'enquête. Afin d'améliorer la qualité des

is increased through two reminders mailed to all non-respondents one month and two months after the initial mail-out. If the two reminders do not produce a response, the Regional Operations Division of Statistics Canada attempts to obtain the required data by telephone or in a personal interview. These steps result in a final response rate of over 80%. Firms for which no response is obtained are still accounted for in the employment, earnings and hours tables of this publication. The method for imputing for non-response is explained under 'Imputation' below.

1. Data Edit

All the completed questionnaires which reach Statistics Canada are carefully edited for completeness, consistency and accuracy both manually and using computer edit procedures. To perform the computer edit, the responses are assembled into imputation groups which are formed on the basis of industrial classification, geographic area and size of the reporting unit. The composition of these groups is such that they consist of reporting units similar with respect to the characteristics being measured and with respect to relationships between these characteristics. This edit compares the value of a characteristic (number of employees, hours worked, salary per employee, the ratio of the present number of employees to last month's number of employees, etc.) to the corresponding value of the characteristic for the same unit of the previous month and/or for the imputation group. The amount by which a characteristic is allowed to vary from the average imputation group value is calculated separately for each group and for each characteristic and depends on the homogeneity and stability of the group itself.

When a figure varies too much from the average value for the imputation group, or when only partial response is received, the record is signaled by the computer edit for inspection and subject to correction or acceptance as appropriate.

2. Imputation

Every month, there are reporting units for which no response is received. For those newly introduced into the survey, data are manually imputed based on other sources of information such as the employment intention of the firm and the characteristics of firms in the same industry and geographic area.

Imputation for reporting units, for which data for the previous month are available, is based on the monthly changes reported by responding units within the same imputation group. A ratio of monthly change for each characteristic is applied to the previous month's data of each non respondent.

Reliability of the Estimates

Because the Monthly Employment, Payrolls and Man-hours survey is a census, any inaccuracy in the results is due to non-sampling error. Some of the factors contributing to non-sampling error are the inability to obtain responses from all in-scope reporting units. The problems associated in identifying all in-scope reporting units in a timely fashion, incorrect responses supplied by respondents and errors in coding and processing data. Non-sampling errors are difficult to measure and no estimate of this type of error has been obtained for this survey. However, every attempt has been made to minimize

données, on accroît le taux de réponse en faisant parvenir deux lettres de rappel à toutes les entreprises non répondantes un mois et deux mois après l'envoi initial du questionnaire. Si elles ne répondent toujours pas après avoir reçu les deux avis, la Division des opérations régionales de Statistique Canada tente d'obtenir les données nécessaires par téléphone ou au moyen d'une interview sur place. Ces mesures permettent généralement de hausser le taux de réponse à plus de 80%. Les entreprises qui ne répondent pas à l'enquête sont quand même prises en compte dans les tableaux de la publication portant sur l'emploi, les gains et les heures de travail. La méthode d'imputation pour les entreprises non répondantes est expliquée ci-dessous sous la rubrique "Imputation".

1. Vérification des données

Tous les questionnaires remplis renvoyés à Statistique Canada sont soigneusement vérifiés à la main et par ordinateur pour assurer qu'ils sont complets, cohérents et exacts. Pour être vérifiées par ordinateur, les réponses sont réparties en groupes d'imputation constitués en fonction du classement par activité économique, du lieu géographique et de la taille de l'unité déclarante. La composition de ces groupes est telle qu'ils regroupent des unités déclarantes qui présentent les mêmes caractéristiques et dont les caractéristiques affichent les mêmes liens entre elles. Cette vérification permet de comparer la valeur d'une caractéristique (nombre de salariées, heures de travail, gains par salarié, rapport du nombre actuel de salariées à celui du mois précédent, etc.) par rapport à la valeur de la caractéristique correspondante du mois précédent pour la même unité déclarante et/ou pour le groupe d'imputation. L'écart qui peut séparer la valeur d'une caractéristique et la valeur moyenne de la même caractéristique pour le groupe d'imputation tout entier est calculé séparément pour chaque groupe et pour chaque caractéristique, et dépend de l'homogénéité et de la stabilité du groupe lui-même.

Lorsqu'un chiffre s'écarte trop de la valeur moyenne pour tout le groupe d'imputation, ou lorsqu'on ne reçoit qu'une réponse partielle, l'unité déclarante est signalée lors de la vérification par ordinateur pour inspection et est sujette à être corrigée ou acceptée selon le cas.

2. Imputation

Chaque mois il existe certaines unités déclarantes dont on ne reçoit aucune réponse. Pour ces unités qui sont nouvellement introduites dans l'enquête, les données sont imputées manuellement et sont basées sur d'autres sources d'information telles que l'intention d'emploi de la firme et les caractéristiques des entreprises qui font partie de la même branche d'activité et qui sont situées dans le même lieu géographique.

L'imputation des unités déclarantes dont les données du mois précédent sont disponibles, est basée sur les changements mensuels rapportés par les unités déclarantes faisant partie du même groupe d'imputation. Un rapport du changement mensuel pour chaque caractéristique est appliqué aux données du mois précédent pour chaque entreprise non répondante.

Fiabilité des estimations

L'enquête sur l'emploi, la rémunération et les heures-hommes étant une enquête exhaustive, toute inexactitude dans les résultats est attribuable à une erreur d'observation. Parmi les exemples de sources d'erreurs d'observation, citons l'impossibilité d'obtenir des renseignements de toutes les unités faisant partie de l'enquête, les problèmes associés avec l'identification de toutes les unités qui devraient faire partie de l'enquête et ce dans le plus bref délai, les renseignements inexacts fournis par les entreprises répondantes et les erreurs de codage et de traitement des données. Les erreurs d'observation sont difficilement quantifiables et l'on n'a pas établi d'estimation de ce genre d'erreur pour

non-sampling errors by the use of a carefully designed and carefully worded questionnaire, the relative simplicity of the data requested, follow-up of non-respondents, thorough editing of data and control of the processing operations.

Statistical Presentation

1. Data Revision

Each month, statistics for the three latest months are prepared by the Employment and Payrolls Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 55%) and only highly aggregated figures are released in the Statistics Canada *Daily* and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current month and third estimates for the month prior to that. For both of these estimates which are based on a higher rate of response (approximately 75% and 82% respectively), full details are shown in this publication.

After completion of the third estimate, revisions to the data are made occasionally to incorporate large changes. The section, "Sources for Historical Data on Employment, Earnings and Hours", lists the issues that contain the revisions received from respondents or to rectify mechanical errors. These corrections appear in the tables of this publication.

2. Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly - average of the total base year employment (or payroll).

The index numbers constitute a better measure of the monthly trends in statistical series than the actual values because they are not effected by certain changes. For example, a large firm erroneously missing from the survey can be introduced by adjusting both the current and base year data and, thus, will not distort the monthly changes indicated by the index numbers. However, the measure of the monthly trend calculated from the actual value will be biased because the additions which should be reflected in all months are only included from the time the correction is made.

The technique used assumed that the change was applicable to the base period. When this assumption is incorrect, a bias is introduced in the long term trends.

3. Averages

Average weekly earnings for all employees are obtained by dividing the total weekly payrolls by the total number of employees. Average weekly earnings for salaried employees are obtained by dividing the total weekly salaries by the total number of salaried employees. Average weekly earnings for all wage-earners are obtained by dividing the total weekly wages by the total number of wage-earners.

Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. The average weekly hours figure is obtained

cette enquête. Toutefois, tous les efforts ont été faits pour minimiser les erreurs d'observation grâce à la conception et à la formulation soignées des questionnaires, la simplicité relative des données demandées, la relance des entreprises non répondantes, la vérification approfondie des données et le contrôle rigoureux des opérations de traitement.

Présentation statistique

1. Révision des données

Chaque mois, la Section des statistiques de l'emploi et de la rémunération prépare des statistiques pour les trois derniers mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (habituellement environ 55%) et seuls des chiffres très généraux sont publiés dans le *Quotidien* de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxièmes estimations pour le mois qui précède le mois le plus récent, et des troisièmes pour le mois qui précède celui-là. La présente publication contient tous les détails, pour ces deux dernières estimations qui sont basées sur un plus grand nombre de réponses (environ 75% pour les deuxièmes estimations et 82% pour les troisièmes).

Une fois terminées les troisièmes estimations, on modifie à l'occasion les données à la lumière de révisions importantes. La partie intitulée "Sources des données chronologiques sur l'emploi, les gains et la durée du travail" énumère les publications contenant les révisions.

2. Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base.

Les nombres-indices constituent une mesure plus valable des tendances mensuelles observées dans les séries statistiques que les valeurs réelles, car ils ne sont pas touchés par certaines variations. Par exemple, on peut introduire dans l'enquête une grande entreprise qu'on a oublié de dénombrer lors du listage en rajustant à la fois les données de l'année courante et celles de l'année de base et, ainsi, éviter de fausser les variations mensuelles affichées par les nombres-indices. Toutefois, toute mesure de la tendance mensuelle calculée à partir de la valeur réelle comportera un biais, car les ajouts qui devraient être faits pour tous les mois ne sont effectués qu'à partir du moment où la correction est apportée.

Cette procédure, suppose que le changement, s'appliquait aussi à l'année de base, lorsque cette hypothèse s'avère fausse, un biais se crée dans les tendances à long-terme.

3. Moyennes

On obtient les rémunérations hebdomadaires moyennes en divisant les rémunérations hebdomadaires totales par le nombre total de salariés. On obtient les rémunérations hebdomadaires moyennes pour les employés à salaire en divisant le total des salaires hebdomadaires par le nombre total d'employés à salaire. On obtient les rémunérations hebdomadaires pour les ouvriers en divisant le total des rémunérations hebdomadaires des ouvriers par le nombre total des ouvriers.

On obtient les gains horaires moyens en divisant le salaire hebdomadaire total des ouvriers rémunérés à l'heure par le nombre total d'heures par semaine. On calcule les heures hebdomadaires

by dividing total weekly man-hours by the number of wage-earners who were paid for those hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earners total includes part-time wage-earners and casuals working more than seven hours during the survey reference week.

4. Seasonal Adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods. It should be noted that the seasonally-adjusted series contains irregular as well as long-term cyclical fluctuations.

The X-11 variant of the U.S. *Census Method II* is used to seasonally adjust the data. This seasonal adjustment system is a complex computer program which differentiates between the seasonal trend and the irregular movements in a series over a number of years and, on the basis of past movements, estimates appropriate seasonal factors for current data. On an annual basis the entire historical series of seasonally-adjusted data is revised in light of the most recent information on changes in seasonality.

This system is used to calculate the seasonally-adjusted employment index numbers, and the average weekly hours and average hourly earnings for selected statistical series. Additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series, January 1961 - December 1977" (Catalogue 72-206).

5. Confidentiality

The information presented in this publication has been reviewed to ensure that the confidentiality of individual responses is respected.

moyennes en divisant le nombre hebdomadaire total d'heures-hommes par le nombre d'ouvriers qui ont été payés pour ces heures. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. Il convient de remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le nombre total d'ouvriers comprend les ouvriers à temps partiel et occasionnels qui ont travaillé plus de sept heures pendant la semaine de référence.

4. Désaisonnalisation

Les fluctuations des séries chronologiques économiques sont causées par des mouvements saisonniers, cycliques et irréguliers. Une série désaisonnalisée est une série dont on a éliminé les effets des mouvements saisonniers. Les mouvements saisonniers sont ceux qui sont causés par des événements annuels réguliers comme les changements de température, les cycles agricoles, les jours fériés et les vacances. Il convient de noter que la série désaisonnalisée contient des fluctuations irrégulières ainsi que des fluctuations cycliques à long terme.

La variante X-11 de la *Method II* de désaisonnalisation du U.S. *Bureau of the Census* est utilisée pour désaisonnaliser. Ce système permet de déceler les mouvements saisonniers, tendanciels et irréguliers au cours d'une période de plusieurs années et, à la lumière des mouvements passés, d'estimer les coefficients saisonniers appropriés pour l'année en cours. Sur une base annuelle, toute la série chronologique des données désaisonnalisées est révisée à la lumière des renseignements les plus récents sur les changements de saisonnalité.

Ce système est utilisé pour calculer les nombres-indices désaisonnalisés de l'emploi, ainsi que les heures hebdomadaires moyennes et les gains horaires moyens pour certaines séries statistiques. Vous trouverez d'autres séries désaisonnalisées dans le bulletin *Emploi, rémunération et heures, séries désaisonnalisées, janvier 1961 décembre 1977*, numéro 72-206 au catalogue.

5. Confidentialité

Les données présentées ici ont été examinées afin d'assurer que la confidentialité des réponses des entreprises soit respectée.

Symbols

The following standard symbols are used in Statistics Canada publications:

- . . figures not available.
- . . . figures not appropriate or not applicable.
 - nil or zero.
 - - amount too small to be expressed.
- P preliminary figures.
- ^r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.

NOTE

1. In addition, in this publication (except as otherwise noted), blanks in those columns where wage-earners and salaried employees data are shown separately indicate that representative data for wage-earners for whom hours are recorded are not available.
2. This issue contains revisions for selected areas for the following industries: manufacturing, construction, transportation, communication and other utilities, service and the industrial composite. These revisions appear on pages 117 to 165 and supersede previously published series.

Signes conventionnels

Les signes conventionnels suivants sont employés uniformément dans les publications de Statistique Canada:

- . . nombres indisponibles.
- . . . n'ayant pas lieu de figurer.
 - néant ou zéro.
 - - nombres infimes.
- P nombres provisoires.
- ^r nombres rectifiés.
- x confidentiels en vertu des dispositions de la Loi sur la Statistique relatives au secret.

NOTES

1. On remarquera que, dans la présente publication (sauf indication contraire) les colonnes laissées en blanc dans le cas des employés et des ouvriers indiqués séparément, signifient que les données relatives aux ouvriers pour lesquels les heures sont enregistrées ne sont pas disponibles.
2. Ce numéro contient des révisions pour certaines régions et pour les industries suivantes: les manufactures, la construction, les transports, communications et autres services publics, les services et l'ensemble des industries. Les données apparaissent dans les pages 117 à 165 et remplacent celles qui ont été publiées précédemment.

COMMENTARY

First Estimates(1) — December 1981 (Seasonally Adjusted)

The first estimate of the Canada industrial composite(2) index of employment (1961 = 100) showed a decline of 0.1% from 154.8 to 154.7. Decreases were recorded in forestry, in manufacturing, in construction and in trade while the remaining industry divisions showed gains. Losses were registered in the Atlantic region, in Quebec and in British Columbia.

Average weekly earnings, at the national industrial level, advanced by 0.8% to \$371.73 in December from \$368.79 in November. Gains were recorded in all industry divisions except mining (including milling) and in finance, insurance and real estate which decreased. All regions, except British Columbia, contributed to the overall increase.

Preliminary Data — November 1981

Employment

Seasonally adjusted, preliminary data for November 1981 decreased by 0.4% at the national industrial composite level. Decreases were registered in all industry divisions with the exception of mining (including milling), construction and service which increased. With the exception of the Prairie region, all regions registered losses.

Earnings and Hours

Seasonally adjusted, average weekly earnings increased by 0.3% at the national industrial level. Gains were registered in all industry divisions except forestry. All regions contributed to the increase except the Atlantic region.

Unadjusted, average weekly earnings decreased by 0.2% from \$369.34 to \$368.49 at the Canada industrial composite level. Average hourly earnings increased by 14 cents in mining (including milling) to \$12.96, by 4 cents in manufacturing to \$9.59 and by 13 cents in construction to \$14.46. Average weekly hours increased in mining (including milling) but decreased in manufacturing and in construction.

- (1) See note on Statistical Presentation under Concepts and Methods at the back of this publication.
- (2) Industrial Composite is the sum for all industries with the exception of agriculture, fishing and trapping, education and related services, health and welfare services, religious organizations, private households and public administration and defence.

OBSERVATIONS

Premières estimations(1) — Décembre 1981 (chiffres désaisonnalisés)

Les premières estimations de l'indice de l'emploi (1961 = 100) démontrent une baisse de 0.1% de 154.8 à 154.7 au niveau de l'ensemble des industries(2) du Canada. Le forestage, les manufactures, la construction et le commerce ont diminué tandis que les autres divisions de l'activité économique ont augmenté. Les régions de l'Atlantique, le Québec et la Colombie-Britannique ont accusé un recul.

Les gains hebdomadaires moyens au niveau de l'ensemble des industries du Canada ont progressé de 0.8% de \$368.79 à \$371.73. Exception faite des mines (y compris le broyage) et des finances, assurances et immeuble qui ont diminué, toutes les divisions de l'activité économique ont participé à cette hausse. On a observé des gains dans toutes les régions à l'exception de la Colombie-Britannique.

Données provisoires — Novembre 1981

Emploi

Après désaisonnalisation, les données pour novembre 1981 ont diminué de 0.4% au niveau de l'ensemble des industries du Canada. Toutes les divisions de l'activité économique ont diminué à l'exception des mines (y compris le broyage), de la construction et des services qui ont augmenté. Exception faite de la région des Prairies, toutes les régions ont régressé.

Gains et heures de travail

Les gains hebdomadaires moyens, désaisonnalisés, se sont accrus de 0.3% au niveau de l'ensemble des industries du Canada. Exception faite du forestage toutes les divisions de l'activité économique ont progressé. Toutes les régions ont participé à cette hausse à l'exception de la région de l'Atlantique.

Les gains hebdomadaires moyens, non désaisonnalisés, ont affiché une baisse de 0.2% pour atteindre \$368.49 au niveau de l'ensemble des industries du Canada. Les gains horaires moyens ont augmenté de 14 cents dans les mines (y compris le broyage) (\$12.96), de 4 cents dans les manufactures (\$9.59) et de 13 cents dans la construction (\$14.46). Le nombre moyen d'heures hebdomadaires a augmenté dans les mines (y compris le broyage) mais a diminué dans les manufactures et dans la construction.

- (1) Voir la partie intitulée "Présentation statistique" sous la rubrique "Concepts et méthodes", à la fin de la présente publication.
- (2) L'ensemble des industries comprend toutes les branches d'activité sauf l'agriculture, la pêche et le piégeage, l'enseignement et services connexes, les services d'hygiène et de bien-être, les organisations religieuses, les ménages privés, et l'administration publique et la défense.

(1) First estimate based on a limited number of returns. - Premières estimations fondées sur un nombre limité de déclarations.

Note: 1. The current weekly wages relate to the last pay periods in the month, while the Consumer Price Index relates to the beginning of the month. The current average of weekly wages for any month is therefore adjusted in the above table by the Consumer Price Index for the following month, as more representative of the period in which wages are spent. 2. For Consumer Price Index statistics, construction methods and component details, see monthly report "Prices and Price Index" Catalogue 62-002. 3. The data in this table relates to average weekly wages of hourly-rated wage-earners only. Although this statistic is no longer tabulated as part of this survey, a special manual calculation has been made in order to retain this table because of its extensive usage. An approximation of this calculation can be obtained by multiplying average weekly hours by average hourly earnings, for a particular industry-area cell. - Nota: 1. Les salaires hebdomadaires courants ont trait aux dernières périodes de paie du mois, tandis que l'indice des prix à la consommation se rapporte au début du mois. La moyenne des salaires hebdomadaires courants pour un mois quelconque est donc rectifiée, dans le tableau ci-dessus, par l'indice des prix à la consommation du mois suivant, cet indice étant plus près de la période au cours de laquelle les salaires sont dépensés. 2. Voir le détail de la statistique de l'indice des prix à la consommation, des méthodes de construction et des éléments dans la publication mensuelle "Prix et indices des prix" no 62-002 au catalogue. 3. Les données de ce tableau ont trait aux salaires hebdomadaires moyens des ouvriers (heures déclarées) seulement. Bien que cette statistique ne figure plus dans les tableaux tirés de la présente enquête, on a quand même fait un calcul spécial à la main en vue de maintenir ce tableau dont l'usage est très répandu. On peut obtenir une approximation de ce calcul en multipliant les heures hebdomadaires moyennes par la rémunération horaire moyenne pour un secteur particulier d'industrie-région.

**SOURCES FOR HISTORICAL DATA ON EMPLOYMENT,
EARNINGS AND HOURS(1)
(based on the 1960 Standard Industrial Classification)**

Continuous series from 1957 to date are available as follows:

1. Employment indexes (1961 = 100).
2. Average weekly earnings (formerly titled average weekly wages and salaries).
3. Average weekly hours and average hourly earnings of hourly-rated wage-earners.
4. Average weekly wages of hourly-rated wage-earners (available only for the period 1957-1970).
5. Number of employees and number of hourly-rated wage-earners (available on request basis only for periods prior to 1971).

A. 1957-1960

Monthly data were not published but are available on request.

Annual averages are shown in:

Review of Employment and Average Weekly Wages and Salaries, *Catalogue 72-201, 1957-67*; Review of Man Hours and Hourly Earnings, *Catalogue 72-202, 1957-67*.

B. 1961-1970

Employment Indexes, 1961-1964, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Employment, Earnings and Hours, Catalogue 72-002, October 1971*.

Employment Indexes, 1965-1967, for Canada and Ontario, for highways, bridges and streets; engineering; construction; highway and bridge maintenance; transportation; and transportation, communication and other utilities. *Catalogue 72-002, February 1968*.

Average Weekly Earnings, 1961-1969 for:

Canada: Transportation; Highway and bridge maintenance.

Atlantic Region: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance.

Nova Scotia: Transportation, communication and other utilities; Transportation.

Quebec: Transportation, communication and other utilities; Transportation; Highway and bridge maintenance. *Catalogue 72-002, November 1971*.

Average Weekly Earnings, 1968-1970, for Canada, Ontario and Toronto, for scientific and professional equipment; miscellaneous manufacturing industries; non-durable goods; manufacturing; wholesale trade; trade; industrial composite. *Catalogue 72-002, February 1972*.

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages of Hourly-rated Wage-earners 1961-1967 for:

**SOURCES DES DONNÉES CHRONOLOGIQUES SUR L'EMPLOI,
(LES GAINS ET LA DURÉE DU TRAVAIL(1)
(fondées sur la Classification type des industries de 1960)**

Les séries continues suivantes de 1957 jusqu'à aujourd'hui sont disponibles:

1. Indices de l'emploi (1961 = 100).
2. Gains hebdomadaires moyens.
3. Heures hebdomadaires moyennes et rémunération horaire moyenne des ouvriers (heures déclarées).
4. Rémunération hebdomadaire moyenne des ouvriers (heures déclarées) (disponibles pour la période 1957-1970 seulement).
5. Effectifs et nombre d'ouvriers (heures déclarées) (disponibles sur demande seulement pour les périodes antérieures à 1971).

A. 1957-1960

Les données mensuelles n'ont pas été publiées mais sont disponibles sur demande.

Les moyennes annuelles figurent dans:

Review of Employment and Average Weekly Wages and Salaries, *n° 72-201 au catalogue, 1957-1967*; Review of Man Hours and Hourly Earnings, *n° 72-202 au catalogue, 1957-1967*.

B. 1961-1970

Indices de l'emploi, 1961-1964, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir *Employment, Earnings and Hours, n° 72-002 au catalogue, octobre 1971*.

Indices de l'emploi, 1965-1967, Canada et Ontario, pour les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts; les transports; et les transports, les communications et les autres services publics. Voir le *n° 72-002 au catalogue, février 1968*.

Gains hebdomadaires moyens, 1961-1969, pour:

Canada: Transports; entretien des routes et des ponts.

Région de l'Atlantique: Transports, communications et autres services publics; transports; entretien des routes et des ponts.

Nouvelle-Ecosse: Transports, communications et autres services publics; transports.

Québec: Transports, communications et autres services publics; transports; entretien des routes et des ponts. *n° 72-002 au catalogue, novembre 1971*.

Gains hebdomadaires moyens, 1968-1970, Canada, Ontario et Toronto pour les instruments scientifiques et professionnels; les manufactures diverses; les biens non durables; les manufactures; le commerce de gros; le commerce; et l'ensemble des industries. Voir le *n° 72-002 au catalogue, février 1972*.

Heures hebdomadaires moyennes, Rémunération horaire moyenne, Gains hebdomadaires moyens des ouvriers (heures déclarées), 1961-1967 for:

Canada: Highways, bridges and streets; Engineering; Construction.

Ontario: Highways, bridges and streets; Engineering; Construction; Highway and bridge maintenance. *Catalogue 72-002, June 1972.*

Average Weekly Hours, Average Hourly Earnings, Average Weekly Wages - 1961-1969 Canada Atlantic Region - Quebec - for highway and bridge maintenance - Catalogue 72-002, December 1971.

All other available monthly and annual data for 1961-1964 are published in:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, Catalogue 72-504.

All other available monthly and annual data published for 1965 are in *Catalogue 72-201 and 72-202, 1957-1967.*

All other available monthly and annual data for 1966 are published in *Catalogue 72-201 and 72-202, 1966-1968.*

All other available monthly and annual data for 1967 are published in *Catalogue 72-201 and 72-202, 1967-1969.*

All other available monthly and annual data for 1968-1970 are published in *Catalogue 72-201 and 72-202, 1968-1970.*

C. 1971-1974

Employment indexes and average weekly earnings for 1973 for Canada, Atlantic Region, Nova Scotia and Halifax for department stores, retail trade, trade and industrial composite, Catalogue 72-002 July 1974.

Employment indexes, unadjusted and seasonally-adjusted, percent female, total employees, average weekly earnings from January 1973 to June 1974, for Canada and Quebec, for highway and bridge maintenance, transportation, transportation, communication and other utilities and industrial composite. Catalogue 72-002 September 1974.

Employment for salaried employees, wage-earners (all), wage-earners (hours reported), average weekly earnings for salaried employees and wage-earners (all), average weekly hours and average hourly earnings for wage-earners (hours reported) from January 1973 to June 1974 for highway and bridge maintenance. Catalogue 72-002 September 1974.

D. 1977

January to June 1977 data were revised for Saskatchewan, Prairie Region, British Columbia, and Canada; the industries affected were Construction, Transportation, Communication and Other Utilities, and Industrial Composite. The revised data were published in the September 1977 issue of *Catalogue* no. 72-002.

E. 1978

January to June 1978 employment, earnings and hours data were revised for all industries and geographical areas. Revised data for January to April 1978 inclusively are contained

Canada: Les routes, les ponts et les rues; le génie; la construction.

Ontario: Les routes, les ponts et les rues; le génie; la construction; l'entretien des routes et des ponts. Voir le n^o 72-002 au catalogue, juin 1972.

Heures hebdomadaires moyennes, rémunération horaire moyenne, gains hebdomadaires moyens - 1961-1969 Canada - Région de l'Atlantique - Québec - pour l'entretien des routes et des ponts - n^o 72-002 au catalogue, décembre 1971.

Toutes les autres données mensuelles et annuelles disponibles pour 1961-1964 sont publiées dans:

Employment Indexes, Average Weekly Wages and Salaries, Average Weekly Hours and Average Hourly Earnings, Monthly and Annual Statistics, January 1961 - May 1965, n^o 72-504 au catalogue.

Toutes les autres données mensuelles et annuelles disponibles publiées pour 1965 figurent dans les n^{os} 72-201 et 72-202 au catalogue, 1957-1967.

Toutes les autres données mensuelles et annuelles disponibles sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1966-1968.

Toutes les autres données mensuelles et annuelles disponibles pour 1967 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1967-1969.

Toutes les autres données mensuelles et annuelles disponibles pour la période 1968-1970 sont publiées dans les n^{os} 72-201 et 72-202 au catalogue, 1968-1970.

C. 1971-1974

Indices de l'emploi et gains hebdomadaires moyens, 1973, Canada, Région de l'Atlantique, Nouvelle-Ecosse et Halifax pour les magasins à rayons, le commerce de détail, le commerce et l'ensemble des industries. Voir le n^o 72-002 au catalogue, juillet 1974.

Indices de l'emploi, non désaisonnalisés et désaisonnalisés, pourcentage de femmes, le nombre de salariés, rémunération hebdomadaire moyenne de janvier 1973 à juin 1974, pour Canada et Québec, pour l'entretien des routes et ponts, transports, transports, communication et autres services publics et l'ensemble des industries. Voir le n^o 72-002 au catalogue, septembre 1974.

Nombre d'employés, ensemble des ouvriers, ouvriers (heures déclarées), rémunération hebdomadaire moyenne des employés, ensemble des ouvriers, heures hebdomadaires— moyennes et rémunération horaire moyenne des ouvriers (heures— déclarées) de janvier 1973 à juin 1974 pour Canada et Québec, pour l'entretien des routes et ponts. Voir le n^o 72-002 au catalogue, septembre 1974.

D. 1977

On a révisé les données de janvier à juin 1977 pour la Saskatchewan, la région des Prairies, la Colombie-Britannique et le Canada; les divisions de l'activité économique impliquées sont: la construction, les transports, communications et autres services publics et l'ensemble des industries. Ces données furent publiées dans l'exemplaire de septembre 1977 du numéro 72-002 au catalogue.

E. 1978

Les données sur l'emploi, les gains et la durée du travail pour les mois de janvier à juin 1978 ont été révisées pour toutes les branches d'activité et toutes les régions géographiques. Les données révisées

in "Employment, Earnings and Hours, January — April 1978" (Catalogue No. 72-517) and data for May and June 1978 are included in the July 1978 issue of Catalogue 72-002.

F.1980

January 1980 data in Construction and Industrial Composite were revised for New Brunswick, Atlantic Region, Quebec and Canada. The revisions were published in the April 1980 issue of Catalogue 72-002.

May to September 1980 data in Transportation, communication and other utilities, Transportation, Water transport and services and Industrial Composite were revised for Ontario and Canada. The revisions were published in the December 1980 issue of Catalogue 72-002.

(1) The issues of the publications referred to in this list contain the latest available data for any given series. Data for these series shown in other issues of these publications may have since been revised.

pour janvier à avril 1978 inclusivement figurent dans *Emploi, gains et durée du travail, janvier-avril 1978* (numéro 72-517 au catalogue) et celles pour mai et juin 1978 paraissent dans le numéro de juillet 1978 du bulletin 72-002.

F.1980

Les données du mois de janvier 1980 pour le secteur de la construction ainsi que pour l'ensemble des industries, ont été rectifiées pour les provinces du Nouveau Brunswick et du Québec, de la région de l'Atlantique et du Canada. Ces données apparaissent dans l'exemplaire du mois d'avril 1980 du numéro 72-002 au catalogue.

Les données pour les mois de mai à septembre 1980 pour le Transport communication et autres services publics, transports, transports par eau et services et l'ensemble des industries ont été rectifiées pour la province de l'Ontario et le Canada. Ces données apparaissent dans l'exemplaire du mois de décembre 1980 du numéro 72-002 au catalogue.

(1) Les numéros des publications susmentionnées renferment les dernières données disponibles pour toute série donnée. Les données relatives à ces séries figurant dans d'autres numéros de ces publications peuvent avoir été rectifiées depuis.

CONCEPTS AND METHODS

Objectives

The Monthly Employment, Payrolls and Manhours survey is designed to measure the month-to-month trends of employment, paid hours and earnings for the commercial sector of the economy with the exclusion of agriculture, fishing and trapping.

These measures are expressed in an index form for employment and as weekly averages for earnings and hours paid. The data are compiled and published at detailed industrial and geographic levels.

Source of Data

The statistics contained in this report are based on information obtained through a mail census of "larger firms".

The firm is defined as any business entity whether incorporated or not; it comprises sole proprietorships, partnerships, corporations and other forms of organization such as co-operatives. Most firms consist of only one "establishment" (see definition under Industrial Classification) but in some cases the firm is made up of a number of establishments which may or may not be engaged in the same kind of economic activity.

A firm is considered as "larger" when it employs 20 or more persons in any one month of the year. Although the intent of the survey is to cover all such firms, it also includes some firms with less than 20 employees and excludes some firms with more than 20 employees; the reason is that, in practice, it is not always possible to capture promptly enough employment fluctuations in individual firms.

Universe

The universe for the survey is derived from a central file of employers maintained by the Business Register and Profiling Division of Statistics Canada.

Coverage

All commercial industries are covered by the survey, with the exception of agriculture, fishing and trapping; by definition such non-commercial sectors as education and related services, health and welfare services, religious organizations, private households and public administration and defense are excluded. Because the survey is limited to "larger firms", the proportion of total employment covered by the survey varies among industries, provinces and urban areas. The following table shows annual employment as compiled in the survey as a percentage of the estimated total number of employees, the latter being estimated by adding together data from the Employment, Payrolls and Manhours survey and data from a sample survey of smaller firms plus supplementary surveys. Estimates of the total number of employees are published in "Estimates of Employees by Province and Industry" (Catalogue 72-008).

CONCEPTS ET MÉTHODES

Objectifs

L'enquête mensuelle sur l'emploi, la rémunération et les heures-hommes a pour objet de mesurer d'un mois à l'autre les tendances de l'emploi, des heures rémunérées et des gains touchés dans les secteurs commerciaux de l'économie à l'exception de l'agriculture, de la pêche et du piégeage.

Ces mesures sont exprimées sous forme d'indices dans le cas de l'emploi et de moyennes hebdomadaires dans le cas des gains touchés et des heures rémunérées. Les données sont rassemblées et publiées à des niveaux de détails raffinés selon l'activité économique et le lieu géographique.

Source des données

Les statistiques présentées dans ce bulletin sont fondées sur des renseignements obtenus au moyen d'un recensement postal des "grandes entreprises".

Le terme "entreprise" désigne toute entité commerciale constituée ou non en corporation; il peut s'agir d'une entreprise à propriétaire unique, d'une société en nom collectif, d'une corporation ou d'une autre forme d'organisation comme une coopérative. La plupart des entreprises ne comptent qu'un seul "établissement" (voir la définition sous la rubrique "Classement par activité économique") mais, dans certains cas, l'entreprise peut regrouper plusieurs établissements qui exercent ou non le même genre d'activité économique.

Une entreprise est considérée comme une "grande entreprise" si elle emploie 20 personnes ou plus pendant un mois quelconque de l'année. Bien que l'objet de l'enquête soit d'appréhender toutes les grandes entreprises, elle vise cependant quelques entreprises employant moins de 20 salariées et n'englobe pas toutes les entreprises comptant plus de 20 salariés, car, en pratique, il est presque toujours impossible de saisir rapidement toutes les fluctuations de l'emploi dans chacune des entreprises.

Univers

L'univers de l'enquête est établi à l'aide d'un registre central des employeurs tenu à jour par la Division des profils et du registre des entreprises de Statistique Canada.

Champ de l'enquête

L'enquête vise tous les secteurs commerciaux de l'activité économique à l'exception de l'agriculture, de la pêche et du piégeage; en sont donc exclus les secteurs non commerciaux comme l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux, les ménages privés et l'administration publique et la défense. Étant donné que l'enquête ne vise que les "grandes entreprises", la proportion de l'emploi total qu'elle appréhende varie d'une branche d'activité, d'une province et d'une région urbaine à l'autre. Le tableau qui suit indique l'emploi annuel relevé par l'enquête, exprimé en pourcentage du nombre estimatif total de salariés, l'estimation de ce dernier chiffre étant calculée en additionnant les données de l'enquête sur l'emploi, la rémunération et les heures-hommes avec celles d'une enquête par sondage et d'enquêtes supplémentaires menées auprès des petites entreprises. Les estimations du nombre total de salariés sont publiées dans le bulletin intitulé "Estimations du nombre de salariés par province et par industrie" numéro 72-008 au catalogue.

- (1) Total estimated employment is derived by adding together data from the employment and payrolls survey of larger-firms and data from a sample survey of smaller firms plus supplementary surveys. - L'estimation de l'emploi total est obtenue en additionnant les données de l'enquête sur l'emploi et la paie dans les grandes entreprises à celles d'une enquête par échantillonnage dans les petites entreprises et d'autres enquêtes supplémentaires.
- (2) Includes health (except hospitals), recreational, business, personal and miscellaneous services only. - Comprend seulement les services récréatifs, commerciaux, personnels, d'hygiène (sauf les hôpitaux) et divers.
- (3) Non-commercial services including education and related services, health and welfare services, religious organizations and private households, are included in total estimated employment but are not part of the larger-firm employment survey. - Les services non commerciaux, y compris l'enseignement et les services connexes, la santé et les oeuvres sociales, les organismes religieux et les ménages privés, sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.
- (4) Excludes non-commercial services, public administration, defence, fishing and trapping. - Ne comprend pas les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage.
- (5) Non-commercial services, public administration, defence, fishing and trapping are included in total estimated employment, but are not part of the larger-firm employment survey. - Les services non commerciaux, l'administration publique, la défense, la pêche et le piégeage sont inclus dans l'estimation de l'emploi total mais ne sont pas couverts par l'enquête sur l'emploi dans les grandes entreprises.

Industrial Classification

All firms are assigned to an industry on the basis of their principal activity. In instances where the firm is engaged in only one kind of industrial activity, the industrial classification is straight forward. Classification problems arise when a firm is active in more than one kind of classifiable industrial activity. This usually occurs when a firm operates more than one establishment. The establishment, typically a factory, mine, store or a similar unit is defined, for statistical purposes, as the smallest separate operating entity capable of reporting all elements of basic industrial data which permit the calculation of "census value added" or "gross mark up" or "gross profit" as well as data on employment and payrolls.

For purposes of detailed geographical statistics, the establishment is often sub-divided into reporting units which, although not capable of reporting all basic industrial statistics, can report employment and payroll data for particular locations.

Classement par activité économique

Toutes les entreprises appartiennent à une branche d'activité économique qui est déterminée en fonction de leur activité principale. Si l'entreprise n'exerce qu'un seul genre d'activité économique, le classement est simple. Les problèmes surgissent lorsqu'elle en exerce plus d'un, par exemple lorsqu'elle possède plus d'un établissement. À des fins statistiques, on définit l'établissement, qui consiste habituellement en une usine, une mine, un magasin ou une unité semblable, comme la plus petite unité constituant un ensemble d'exploitation distinct en mesure de déclarer tous les éléments de base de la statistique des activités économiques, qui permettent de calculer la "valeur ajoutée" ou la "majoration brute" ou le "bénéfice brut", ainsi que des données sur l'emploi et la rémunération.

Pour permettre d'obtenir des statistiques géographiques détaillées, l'établissement est souvent subdivisé en unités déclarantes qui, bien qu'elles ne puissent fournir toutes les statistiques de base, sont en mesure de déclarer des données sur l'emploi et la rémunération pour des endroits particuliers.

The industrial classification of the statistics contained in this report is based on the Standard Industrial Classification for 1960. A description of the various industries and groups of industries is contained in the "Standard Industrial Classification Manual", Catalogue No. 12-501. The "S.I.C. code" columns of Tables 2, 3 and 4 correspond to the codes of this manual. These tables also contain the following groupings which are not part of the "Standard Industrial Classification Manual".

- (a) Industrial composite (031-899) It is the sum of all the industries included in the survey (see Coverage).
- (b) Durable goods manufacturing (durable) comprises wood products (250-259), furniture and fixtures (260-269), primary metal industries (290-298), metal fabricating industries (300-309), machinery except electrical (310-318), transportation equipment (320-329), electrical products (330-339), and non-metallic mineral products (340-359).
- (c) Non-durable goods manufacturing (non-dur) consists of food and beverages (100-147), tobacco processing and products (150-153), rubber products (160-169), leather products (170-179), textile products (180-229), knitting mills (230-239), clothing (240-249), paper and allied industries (270-274), printing, publishing and allied industries (280-289), petroleum and coal products (360-369), chemicals and chemical products (370-379), and miscellaneous manufacturing industries (380-399).
- (d) Building construction (404,421). It is the sum of general contractors (404) and special trade contractors (421).
- (e) Engineering construction (406,409) It includes highway, bridge and street construction (406) and other construction (409).
- (f) The synthetic textile industry (201) is sub-divided into spun yarn and fabrics (2011) and filament yarn and staple fibres (2012).
- (g) Head Offices, sales and auxiliary units This special group includes head offices, sales branches and research laboratories for the following major groups of manufacturing: food and beverages (100), rubber products (160), paper and allied industries (270), primary metal industries (290), electrical products (330), and chemicals and chemical products (370).

Geographic Classification

Reporting units are assigned to a province, a county (as defined by the Census of Population) and, where applicable, to an urban area. Data for Newfoundland, Prince Edward Island, Nova Scotia and New Brunswick are aggregated in some tables to give statistics for the Atlantic Region. Similarly, data for Manitoba, Saskatchewan and Alberta are added together to provide totals for the Prairie Region. The 1966 Census of Population's "Metropolitan Area" definitions were used for the nineteen applicable urban areas; the definitions used for other urban areas are based on a labour market concept. The urban areas usually consist of the urban centre as well as the surrounding territory. A list showing the territory included in each tabulated urban area is available from the Employment and Payrolls Section. The reporting units not located in a tabulated

Le classement des statistiques présentées ici s'inspire de la Classification type des industries de 1960. Vous trouverez une description des diverses activités économiques et divers groupes d'activité économique dans le "Manuel de la classification type des industries," no 12-501 au catalogue.

- a) Ensemble des industries (031-899) - L'ensemble des activités économiques visées par l'enquête. (Voir champ de l'enquête)
- b) Manufactures, biens durables (durable) - L'ensemble de l'industrie des produits du bois (250-259), de l'industrie des meubles et accessoires d'ameublement (260-269), de l'industrie des métaux (formes primaires) (290-298), de l'industrie des produits métalliques (300-309), de l'industrie de la machinerie (sauf le matériel électrique) (310-318), de l'industrie du matériel de transport (320-329), de l'industrie des appareils et du matériel électriques (330-339), et de l'industrie des produits minéraux non métalliques (340-359).
- c) Manufactures, biens non durables (non dur.) - L'ensemble de l'industrie des aliments et boissons (100-147), de l'industrie du traitement et des produits du tabac (150-153), de l'industrie des produits du caoutchouc (160-169), de l'industrie des produits du cuir (170-179), de l'industrie des produits du textile (180-229), de l'industrie de la bonneterie (230-239), de l'industrie du vêtement (240-249), de l'industrie du papier et des produits connexes (270-274), de l'imprimerie, de l'édition et des industries connexes (280-289), de l'industrie du pétrole, du charbon et de leurs dérivés (360-369), de l'industrie chimique et des produits connexes (370-379), et des industries manufacturières diverses (380-399).
- d) Bâtiment (404, 421) - L'ensemble des entrepreneurs généraux (404) et des entrepreneurs spécialisés (421).
- e) Génie civil (406,409) - L'ensemble de la construction de routes, ponts et rues (406) et des autres constructions (409).
- f) L'industrie des textiles synthétiques (201) est subdivisée en filés et tissus (2011) et en filés de filaments et fibres discontinues (2012).
- g) Sièges sociaux, bureaux de vente et services auxiliaires. Ce groupe spécial comprend les sièges sociaux, les bureaux de ventes, les succursales et les laboratoires de recherche des entreprises faisant partie des groupes d'activité économique suivants: industries des aliments et boissons (100), industrie du caoutchouc (160), industrie du papier et des produits connexes (270), industrie des métaux (formes primaires) (290), industrie des appareils et du matériel électriques (330) et industrie chimique et des produits connexes (370).

Classement géographique

On attribue les unités déclarantes à une province, un comté (selon la définition utilisée aux fins du recensement de la population) et, s'il y a lieu, à une région urbaine. Les données se rapportant à Terre-Neuve, à l'Île-du-Prince-Édouard, à la Nouvelle-Écosse et au Nouveau-Brunswick sont regroupées dans certains tableaux pour présenter l'ensemble des statistiques de la région de l'Atlantique. De la même façon, les données relatives au Manitoba, à la Saskatchewan et à l'Alberta sont additionnées pour indiquer les totaux de la région des Prairies. La définition du terme "région métropolitaine" utilisée aux fins du recensement de la population de 1966 a été retenue pour les dix-neuf régions urbaines; les définitions utilisées pour les autres régions urbaines sont fondées sur un concept du marché du travail. Une région urbaine se compose habituellement d'un centre urbain et du territoire qui l'entoure. Vous pouvez vous procurer une liste indiquant le territoire compris dans

urban area or not allocated to a compiled county, are included in provincial, regional and national totals.

Definitions

1. Reference Period

Conceptually, the data in this report refer to the last seven days in the specified month. In practice, few firms keep payroll records covering precisely this period. Therefore, firms are permitted to report for their last pay period or pay periods in each month. When the reported pay period is longer than one week, the data are reduced to a week using the number of days the firm usually operates during a week divided by the number of working days covered by the reported pay period.

If, owing to strikes, unpaid holidays or other similar factors, the data for the reported period are not representative of the reference period, adjustments are made to reflect the situation of the last seven days of the month.

2. Employee

All persons drawing pay for services rendered or for paid absence during the survey reference period and for whom an employer makes CPP or QPP and/or UIC contributions constitute employees.

The employee concept comprises full-time employees, part-time employees (those who regularly work fewer hours than the standard work week of the establishment), and casual employees (those who are hired for discontinuous periods or on an irregular basis and who worked at least seven hours during the reference period). It also comprises working owners, directors, partners and other officers of incorporated businesses.

The employee concept excludes owners or partners of unincorporated businesses and professional practices, the self-employed, unpaid family workers, persons doing non-remunerative work, pensioners, home workers, members of elected or appointed bodies, military personnel and persons providing services to an establishment on a contract basis.

An employee paid for a part of the reference period and unemployed or on strike for the rest is counted as employed. Persons not receiving pay for the entire reference period are excluded.

The employees are classified into two broad occupational categories, namely: salaried employees and wage-earners:

(a) Wage-earners

This group includes employees engaged in actual production and related operations, including maintenance, warehouse and delivery staffs, security staff, routemen, driver-salesmen, sales clerks in retail stores, waitresses, and working foremen performing functions similar to those of the employees whom they supervise, etc. All the above-mentioned employees are considered to be

chaque région urbaine figurant dans les tableaux en vous adressant à la Section des statistiques de l'emploi et de la rémunération. Les chiffres des unités déclarantes situées ailleurs que dans une région urbaine indiquée dans les tableaux ou non attribuées à un comté dont le nom figure sur la liste font partie des totaux provinciaux, régionaux et nationaux.

Définitions

1. Période de référence

En théorie, les données sur l'emploi se rapportent aux sept derniers jours du mois de référence. En pratique, étant donné que peu d'entreprises tiennent des registres de paye pour cette période précise, on leur permet de faire porter leur déclaration sur la (les) dernière(s) période(s) de paye de chaque mois. Lorsque la période de paye sur laquelle porte la déclaration dépasse une semaine, on rajuste les données en effectuant le calcul suivant: on divise le nombre de jours d'activité hebdomadaire de l'entreprise par le nombre de jours ouvrables compris dans la période de paye sur laquelle porte la déclaration.

Si, en raison d'une grève, d'un congé non payé ou d'autres facteurs semblables, les données déclarées ne sont pas représentatives de la période de référence, on procède aux rajustements qui s'imposent afin de traduire la situation pendant les sept derniers jours du mois.

2. Salarié

Toute personne qui est rétribuée pour ses services ou ses absences pendant la semaine de référence et pour laquelle l'employeur verse des contributions au R.P.C. ou au R.R.Q. et à la caisse d'assurance-chômage, est un salarié.

La catégorie "salariés" comprend les salariés à temps plein, les salariés à temps partiel (ceux qui travaillent régulièrement un nombre d'heures inférieur à la semaine normale de travail de l'entreprise) et les salariés occasionnels (ceux qui sont embauchés de façon temporaire ou irrégulière et qui ont travaillé au moins sept heures au cours de la période de référence). Elle comprend aussi les propriétaires, les administrateurs, les associés et les autres dirigeants d'entreprises constituées en société.

Le concept des salariés exclut les propriétaires et les partenaires d'entreprises non constituées en corporation et ceux qui possèdent un bureau pour l'exercice d'une profession, les travailleurs autonomes, les travailleurs familiaux non rémunérés, les bénévoles, les retraités, les travailleurs à domicile, les membres de corps élus ou nommés, le personnel militaire et les personnes fournissant des services à un établissement sur une base forfaitaire.

Sont visées les personnes qui ont été payées pendant une partie de la période de référence mais qui étaient en chômage ou en grève pendant le reste de la période. Les personnes n'ayant pas touché de paye pour la période de référence entière ne sont pas visées.

Les salariés sont classés en deux catégories professionnelles, soit les employés et les ouvriers:

a) Ouvriers

Cette catégorie comprend les personnes travaillant effectivement à la production et à des opérations assimilées, en particulier le personnel d'entretien, d'entrepôt et de livraison, le personnel de sécurité, les chauffeurs-livreurs, les vendeurs itinérants, les commis des magasins de détail, les serveuses et les contremaitres remplissant des fonctions analogues à celles des ouvriers dont ils ont la charge, etc. Toutes ces personnes sont considérées comme des ou-

wage-earners regardless of whether their earnings are based on monthly, hourly or other rates of pay. Average weekly wages are computed for all wage-earners but average weekly hours and average hourly earnings are calculated only for wage-earners for whom hours data are available.

(b) **Salaried Employees**

This category comprises executive, administrative, supervisory, technical and professional personnel, commission agents, and travelling salesmen directly responsible to the administration, as well as general office, clerical and related workers in the office and plant. In addition, working directors of incorporated businesses are included in this category.

3. **Earnings**

Earnings of wage-earners and salaried employees represent gross pay for the week, before deductions for taxes, unemployment insurance contributions, etc. Gross pay includes salaries, straight time wages, piece-work and regular commission earnings, regular paid incentive, cost of living and other bonuses, overtime earnings and payments to persons absent with pay in the survey reference week. The payroll concept does not include supplementary labour costs such as employers' contributions to unemployment insurance, medical plans, Workmen's Compensation and other welfare plans, nor does it include the cost of equipment, the value of room and board, compensation in kind, travelling expenses, retirement gratuities, bonuses paid at irregular and infrequent intervals or directors' fees.

The term "earnings" is used to denote the total of weekly wages of the wage-earners and salaries of the salaried employees. The publications prior to March 1971 contained these data combined under "Average Weekly Wages and Salaries". These data are comparable with "Average Weekly Earnings" of total employees in the present publication. The system now provides separate earnings data for all wage-earners and salaried employees whereas formerly only "Average Weekly Wages" for hourly-rated wage-earners were available.

4. **Paid Absence**

Paid absence comprises paid holidays, vacation, sick leave including industrial injury and personal leave such as bereavement leave, jury duty, etc.

5. **Standard Work Week**

The standard work week is the number of hours or days of work normally scheduled for the majority of full-time employees.

Methodology

The data appearing in this report were collected by means of questionnaires mailed monthly to firms covered by the survey. In order to improve the quality of data, the response rate

vriers, que leurs gains soient fondés sur des taux de rémunération mensuels, horaires ou autres. Les salaires hebdomadaires moyens sont calculés pour tous les ouvriers, mais les heures hebdomadaires moyennes et les gains horaires moyens sont calculés uniquement pour ceux dont on connaît le nombre d'heures de travail.

b) **Employés**

Cette catégorie comprend les directeurs, les administrateurs, les surveillants, les cadres techniques et spécialisés, les agents à la commission, les voyageurs de commerce relevant directement de l'administration, ainsi que les employés de bureau, les commis et les travailleurs assimilés, au bureau et à l'usine. Les membres des conseils d'administration d'entreprises constituées en corporation qui travaillent dans l'entreprise sont également compris dans cette catégorie.

3. **Gains**

Les gains des ouvriers et des employés représentent la rémunération brute de la semaine, avant toutes déductions d'impôt, de cotisations d'assurance-chômage, etc. La rémunération brute comprend les traitements, les salaires au taux ordinaire, les gains provenant du travail à la pièce et les commissions régulières, les primes au rendement, les primes de vie chère et autres gratifications versées régulièrement, les gains pour travail supplémentaire et les paiements versés aux personnes en congé payé pendant la semaine de référence. Le concept de rémunération ne comprend pas les frais supplémentaires de main-d'œuvre tels que les contributions de l'employeur à la caisse d'assurance-chômage, aux régimes d'assurance-maladie, à la caisse d'indemnisation des accidents du travail et à d'autres régimes de prévoyance; il ne comprend pas non plus le coût du matériel, la valeur du couvert et du gîte, les paiements en nature, les frais de déplacement, les indemnités de retraite, les gratifications versées à intervalles irréguliers et peu fréquents ni les jetons de présence des administrateurs.

Le terme "gains" désigne l'ensemble des salaires hebdomadaires des ouvriers et des traitements des employés. Les publications antérieures à mars 1971 présentaient les données réunies sous le titre "Average Weekly Wages and Salaries". Ces données sont comparables aux "gains hebdomadaires moyens" des salariés pris en compte ici. Ce système permet maintenant d'avoir des données distinctes pour tous les ouvriers et les employés tandis qu'autrefois on ne pouvait connaître que les "salaires hebdomadaires moyens" des ouvriers rémunérés à l'heure.

4. **Absence payée**

Les absences payées comprennent les jours fériés payés, les vacances, les congés de maladie, ainsi que les congés d'accident du travail et les congés personnels tels que les congés de deuil et les congés pour fonctions de jury.

5. **Semaine normale de travail**

La semaine normale de travail est le nombre d'heures ou de jours de travail normalement prévus pour la majorité des salariés à temps plein.

Méthodologie

Les données présentées dans cette publication ont été recueillies au moyen de questionnaires postaux envoyés chaque mois à toutes les entreprises faisant partie de l'enquête. Afin d'améliorer la qualité des

is increased through two reminders mailed to all non-respondents one month and two months after the initial mail-out. If the two reminders do not produce a response, the Regional Operations Division of Statistics Canada attempts to obtain the required data by telephone or in a personal interview. These steps result in a final response rate of over 80%. Firms for which no response is obtained are still accounted for in the employment, earnings and hours tables of this publication. The method for imputing for non-response is explained under 'Imputation' below.

1. Data Edit

All the completed questionnaires which reach Statistics Canada are carefully edited for completeness, consistency and accuracy both manually and using computer edit procedures. To perform the computer edit, the responses are assembled into imputation groups which are formed on the basis of industrial classification, geographic area and size of the reporting unit. The composition of these groups is such that they consist of reporting units similar with respect to the characteristics being measured and with respect to relationships between these characteristics. This edit compares the value of a characteristic (number of employees, hours worked, salary per employee, the ratio of the present number of employees to last month's number of employees, etc.) to the corresponding value of the characteristic for the same unit of the previous month and/or for the imputation group. The amount by which a characteristic is allowed to vary from the average imputation group value is calculated separately for each group and for each characteristic and depends on the homogeneity and stability of the group itself.

When a figure varies too much from the average value for the imputation group, or when only partial response is received, the record is signaled by the computer edit for inspection and subject to correction or acceptance as appropriate.

2. Imputation

Every month, there are reporting units for which no response is received. For those newly introduced into the survey, data are manually imputed based on other sources of information such as the employment intention of the firm and the characteristics of firms in the same industry and geographic area.

Imputation for reporting units, for which data for the previous month are available, is based on the monthly changes reported by responding units within the same imputation group. A ratio of monthly change for each characteristic is applied to the previous month's data of each non respondent.

Reliability of the Estimates

Because the Monthly Employment, Payrolls and Man-hours survey is a census, any inaccuracy in the results is due to non-sampling error. Some of the factors contributing to non-sampling error are the inability to obtain responses from all in-scope reporting units. The problems associated in identifying all in-scope reporting units in a timely fashion, incorrect responses supplied by respondents and errors in coding and processing data. Non-sampling errors are difficult to measure and no estimate of this type of error has been obtained for this survey. However, every attempt has been made to minimize

données, on accroît le taux de réponse en faisant parvenir deux lettres de rappel à toutes les entreprises non répondantes un mois et deux mois après l'envoi initial du questionnaire. Si elles ne répondent toujours pas après avoir reçu les deux avis, la Division des opérations régionales de Statistique Canada tente d'obtenir les données nécessaires par téléphone ou au moyen d'une interview sur place. Ces mesures permettent généralement de hausser le taux de réponse à plus de 80%. Les entreprises qui ne répondent pas à l'enquête sont quand même prises en compte dans les tableaux de la publication portant sur l'emploi, les gains et les heures de travail. La méthode d'imputation pour les entreprises non répondantes est expliquée ci-dessous sous la rubrique "Imputation".

1. Vérification des données

Tous les questionnaires remplis renvoyés à Statistique Canada sont soigneusement vérifiés à la main et par ordinateur pour assurer qu'ils sont complets, cohérents et exacts. Pour être vérifiées par ordinateur, les réponses sont réparties en groupes d'imputation constitués en fonction du classement par activité économique, du lieu géographique et de la taille de l'unité déclarante. La composition de ces groupes est telle qu'ils regroupent des unités déclarantes qui présentent les mêmes caractéristiques et dont les caractéristiques affichent les mêmes liens entre elles. Cette vérification permet de comparer la valeur d'une caractéristique (nombre de salariés, heures de travail, gains par salarié, rapport du nombre actuel de salariés à celui du mois précédent, etc.) par rapport à la valeur de la caractéristique correspondante du mois précédent pour la même unité déclarante et/ou pour le groupe d'imputation. L'écart qui peut séparer la valeur d'une caractéristique et la valeur moyenne de la même caractéristique pour le groupe d'imputation tout entier est calculé séparément pour chaque groupe et pour chaque caractéristique, et dépend de l'homogénéité et de la stabilité du groupe lui-même.

Lorsqu'un chiffre s'écarte trop de la valeur moyenne pour tout le groupe d'imputation, ou lorsqu'on ne reçoit qu'une réponse partielle, l'unité déclarante est signalée lors de la vérification par ordinateur pour inspection et est sujette à être corrigée ou acceptée selon le cas.

2. Imputation

Chaque mois il existe certaines unités déclarantes dont on ne reçoit aucune réponse. Pour ces unités qui sont nouvellement introduites dans l'enquête, les données sont imputées manuellement et sont basées sur d'autres sources d'information telles que l'intention d'emploi de la firme et les caractéristiques des entreprises qui font partie de la même branche d'activité et qui sont situées dans le même lieu géographique.

L'imputation des unités déclarantes dont les données du mois précédent sont disponibles, est basée sur les changements mensuels rapportés par les unités déclarantes faisant partie du même groupe d'imputation. Un rapport du changement mensuel pour chaque caractéristique est appliqué aux données du mois précédent pour chaque entreprise non répondante.

Fiabilité des estimations

L'enquête sur l'emploi, la rémunération et les heures-hommes étant une enquête exhaustive, toute inexactitude dans les résultats est attribuable à une erreur d'observation. Parmi les exemples de sources d'erreurs d'observation, citons l'impossibilité d'obtenir des renseignements de toutes les unités faisant partie de l'enquête, les problèmes associés avec l'identification de toutes les unités qui devraient faire partie de l'enquête et ce dans le plus bref délai, les renseignements inexacts fournis par les entreprises répondantes et les erreurs de codage et de traitement des données. Les erreurs d'observation sont difficilement quantifiables et l'on n'a pas établi d'estimation de ce genre d'erreur pour

non-sampling errors by the use of a carefully designed and carefully worded questionnaire, the relative simplicity of the data requested, follow-up of non-respondents, thorough editing of data and control of the processing operations.

Statistical Presentation

1. Data Revision

Each month, statistics for the three latest months are prepared by the Employment and Payrolls Section. Data for the first, most current month, are entitled first estimates. They are based on a limited number of returns (usually about 55%) and only highly aggregated figures are released in the Statistics Canada *Daily* and the First Estimates table of this publication. Simultaneously, second estimates are prepared for the month immediately preceding the most current month and third estimates for the month prior to that. For both of these estimates which are based on a higher rate of response (approximately 75% and 82% respectively), full details are shown in this publication.

After completion of the third estimate, revisions to the data are made occasionally to incorporate large changes. The section, "Sources for Historical Data on Employment, Earnings and Hours", lists the issues that contain the revisions received from respondents or to rectify mechanical errors. These corrections appear in the tables of this publication.

2. Index Numbers

Index numbers are calculated by dividing the current month's employment (or payroll) by the monthly - average of the total base year employment (or payroll).

The index numbers constitute a better measure of the monthly trends in statistical series than the actual values because they are not effected by certain changes. For example, a large firm erroneously missing from the survey can be introduced by adjusting both the current and base year data and, thus, will not distort the monthly changes indicated by the index numbers. However, the measure of the monthly trend calculated from the actual value will be biased because the additions which should be reflected in all months are only included from the time the correction is made.

The technique used assumed that the change was applicable to the base period. When this assumption is incorrect, a bias is introduced in the long term trends.

3. Averages

Average weekly earnings for all employees are obtained by dividing the total weekly payrolls by the total number of employees. Average weekly earnings for salaried employees are obtained by dividing the total weekly salaries by the total number of salaried employees. Average weekly earnings for all wage-earners are obtained by dividing the total weekly wages by the total number of wage-earners.

Average hourly earnings are obtained by dividing total weekly wages of hourly-rated wage-earners by their total weekly hours. The average weekly hours figure is obtained

cette enquête. Toutefois, tous les efforts ont été faits pour minimiser les erreurs d'observation grâce à la conception et à la formulation soignées des questionnaires, la simplicité relative des données demandées, la relance des entreprises non répondantes, la vérification approfondie des données et le contrôle rigoureux des opérations de traitement.

Présentation statistique

1. Révision des données

Chaque mois, la Section des statistiques de l'emploi et de la rémunération prépare des statistiques pour les trois derniers mois. Les données du premier mois, le mois le plus récent, sont appelées "premières estimations". Elles sont fondées sur un nombre limité de déclarations (habituellement environ 55%) et seuls des chiffres très généraux sont publiés dans le *Quotidien* de Statistique Canada et dans le tableau "Premières estimations" de la présente publication. En même temps, la Section prépare des deuxième estimations pour le mois qui précède le mois le plus récent, et des troisième pour le mois qui précède celui-là. La présente publication contient tous les détails, pour ces deux dernières estimations qui sont basées sur un plus grand nombre de réponses (environ 75% pour les deuxième estimations et 82% pour les troisième).

Une fois terminées les troisième estimations, on modifie à l'occasion les données à la lumière de révisions importantes. La partie intitulée "Sources des données chronologiques sur l'emploi, les gains et la durée du travail" énumère les publications contenant les révisions.

2. Nombres-indices

On obtient les nombres-indices en divisant le nombre total de salariés (ou la rémunération) du mois courant par la moyenne mensuelle du nombre de salariés (ou de la rémunération) de l'année de base.

Les nombres-indices constituent une mesure plus valable des tendances mensuelles observées dans les séries statistiques que les valeurs réelles, car ils ne sont pas touchés par certaines variations. Par exemple, on peut introduire dans l'enquête une grande entreprise qu'on a oublié de dénombrer lors du listage en rajustant à la fois les données de l'année courante et celles de l'année de base et, ainsi, éviter de fausser les variations mensuelles affichées par les nombres-indices. Toutefois, toute mesure de la tendance mensuelle calculée à partir de la valeur réelle comportera un biais, car les ajouts qui devraient être faits pour tous les mois ne sont effectués qu'à partir du moment où la correction est apportée.

Cette procédure, suppose que le changement, s'appliquait aussi à l'année de base, lorsque cette hypothèse s'avère fausse, un biais se crée dans les tendances à long-terme.

3. Moyennes

On obtient les rémunérations hebdomadaires moyennes en divisant les rémunérations hebdomadaires totales par le nombre total de salariés. On obtient les rémunérations hebdomadaires moyennes pour les employés à salaire en divisant le total des salaires hebdomadaires par le nombre total d'employés à salaire. On obtient les rémunérations hebdomadaires pour les ouvriers en divisant le total des rémunérations hebdomadaires des ouvriers par le nombre total des ouvriers.

On obtient les gains horaires moyens en divisant le salaire hebdomadaire total des ouvriers rémunérés à l'heure par le nombre total d'heures par semaine. On calcule les heures hebdomadaires

by dividing total weekly man-hours by the number of wage-earners who were paid for those hours. Both of these averages apply only to the subset of wage-earners for whom hourly details are reported. It should be noted that total hours include overtime hours actually worked and that the wage-earners total includes part-time wage-earners and casuals working more than seven hours during the survey reference week.

4. Seasonal Adjustment

Fluctuations in economic time series are caused by seasonal, cyclical and irregular movements. A seasonally-adjusted series is one from which seasonal movements have been eliminated. Seasonal movements are defined as those which are caused by regular annual events such as climate, crop cycles, holidays and vacation periods. It should be noted that the seasonally-adjusted series contains irregular as well as long-term cyclical fluctuations.

The X-11 variant of the U.S. *Census Method II* is used to seasonally adjust the data. This seasonal adjustment system is a complex computer program which differentiates between the seasonal trend and the irregular movements in a series over a number of years and, on the basis of past movements, estimates appropriate seasonal factors for current data. On an annual basis the entire historical series of seasonally-adjusted data is revised in light of the most recent information on changes in seasonality.

This system is used to calculate the seasonally-adjusted employment index numbers, and the average weekly hours and average hourly earnings for selected statistical series. Additional seasonally-adjusted series may be found in "Employment, earnings and hours, seasonally-adjusted series, January 1961 - December 1977" (Catalogue 72-206).

5. Confidentiality

The information presented in this publication has been reviewed to ensure that the confidentiality of individual responses is respected.

moyennes en divisant le nombre hebdomadaire total d'heures-hommes par le nombre d'ouvriers qui ont été payés pour ces heures. Ces deux moyennes s'appliquent seulement aux ouvriers dont le nombre d'heures est déclaré. Il convient de remarquer que le nombre total d'heures comprend les heures supplémentaires réelles et que le nombre total d'ouvriers comprend les ouvriers à temps partiel et occasionnels qui ont travaillé plus de sept heures pendant la semaine de référence.

4. Désaisonnalisation

Les fluctuations des séries chronologiques économiques sont causées par des mouvements saisonniers, cycliques et irréguliers. Une série désaisonnalisée est une série dont on a éliminé les effets des mouvements saisonniers. Les mouvements saisonniers sont ceux qui sont causés par des événements annuels réguliers comme les changements de température, les cycles agricoles, les jours fériés et les vacances. Il convient de noter que la série désaisonnalisée contient des fluctuations irrégulières ainsi que des fluctuations cycliques à long terme.

La variante X-11 de la *Method II* de désaisonnalisation du U.S. *Bureau of the Census* est utilisée pour désaisonnaliser. Ce système permet de déceler les mouvements saisonniers, tendanciels et irréguliers au cours d'une période de plusieurs années et, à la lumière des mouvements passés, d'estimer les coefficients saisonniers appropriés pour l'année en cours. Sur une base annuelle, toute la série chronologique des données désaisonnalisées est révisée à la lumière des renseignements les plus récents sur les changements de saisonnalité.

Ce système est utilisé pour calculer les nombres-indices désaisonnalisés de l'emploi, ainsi que les heures hebdomadaires moyennes et les gains horaires moyens pour certaines séries statistiques. Vous trouverez d'autres séries désaisonnalisées dans le bulletin *Emploi, rémunération et heures, séries désaisonnalisées, janvier 1961 décembre 1977*, numéro 72-206 au catalogue.

5. Confidentialité

Les données présentées ici ont été examinées afin d'assurer que la confidentialité des réponses des entreprises soit respectée.
